TEST & MEASUREMENT

Mass InterConnect Solutions

...creating order out of wiring chaos.

Mass InterConnect Solutions

...creating order out of wiring chaos

VPC offers over 55 years of unparalleled experience and expertise in the field of Mass InterConnect solutions. Our commitment to uncompromising quality, commitment to continual improvement, and exceptional value means you can rest assured our products receive the rigorous and expedient testing you demand.

Used by test and measurement professionals in the fields of defense, aerospace, automotive, medical, and more, VPC provides the critical connection between the tester and the unit under test (UUT). By using a receiver on the tester side and mating it with an interchangeable test adapter (ITA), our modular and scalable solutions allow multiple types of I/O to be easily mated at one time, simplifying the test process.

Aerospace

Why VPC?

- Protect and extend the life of expensive test equipment
- Increase throughput by quickly and easily adapting tester to multiple UUTs
- Both standard and customized solutions to meet your specific needs
- A dedicated team of engineers to help you design and meet your system requirements
- Simplified cable and patchcord management
- Wiring configuration for virtually any type of test and measurement instrumentation

"Virginia Panel Corporation, through its people, is focused on enhancing customer satisfaction through our commitment to continual improvement, uncompromising quality, and exceptional value."

Full Scale Solutions

with small to large InterConnects.

Small Connectors

- Small connector options include: i1, i2 Micro, i2
 MX, iCon, iCon Signal and Hybrid, and iCon960
- Spring-loaded locking tabs ensure secure engagement
- PCB-mounting capabilities
- Rugged engagement mechanisms engineered for over 10,000 mating cycles

Compact, High Density Solutions

- Two, six, and 10 module solutions offer a mix of I/O options
- Mounting options include Vertical Hinged Mounting Frames, panel mounts, or slide mounts
- Keying pins, built-in cable clamps, and removable backshells ensure ease of use

Large Scale Systems

- > 18 to 75 module solutions
- > Slide mount variations available
- Platforms available on 20, 25, and 50 module receivers

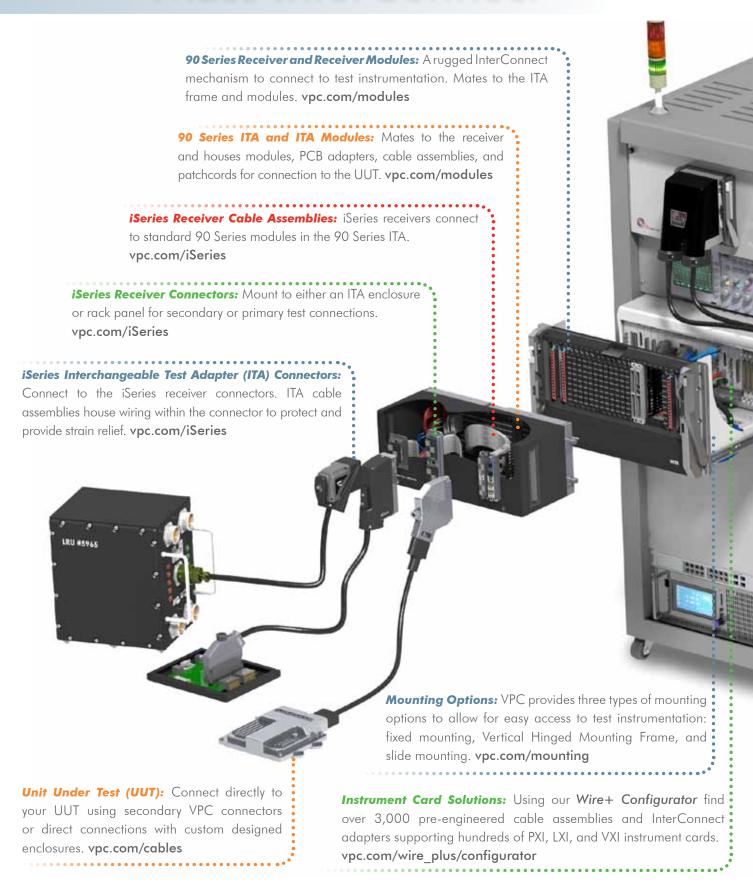

Scalable Solutions for Multiple Applications

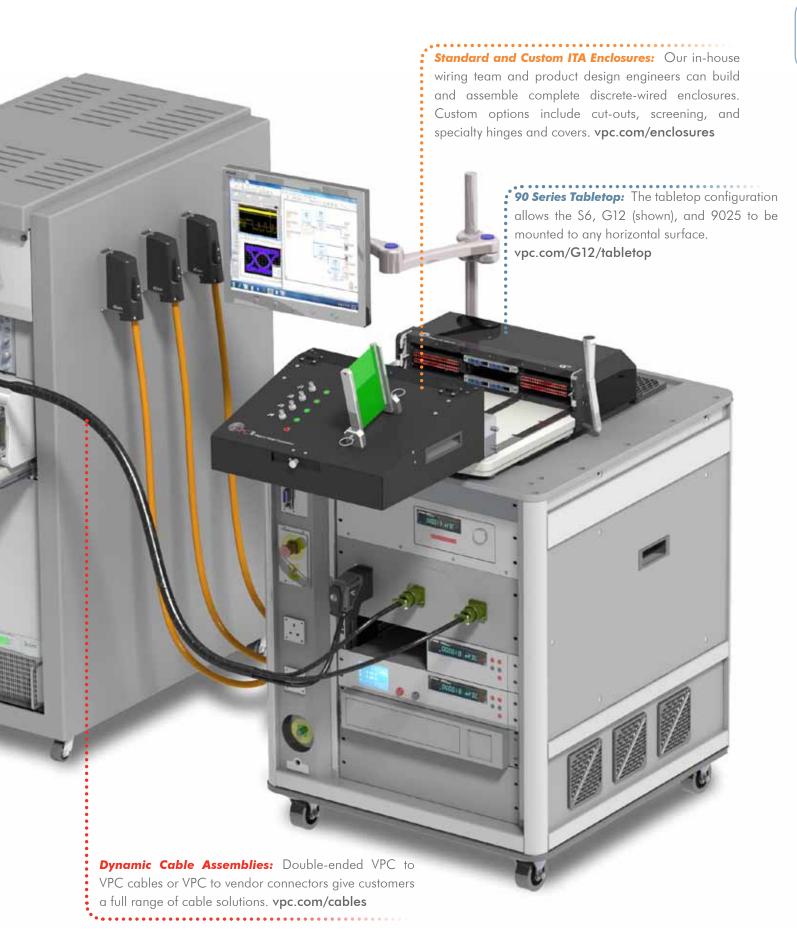

Our test systems are available in small, medium, or large formats to fit needs based on budget, footprint size, or I/O requirements. As demand has increased for smaller test systems with small format ITAs, our engineers have designed solutions with compatibility in mind.

Our Mass InterConnects are fully scalable. Should you purchase a cable assembly ITA today, you can continue to use them in your system even after you upgrade to larger systems to accommodate more I/O.

Features & Benefits of Using Mass InterConnect

Wiring Capabilities with quality and precision.

UNCOMPROMISED QUALITY

CONTINUAL IMPROVEMENT

EXCEPTIONAL VALUE

VPC is an ISO 9001:2008 certified business, reinforcing VPC's dedication to operating a Quality Management System. VPC manufacturing and engineering personnel undergo in-house training programs, including blueprint reading, GD&T, crimping, assembly, etc.

ISO 9001:2008 FM 91006

VPC is an IPC member in good standing. All wiring assemblers are trained to comply with soldering and inspection per IPC J-STD-001. VPC complies with IPC/WHMA-A-620 with inhouse certified IPC trainers and all assemblers having IPC-620A application specialist certification. VPC is capable of producing to all IPC classes (Classes 1, 2 and 3) depending on the customer's requirements.

The VPC Quality Assurance (QA) Lab conducts tests for point-to-point continuity, shorts, and insulation resistance to ensure the final product meets both your and VPC's high quality standards. The QA Lab's automated equipment uses our flagship tester, the CableTest MPT-5000. In addition, VPC's network analyzer tests the electrical response of RF cables to a specified frequency range.

Visit vpc.com/support/compliance for more information.

Dedicated to provide solutions across multiple standards

VPC's Wire+ Advantage provides engineered, finished, and quality tested cable assemblies. This enables easier system configuration, promoting integration of your Mass InterConnect system with virtually any type of test and measurement instrumentation. Whether you need discrete-wired cable assemblies, innovative PCB adapter cards, wired adapters, or our wired enclosures, VPC has a solution for your testing needs. Wire+ offers convenient "plug and play" capability for rapid configuration of your system.

VPC's state of the art wire-strippers, crimpers, and cutters speed production. Our combination stripper and crimper enables consistent, efficient, and reliable terminations. Automated quality machinery reduces test and validation time while ensuring you receive a quality product.

Online Configurators

VPC's online configuration tools enable you to design and configure your complete test and measurement solution. Choose from designing patchcords, configuring cable assemblies, PCB adapters, or a complete Mass InterConnect solution. We have made it easy to find the right part numbers you will need to make your connections.

Wire+ Configurator

vpc.com/wire_plus/configurator

Create Systems Online with online configurators.

Patchcord Designer

Patchcord Designer
lets you create a variety of
patchcords in one easy-to-use
tool. Simply select the VPC contact
and wire, the terminating contact and
wire, and the wire length and the designer
generates the part number, specifications, and a
detailed drawing for your patchcord. Alternatively, if
you know the part number or would like to look up the
wire or contact by its description, these features are
available. To access our Patchcord Designer, please visit
vpc.com/patchcorddesigner

Go To Step 2: Select the 1st Side Contact or the Wire Go To Step 2: Select the Wire, then 2nd Side Contact Step 3: Select length and quantity Select Wire Length © 20 is 0.0444 ml Occupant Select Wire Length © 20 is 0.04

Explore the possibilities!

- Create your custom patchcord
- View product details
- Download a customized drawing instantly

Wire + Configurator

Wire+ Configurator allows you to save time and money by providing a quick connection of cable assemblies and InterConnect adapters to your receiver. The configurator supports over 3000 PXI, VXI, and LXI cards and PXI, VXI, LXI, and PCI instrumentation.

To access our Wire+ Configurator, please visit **vpc.com/wire_plus/configurator**

InterConnect Designer

With the InterConnect Designer, you can build a complete InterConnect solution from start to finish. The designer allows you to submit a request for configuration to your local Field Application Engineer and collaborate using your MyVPC account.

To access our InterConnect Designer, please visit vpc.com/interconnectdesigner

FEATURES AND BENEFITS

- Standardizes the format of communication
- Shows both the horizontal and vertical relationships
- ➤ Generates real-time configurations with VPC engineering updates
- Provides quick information using VPC's Product Information Window (PIW)

- Request a quote with the click of a button
- Attaches to a MyVPC project for easy collaboration
- Downloads to Excel template to enable offline sharing
- Streamlines your wiring request and reduces testing with VPC's wiring template

View Your Configuration

Through your account on MyVPC, you can organize and display your configuration, communicate with your application engineer and local sales team member, and view your configuration. You can also attach your configuration to your secure MyVPC project and easily request a quote.

VPC continuously develops new products to meet the needs of the test and measurement industry. We take great pride in offering reliable, economic solutions to organize your connections in modular and scalable configurations that can adapt to your changing test requirements.

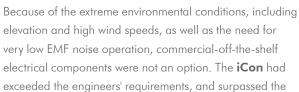

VPC welcomes all application articles and thanks those that have allowed VPC to highlight today's test technology. Visit **vpc.com** for more applications.

Department of Astronomy at Ohio State University • iCon

The Multi-Object Double Spectrographs (MODS) group at Ohio State University's Department of Astronomy integrated VPC's **iCon** into MODS1, the spectrograph for the left Gregorian focal station of the world's largest optical telescope, the Large Binocular Telescope (LBT). **iCon** had to be operational in the telescope dome environment, in ambient temperatures range from -28° C to 28° C (not factoring for humidity).

The LBT is comprised of two 27.5 foot wide mirrors built into a single mount. The mirrors operate in conjunction with two MODS. Scientists use the LBT and MODS to analyze the distance, physical conditions, and chemical makeup of the most distant stars and galaxies.

specifications for the spectrograph's signal-to-noise ratio.

www.astronomy.ohio-state.edu/ MODS/index.html

Applications \vee

ARC Technology Solutions • G12 Solution • Test and Measurement

ARC's Mixed Signal Automated Test (MSAT) system highlights the latest in cost effective, high performance automated test equipment, yields a reduced test development time, and lowers the cost of ownership. The MSAT is a highly integrated test system incorporating ARC's CID and VIPERION test products, along with a combination of VPC, National Instruments PXI, and other commercial-off-theshelf test and measurement equipment. ARC has chosen VPC's G12 receiver for the MSAT system due to its ability to interconnect to a variety of devices while offering a sturdy, reliable interface. Additionally, ARC's VIPERION High Speed Digital Testers connect directly to the G12's QuadraPaddle connectors allowing for optimal testing conditions directly at the unit under test's (UUT's) connection to the MSAT. The VPC G12 incorporated into ARC's MSAT is currently fielded at several government and commercial locations supporting critical items for the aviation and defense sector.

ARC Technology Solutions is a leading provider of technical solutions including test system design and integration for many industries.

www.arcserv.com

Cobham • iConEMI • Test and Measurement

Cobham uses VPC's iConEMI connector in its Multimedia Test System (MMTS). The MMTS is a fully-integrated measurement system that significantly reduces test time for multimedia-capable devices such as DVD players, mobile devices, computers, and video game consoles. The MMTS is designed to be an all-in-one system that eliminates the need for stand-alone measurement devices.

The MMTS delivers all the measurement hardware and software necessary for testing the most common video and audio signals and digital protocols. It can efficiently test up to four multimedia devices in parallel, using VPC's iConEMI, maximizing testing throughput without sacrificing the quality or the speed of measurements.

Cobham engineers chose VPC's iConEMI connector for the electromagnetic interference (EMI) protection it provides with its earth-ground terminal, VPC's "mate first, break last" feature.

Cobham is a global leader in avionics, communications and synthetic test, monitoring and control for commercial and military applications.

www.cobham.com

Bloomy • il • Industrial Electronics Manufacturing

Bloomy uses VPC's **i1** connector in its compactUTS (cUTS) to automate mixed-signal functional tests (FCT) for assemblies in electronics manufacturing environments. The cUTS is a cost-effective platform for automating manual tests of devices with fewer than 50 cable-accessible test points in manufacturing environments with moderate production volume. Powered by National Instruments USB instrumentation, the **i1** connector and Bloomy's power control and switch matrix electronics, the cUTS makes changeover quick and easy.

Units under test (UUTs) by the cUTS are connected via cable or a cable/interface test adapter (ITA). Each cable uses an electrically keyed **i1** connector with internal configuration jumpers and leads connecting to test points on the UUT and/or ITA. A Self-test Suite is available that uses a specially-configured **i1** to switch through to the Mass InterConnect, assuring the proper functioning of the cUTS in daily test operations.

Bloomy is a leader in automated test, data acquisition, and control systems.

www.bloomy.com

JGB Consulting • iCon • Manufacturing

JGB engineers have integrated VPC's

iConconnector into their Hoist ATE. The Hoist tester is designed to test an d verify the functionality of various hoist models built at a manufacturing/repair facility.

The Hoist ATE utilizes the **iCon** connector to connect one of the 38 Hoists (eight different families) to be tested. The **iCon** connects high power and high current, as well as digital signaling to the hoist.

Each **iCon** cable has a memory pin which uniquely identifies the connected unit. The tester senses it on contact and automatically loads the correct software to run, making it fool-proof for the operator.

JGB Consulting is an automated test equipment integrator headquartered in Point Pleasant, New Jersey. JGB designs commercial-off-the-shelf automated test systems and test software.

www.jgbconsulting.com

Aeroflex • i2 Micro iCon • Defense

Aeroflex integrated VPC's **i2 Micro iCon connector** in a contract with the U.S. Marine Corps to supply Ground Radio Maintenance Automatic Test Systems (GRMATS). The Aeroflex 7200 Configurable Automated Test Set (CATS) provides flexible and scalable test instrumentation in a complete radio test system.

Aeroflex engineers chose VPC's **i2 Micro iCon** as the 7200 CATS connector interface to the units under test (UUTs) due to its ability to meet the .80" profile requirement, 168 signal pin high-density with PCB connection capability, and tested reliability.

Per the announced U.S. Marine Corps contract, the test platform has been adopted for testing new digital and legacy radio systems. In addition to testing software-defined radios and modules, the portable 7200 CATS platform can test radar, avionics, and other devices in a dramatically reduced footprint with the **i2 Micro iCon** connector.

Aeroflex, a Cobham Company, is a global provider of test and measurement equipment used by companies in the space, avionics, defense, commercial, and medical markets.

www.aeroflex.com

NOFFZ • iCon • Automotive

The UTP 9065 is used for parallel inline testing of up to 28 different automotive Emergency Call (eCall) modules simultaneously in a climate chamber. This requires equipment that is modular, mobile, and scalable. The UTP 9065 uses VPC's **iCon** connector, making it possible to conduct various performance, communications, and functional tests with the easy engage/ disengage mechanism, while allowing operators to replace device testers for a new test series with minimal time loss.

The standard version of the UTP 9065 includes a server, a touch panel control unit, and 10 test cells for inline testing. It can also be upgraded as a completely automated inline tester system. Future enhancements include the incorporation of VPC's **SIM VTAC High Speed Data (HSD)** inserts.

NOFFZ ComputerTechnik GmbH, headquartered in Germany, has focused on fast and flexible solutions for automated test systems for over 20 years. As a leading supplier of automotive communication technologies, including complex internet connections, navigation systems, assist services, and the legally required eCall, NOFFZ requires sophisticated and rugged testing equipment.

www.noffz.com

Hiller Measurements • 9025, G6, iCon • Automotive

VPC's **9025**, **G6**, and, **iCon** interfaces allow Hiller Measurement's automobile customers to create custom, configurable test systems with commericial-off-the-shelf components and standard test interfaces. These benefits reduce time and costs, while providing the expected quality and reliability of high-end automobile manufacturers.

Headquartered in Austin, Texas, Hiller Measurements is a family-owned company that designs testing systems for the automotive industry. With over 60 years of test system design expertise, the partners of Hiller Measurements have designed systems used by several premium automobile manufacturers. Hiller Measurements has also designed test systems for satellite communications, avionics, radar systems, and medical devices.

www.hillermeas.com

CableTest • iCon • Aerospace

The CableTest Systems MPT Wiring Analyzer is used for testing complex electrical interconnect sub-systems manufactured by a major Airbus supplier on the A350 XWB program. The MPT tester uses a combination of standard rack mount instruments and CableTest high voltage/high current sources and switching, all connected with VPC's **iCon** connector. The MPT tester and VPC's interface support voltages up to 4000VDC and up to 7 amps.

The **iCon** connector allows test operators to use common interface cables and test set-up for continuity, dielectric, and functional tests on the various interconnect systems (harnesses, motherboards, black boxes). By standardizing with the **iCon**, CableTest was able to create a high-quality, configurable test system that could be shared at multiple sites.

CableTest Systems Inc, has designed and manufactured electrical interconnect test equipment for more than 20 years. Its world-class ATE solutions are used globally by industry leaders including Bombardier, Boeing, Goodrich, Honeywell, Lockheed Martin, Moog, and Parker.

www.cabletest.com/en

Applications \vee

Robins Air Force Base • iCon, 9050 VXI • Defense

Test engineers at Robins Air Force Base have used VPC's 9050 **VXI** with an L-shaped enclosure and **iCon** secondary connector in the Versatile Depot Automatic Test Station—Digital Analog version 2 (VDATS DA-2). In this application, the **iCon** connector is used to automatically test avionics circuit cards for the F15 fighter APG-63 system.

The 9050 VXI receiver and interface test adapter (ITA) form the backbone of the tester. With a common I/O pin map, any number of groups can develop ITAs and Test Program Sets to utilize the VDATS tester, simplifying testing and procurement. VPC's L-shaped enclosure design is ideal for testing circuit cards because it allows the card to be mounted on a horizontal surface to prevent damage. One of the greatest challenges of the design for the ITA was to find the ideal connector for the unit under test (UUT). The ITA requires 308 electrical connections. The plan called for the use of 50 Ohm coaxial wire utilizing wire wrap, but the test engineers also wanted the option to use crimp technology if needed. Ease and speed of installation and removal was a high priority, as technicians would need to engage and disengage the connecting assembly frequently.

The test engineers chose VPC's **iCon** connector due to its extreme versatility; the connector offers a wide range of pin configuration and termination types. **iCon's** low insertion force and simple secure locking mechanism makes it one of the simplest connectors for technicians to install and remove. The project team also found VPC's support beneficial. During manufacturing, the project schedule began to experience delays. The project group turned to

VPC to pre-wire their **iCon**, which enabled them to get back on schedule.

Snap-In-Modular Solutions

with SIM Technology.

What is SIM Technology?

The Snap-In-Modular (SIM) insert is a proprietary snap-in technology that uses latches to anchor the insert to a SIM module. The inserts for SIM VTAC High Speed Data (HSD), SIM QuadraPaddle, and SIM VTAC Right Angle are each interchangeable in 90 Series SIM modules and i2 MX connectors.

Whether you are using patchcords or custom PCBs in your solution, SIM inserts provide the opportunity to use HSD contacts in broadband applications.

High Speed PCB Connections

The SIM VTAC HSD also comes in a right angle PCB configuration, the SIM VTAC Right Angle insert. It is ideal for a variety of applications that require a wireless solution for your project.

SIM VTAC Right Angle is sold as part of a kit to help connect custom PCBs to a 90 Series receiver module or i2 MX ITA. These contacts are capable of data transfer rates of more than 10 Gbps.

Useful Applications

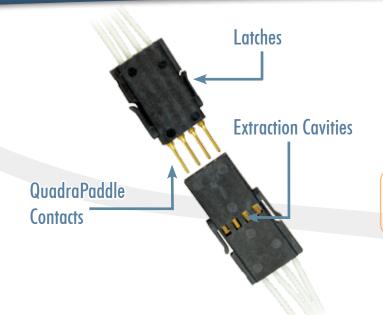

SIM VTAC Right Angle are ideal for Pull-Thru applications. Connecting your PCB to your ITA, you can harness the speeds required for rapid data acquisition.

Due to the design of the SIM VTAC Right Angle, you can still configure your ITA to use patchcords since the right angle inserts only consume a fraction of a traditional PCB adapter.

SIM QuadraPaddle Options

Not every application requires high speed data transfer. We also offer a SIM QuadraPaddle insert for signal or lower speed applications. You can outfit an i2 MX and 90 Series with both high and low speed, giving you increased scalability and versatility to meet any project's needs.

Use SIM Anywhere You Use VTAC HSD

The added variety of contacts give you more options to leverage high speed technology in your solution.

The 90 Series SIM modules have 34 positions available to accept SIM VTAC HSD, SIM VTAC Right Angle, or SIM QuadraPaddle. Alternatively, the i2 MX connectors have 22 positions available for solutions where a smaller footprint is required.

Compatible with COTS Connectors

Whether you choose patchcords or right angle inserts for a PCB solution, all SIM inserts are compatible with commercial-off-the-shelf (COTS) connectors, including:

- USB 3.0
- RosenbergerHSD
- **HDMI**
- DVI
- Mini-SAS HD
- SATA
- RJ45
- QSFP
- **VHDCI**
- InfiniBand

SIM Technology

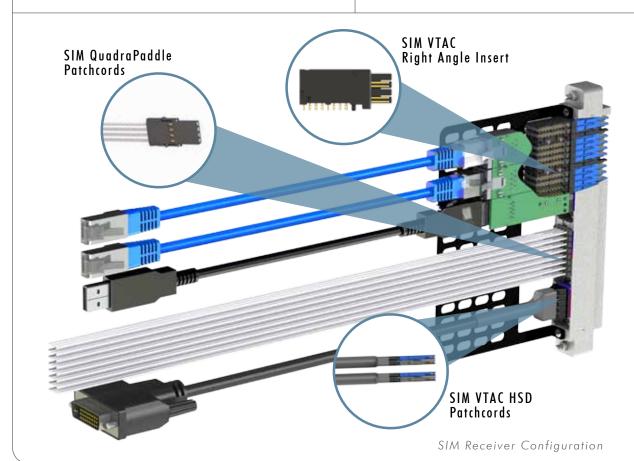

Each of the Snap-In-Modular (SIM) inserts share the same footprint, which makes them all compatible with our i2 MX connector and 90 Series SIM modules. The added compatibility means more options to intermix insert types within a single module and to conduct tests at a range of signal speeds.

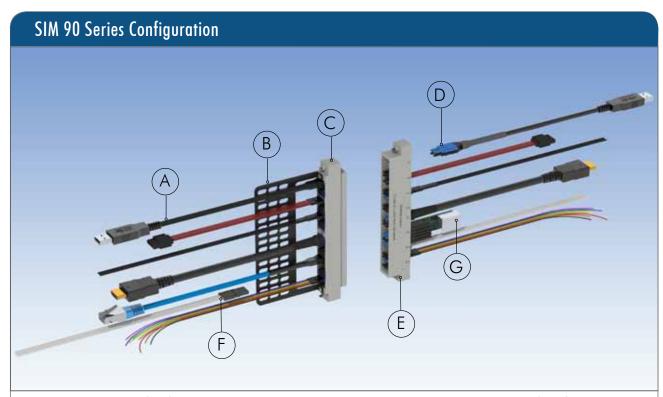

Features and Benefits

- Stackable I/O in a small footprint
- Transfer data at speeds more than 10 Gbps (12.5+ Gbps with patchcords)
- Precision-welded patchcords and PCB configuration eliminates signal crosstalk from other contacts and ensures signal integrity
- Opportunity to use both patchcords and custom PCBs in the same solution
- Easy to remove contacts to allow for trouble-shooting

Characteristic Impedance	100+/- 10 Ω - differential pair 50+/- 5 Ω - single-ended	
Operating Voltage and Current	3 amps max. continuous (350 volts max.)	
Contact Resistance	40 mΩ max. per mated contact	
Insulation Resistance	1000 MΩ min.	
Dielectric Withstanding Voltage	1050 VDC RMS min.	
Mating Force	12 oz max. [340 g] per insert	
Insert Material	Outer shell: black LCP	

This fully loaded SIM module kit comes with 34 SIM VTAC HSD double-ended and VTAC Right Angle inserts Part # 610 151 106. The module kit comes with two PCB brackets to help to secure and reinforce the module to a PCB. It also comes with two 2-56 captive module screws, and four M2 x 5 mm flathead screws.

34 Position SIM Module Inserts

SIM Module, Receiver, 34 Position • Part # 510 170 101 ITA • Part # 510 171 101

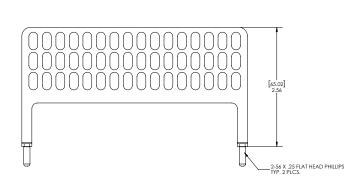

Specifications

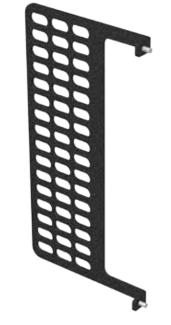

Material	Nickel plated zinc
Operating Temperature	-40°C to 125°C
Available Contact Positions	34
Module Positions Needed	1

The 90 Series SIM receiver and ITA modules can accept up to 34 SIM inserts, including: SIM VTAC HSD, SIM QuadraPaddle, and SIM VTAC Right Angle.

SIM Solutions • Accessories

The strain relief plate is made of aluminum and is black powder coated. It includes four wire ties and stainless steel hardware.

Strain Relief Plate, Receiver/ITA, SIM Module • Part # 510 109 568

Blank inserts are for unused SIM insert slots. One blank insert fills a SIM single insert slot and fits in either receiver or ITA 90 Series modules or the i2 MX. Ten blank inserts are included per part number.

▶ Blank Insert Kit Receiver/ITA, SIM, 10 Pieces • Part # 610 151 102

Endless Possibilities

with i2 Micro iCon.

Innovative Engagement Design

- Spring-locking tabs fasten over latching post for secure engagement
- Keying pins and rectangular locking mechanism ensure even and precise engagement
- Removable ITA backshell enables easy wire access

Compact and Stackable

- > Sleek .8" footprint enables horizontal stackability in a multi-connector layout
- 30° angled cable exit minimizes vertical space between connectors

PCB Capable

- High-density signal headers enable direct connection to PCB adapter or PXI card
- > Header contains solderless compliant pins for easy integration
- > Twin female **QuadraPaddle** contacts can be directly connected to the PCB using right angle headers

Exceptional Capabilities

- > Options include: i2 wired, i2 direct to PCB, i2 to flex print, and i2 to PCB adapter
- ➤ High-density signal connector offers 168 signal positions
- i2 Hybrid connector offers 120 signal and 12 Micro Power/Micro Coaxial positions

- > Rugged engagement mechanism engineered for over 10,000 cycles
- 360° engagement handle provides zero Z tolerance

For a complete list of i2 product offerings visit vpc.com/i2

1 Module Solution • i2 Micro iCon

i2 Micro iCon meets the need for a slim-line, low I/O connector. Designed for the small connector market, i2 offers a sleek .8" footprint with capabilities for discrete-wiring, horizontal, and right-angle PCB mounting.

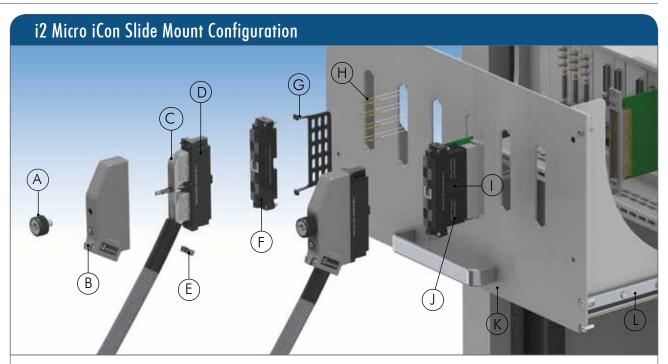

Features and Benefits

- 168 signal points available with QuadraPaddle technology
- Hybrid version offers 120 signal and 12 Micro Coaxial/ Micro Power positions
- 30° cable exit for vertical stackability
- 0.8" footprint for horizontal stackability
- Integrated spring locking tabs ensure even and secure
- Keying pins to prevent connector mismatch and damage to
- Direct connection to PCB with the 84 or 60 pin header
- Connection options include: i2 direct to PCB, i2 to flex print, i2 to PCB adapter card, and i2 discrete-wired
- Engineered for over 10,000 cycles

i2 Micro iCon Loaded Twin Female Contacts • Receiver ▼

Receiver, i2 Micro iCon, 168 Position, Fully Loaded with Twin Female Contacts (610 138 200) Part # 310 130 101

Receiver Specifications

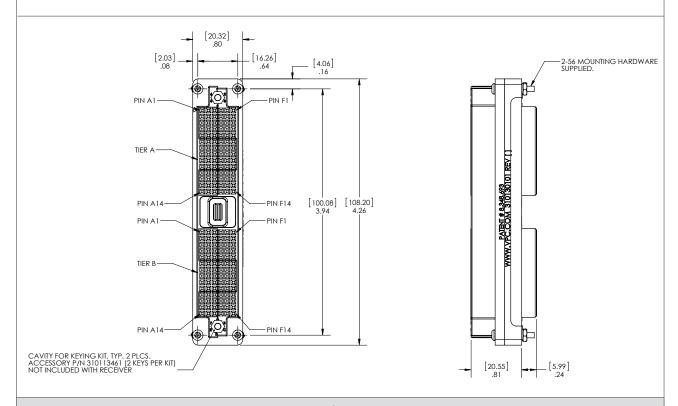

Received openinuments	
Weight	.18 lbs [.08 kg]
Frame Material	Glass reinforced thermoplastic
Hardware Material	Stainless steel alloy
Contact Positions	168 (loaded)
Cycle Life	10,000 cycles
Temperature	−55° C to 105° C
Vibration Random	11.6 g's RMS (Condition V PSD 0.1 MIL-STD-1344, Method 2005/ EIA364-28)
Vibration Sine	15 g's (Condition III MIL-STD-1344, Method 2005/EIA364-28)
Temperature	-55° C to 105° C

The i2 Micro iCon receiver is capable of holding up to 168 QuadraPaddle contacts. QuadraPaddle modules are molded on .100" (2.54 mm) centers to meet the need for high-density I/O in a compact assembly. This i2 receiver is fully loaded with QuadraPaddle twin female signal contacts, Part # 610 138 200. An unloaded crimp version is also available, Part # 310 130 102.

i2 Micro iCon Unloaded Twin Female Contacts • Receiver ▼

Receiver, i2 Micro iCon, 168 Position, Unloaded, for Twin Female Contacts (610 138 200) Part # 310 130 107

Receiver Specifications

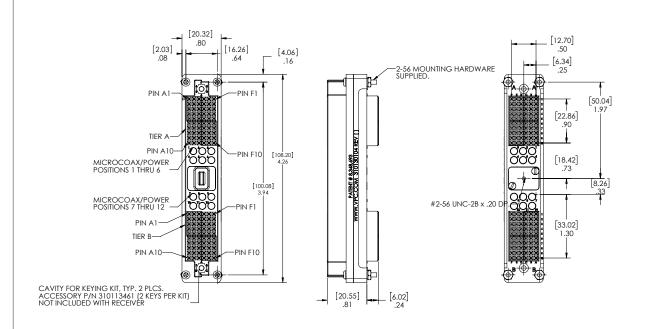

•	
Weight	.14 lbs [.06 kg]
Frame Material	Glass reinforced thermoplastic
Hardware Material	Stainless steel alloy
Contact Positions	168
Cycle Life	10,000 cycles
Shock	50 g's (Condition A MIL-STD-1344, Method 2004/EIA364-27)
Vibration Random	11.6 g's RMS (Condition V PSD 0.1 MIL- STD-1344, Method 2005/EIA364-28)
Vibration Sine	15 g's (Condition III MIL-STD-1344, Method 2005/EIA364-28)
Temperature	-55° C to 105° C

This i2 Micro iCon receiver comes ready to load with twin female contacts Part # 610 138 200.

i2 Micro iCon • Hybrid Receiver

Receiver, i2 Micro iCon, 120/12 Position Hybrid, Loaded with Twin Female Contacts (610 138 200)
Part # 310 130 104

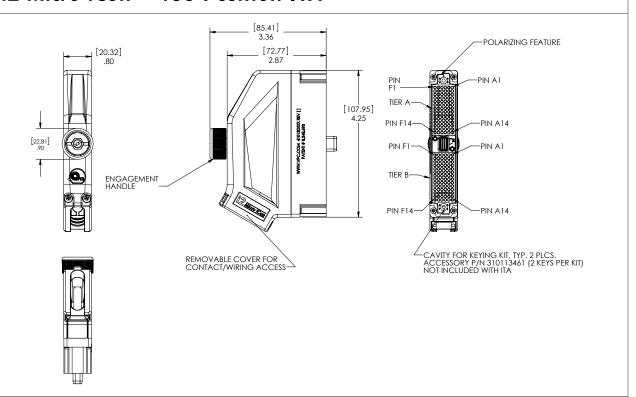

Receiver Specifications

<u>-</u>	
Weight	.25 lbs [.11 kg]
Frame Material	Glass reinforced thermoplastic
Hardware Material	Stainless steel alloy
Contact Positions	120 signal, 12 Micro Coax/Power
Cycle Life	10,000 cycles
Temperature	−55° C to 105° C

The i2 Micro iCon hybrid receiver is capable of holding up to 120 QuadraPaddle and 12 Micro Coax or Micro Power contacts. This i2 receiver is loaded with QuadraPaddle twin female signal contacts, Part # 610 138 200. An unloaded crimp version is also available, Part # 310 130 105.

i2 Micro iCon • 168 Position ITA

ITA, i2 Micro iCon, 168 Position • Part # 410 130 101

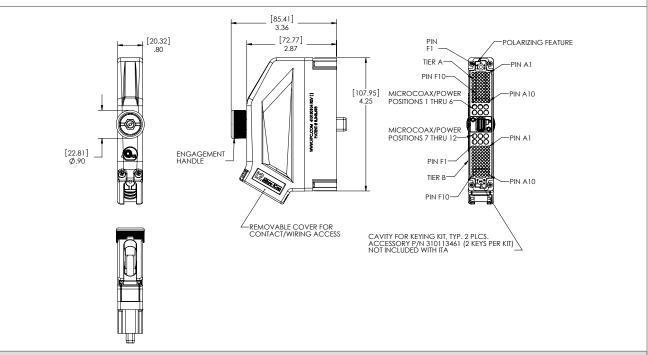

ITA Specifications

Weight	.25 lbs [.11 kg]
Frame Material and Housing	Glass reinforced thermoplastic
Hardware Material	Stainless steel
Latch Material	Nickel plated beryllium copper
Backshell Material	Glass reinforced thermoplastic
Cable Clamp Material	Powder coated aluminum
Contact Positions	168 signal
Cycle Life	10,000 cycles
Temperature	−55° C to 105° C

The i2 Micro iCon ITA is capable of holding up to 168 QuadraPaddle contacts. The 30 degree U-shaped cable clamp allows ITA modules to be pre-wired before assembly and can hold cable bundles with an oblong bushing effective diameter of .77". The removable backshell allows easy access to wiring for maintenance and probing.

i2 Micro iCon • Hybrid ITA

➤ ITA, i2 Micro iCon, 120/12 Position Hybrid • Part # 410 130 104

ITA Specifications

Weight	.25 lbs [.11 kg]
Frame Material and Housing	Glass reinforced thermoplastic
Hardware Material	Stainless steel
Latch Material	Nickel plated beryllium copper
Backshell Material	Glass reinforced thermoplastic
Cable Clamp Material	Powder coated aluminum
Contact Positions	120 signal, 12 Micro Coax/Power
Cycle Life	10,000 cycles
Temperature	−55° C to 105° C

The i2 Micro iCon hybrid ITA is capable of holding up to 120 QuadraPaddle and 12 Micro Coaxial or Micro Power contacts. The 30 degree U-shaped cable clamp allows ITA modules to be pre-wired before assembly and can hold cable bundles with an oblong bushing effective diameter of 0.77". The removable backshell allows easy access to wiring for maintenance and probing.

i2 Micro iCon • Accessories

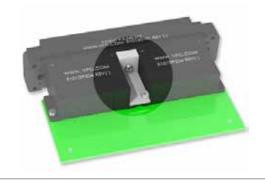

The 84 pin header for i2 Micro iCon contains solderless pins and enables a direct connection from the i2 standard receiver to a PCB such as a PXI card.

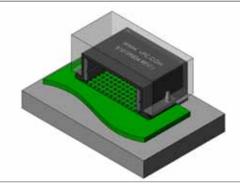

The 60 pin header for i2 Micro iCon contains solderless pins and enables a direct connection from the i2 Hybrid receiver to a PCB such as a PXI card.

Header, Receiver, i2 Micro iCon, 84 Pin, for PCB Mounting • Part # 510 109 204

The i2 Micro iCon mounting bracket secures the PCB to the receiver module.

The press kit tool for i2 PCB headers aids in pressing the press fit pins into the header.

Bracket, Receiver, i2 Micro iCon, for PCB Mounting • Part # 310 113 562

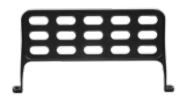

The receiver protective cover protects contacts when the receiver is not in use.

The ITA protective cover protects contacts when the ITA is not in use. This cover features an included wire lanyard.

The i2 Micro iCon strain relief plate attaches to the wiring side of the receiver and can be secured before receiver installation.

Protective Cover, i2 Micro iCon, Receiver • Part # 310 113 569 Protective Cover, i2 Micro iCon, ITA • Part # 410 112 924

Strain Relief Plate, i2 Micro iCon, Receiver • Part # 310 113 559

More Configurability

with 12 MX.

Expanded Options

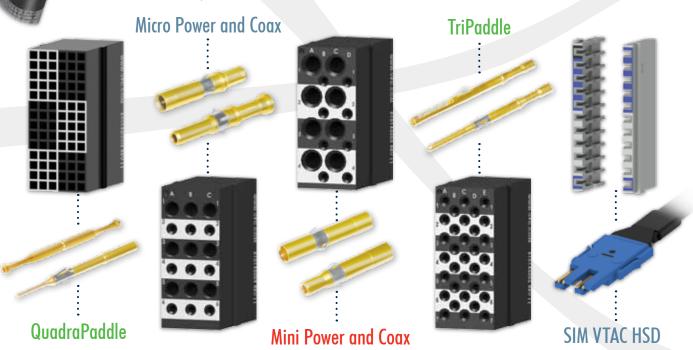

The **i2 MX** builds upon on the success of the popular i2 Micro iCon, offering a configurable connector in a slim .8" footprint. Now with **multiple I/O options** to choose from, i2 MX allows you to engineer the ideal connector to meet your test application needs.

Featuring an all metal backshell and an innovative cable exit, i2 MX provides maximum cable bundle capacity with available **electromagnetic interference (EMI)** protection. i2 MX meets the demand for higher levels of signal performance necessary in today's testing applications.

Configured for Any Test

The i2 MX offers more contact options than the standard i2, allowing the flexibility to choose **multiple modular inserts** to fit your needs.

- Slimmer, metal engagement knob allows increased horizontal stackability
- EMI option provides effective shielding performance and ensures signal integrity
- Multiple contacts supported: QuadraPaddle, TriPaddle, SIM VTAC HSD, Power, and Coax
- Reversible all-metal backshell for multiple mounting options

Modular

Various modular inserts available for increased contact selection

Scalable

Can be used within multiple VPC interfaces, including 90 Series

Configurable

Interchangeable modular inserts to fit requirement needs

For a complete list of i2 MX product offerings visit vpc.com/i2MX

2 Module Solution • i2 MX ▼

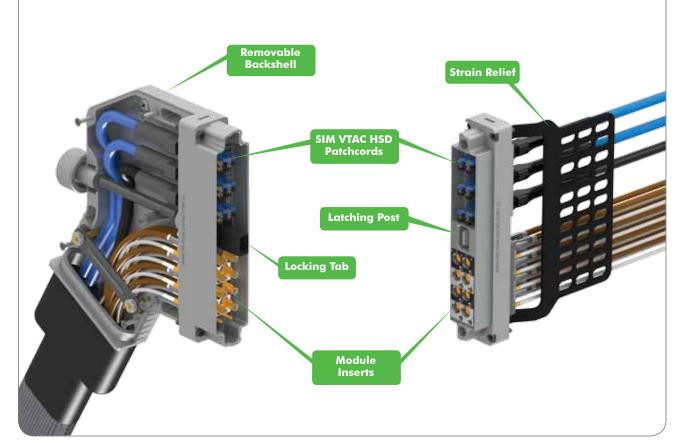

The i2 MX was engineered to retain the popular features of the i2 Micro iCon, while addressing the need of electromagnetic interference (EMI) shielding in the testing industry. The i2 MX also features the modularity and versatility of the iCon, offering a greater variety of I/O options.

Features and Benefits

- EMI-shielding minimizes EMI leaks to and from other sources
- Oblong cable exit provides clearance for maximum cable bundle capacity and EMI-shielding
- Multiple I/O's supported: signal, coax, power, and high speed
- Easy access for trouble-shooting and maintenance with removable side panel on ITA backshell
- Specifically designed receiver strain relief for reliable patchcord alignment and security
- Engineered for over 10,000 cycles

- Functional in thermal testing environments from -55°C to 105°C

Exceptional Design Features

- Polarizing feature with optional keying for proper alignment
- 30° U-shaped cable clamp for strain relief
- Optional EMI-shielding to protect signal integrity with metallized plastic shielding in the backshell
- > Removable backshell and engaging mechanism enable easy wire access

For a complete list of EMI conduit and backshells visit www.vpc.com/backshell

Quick Connect half-turn engagement handle

Unique Engagement

- Half-turn quick cam mechanism
- Spring-locking tabs with polarizing feature ensure even engagement
- Keying and guide pins maintain proper alignment when engaging

Variety of Options

- Accepts all iCon modules; hybrid modules allow multiple I/O options, including: signal, power, coax, fiber optic, pneumatic, and high power
- PCB-mountable with QuadraPaddle technology
- Standard double-ended and flying lead cable configurations available
- Visit vpc.com/wire to explore our wiring options

1 Module Solution • i1

The i1 is ideal for small connector needs. Following the success of VPC's popular rack and panel connector, iCon, the i1 was developed to satisfy the need for an even smaller connector. Each i1 connector holds a single iCon module, making it the perfect solution for low I/O, hybrid applications.

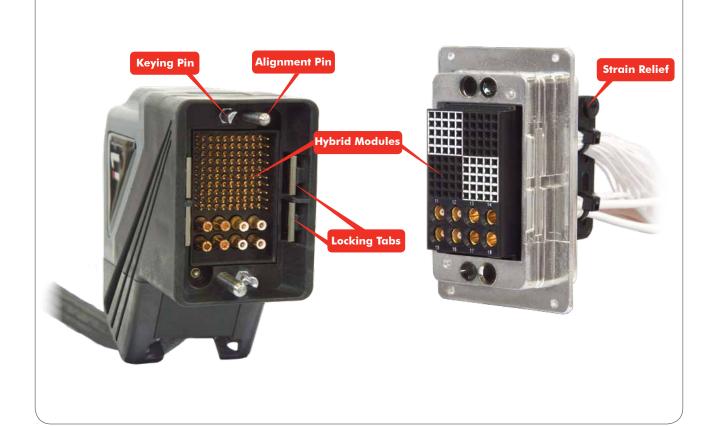

Features and Benefits

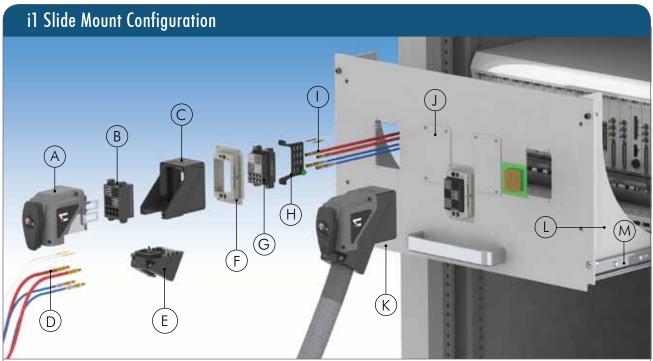

- Accepts all iCon modules, enabling mixing of I/O with hybrid modules
- PCB-mountable
- Spring-locking tabs ensure even engagement
- Keying and guide pins ensure proper alignment and prevent incorrect mating
- Recessed ITA contacts protect your investment
- Removable backshell and engaging mechanism allow easy access to wire
- Engineered for over 10,000 cycles

il Receiver

Receiver, i1, with Protective Cover • Part # 310 128 101

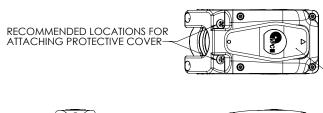

Receiver Specifications

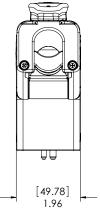

-	
Weight	.10 lbs [.05 kg] without protective cover
Frame Material	Nickel plated aluminum alloy
Hardware Material	Stainless steel alloy
Protective Cover Material	ABS, black
Available Module Positions	1 position
Cycle Life	10,000 cycles
Temperature	-55° C to 105° C

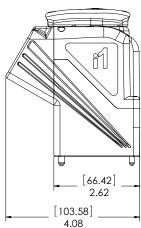

The il receiver accepts a single iCon module and allows a variety of signal, power, coaxial, thermocouple, and fiber optic connections. A protective cover is included with the receiver. Other accessories are available, such as keying pin kits and strain relief.

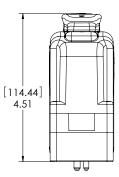

il ITA ▼

-HANDLE SHOWN IN ENGAGED POSITION. ROTATE 180° COUNTER-CLOCKWISE FOR DISENGAGED POSITION.

► ITA, i1, with Protective Cover • Part # 410 128 101

ITA Specifications

Weight	.55 lbs [.25 kg] without protective cover
Frame Material and Clamp Housing	Glass reinforced thermoplastic
Hardware Material	Stainless steel
Latch Material	Nickel plated beryllium copper
Backshell Material	Glass reinforced thermoplastic
Protective Cover Material	ABS, black
Available Module Positions	1 position
Cycle Life	10,000 cycles
Temperature	-55° C to 105° C

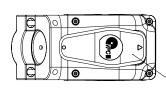

The U-shaped cable clamp is adjustable to accommodate the amount of wires in your cable bundle.

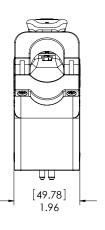

The i1 ITA's small width and inboard handle increase side-to-side stackability. The U-shaped cable clamp allows modules to be pre-wired before assembly and can hold cable bundles up to 1.07" diameter. The removable backshell allows easy access to wiring for maintenance and probing. A protective cover is included with the ITA.

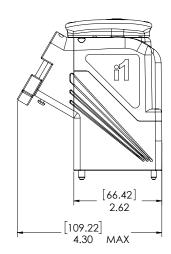

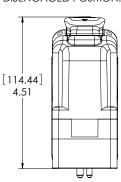

il ITA with Large Cable Clamp

—HANDLE SHOWN IN ENGAGED POSITION. ROTATE 180° COUNTER-CLOCKWISE FOR DISENGAGED POSITION.

ITA, i1, with Large Cable Clamp and Protective Cover • Part # 410 128 103

ITA Specifications

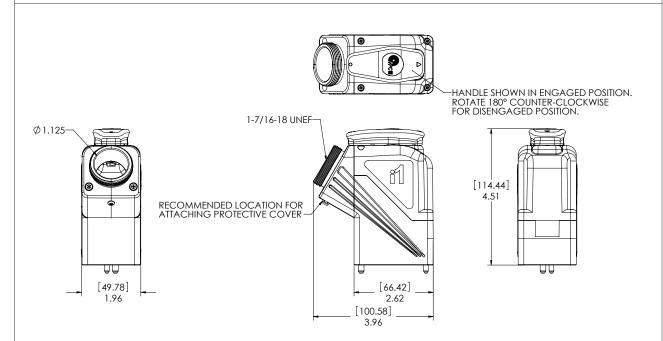

Weight	.55 lbs [.25 kg] without protective cover
Frame Material and Clamp Housing	Glass reinforced thermoplastic
Hardware Material	Stainless steel
Latch Material	Nickel plated beryllium copper
Backshell Material	Glass reinforced thermoplastic
Protective Cover Material	ABS, black
Available Module Positions	1 position
Cycle Life	10,000 cycles
Temperature	-55° C to 105° C

The U-shaped cable clamp is adjustable to accommodate the amount of wires in your cable bundle.

This iTIA option provides a larger cable clamp that allows modules to be pre-wired before assembly and can hold cable bundles up to 1.26" diameter. The removable backshell allows easy access to wiring for maintenance and probing. A protective cover is included with the ITA.

i1EMI ITA

► ITA, i1, EMI Shielded, with Protective Cover • Part # 410 128 102

ITA Specifications

Weight	.55 lbs [.25 kg] without protective cover	
Frame Material and Clamp Housing	Stainless steel filled thermoplastic	
Hardware Material	Stainless steel	
Latch Material	Nickel plated beryllium copper	
Backshell Material	Stainless steel filled thermoplastic	
Protective Cover Material	ABS, black	
Available Module Positions	1 position	
Cycle Life	10,000 cycles	
Temperature	-55° C to 105° C	

For more information about coupling adapters, backshells and conduits, visit vpc.com/backshell

The i1EMI ITA has many of the standard features of the i1, in addition to EMI protection. The EMI-shielding effect on the i1EMI ITA is provided by the stainless steel fibers in the plastic shell and threaded metal coupling adapter. A protective cover is included with the ITA.

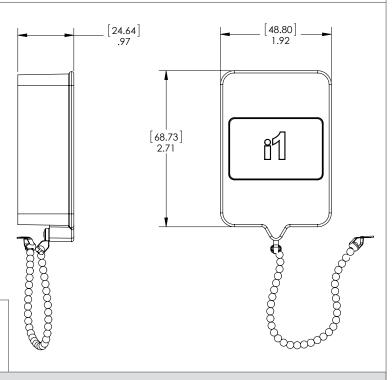

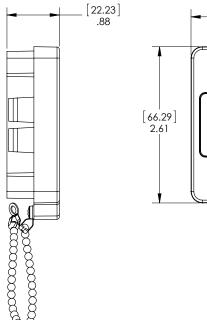

The receiver protective cover protects contacts and modules when the receiver is not in use. The adjustable lanyard can be permanently removed if desired. Shown with beaded chain kit, Part # 310 113 552.

Replacement Protective Cover, i1, Receiver • Part # 310 113 524

The ITA protective cover protects contacts and modules when the ITA is not in use. The adjustable lanyard can be permanently removed if desired. Shown with beaded chain kit, Part # 310 113 552.

[48.77] 1.92

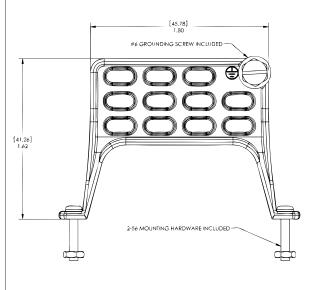

Replacement Protective Cover, i1, ITA • Part # 410 112 864

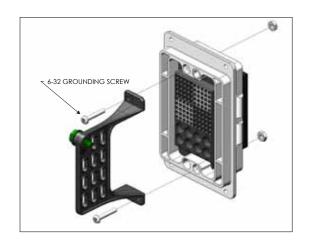

il Accessories ▼

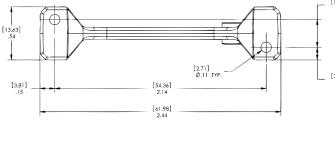

The iSeries keying pin kit includes a set of two hex keys. One hex key will allow six different options and two can provide 36 different keying options. The keying kit provides a way to isolate your connectors to prevent operational mismatch.

Keying Pin Kit, iSeries, Receiver and ITA • Part # 310 113 461

The strain relief plate attaches to the wiring side of the i1 receiver and can be secured before receiver installation. It includes four wire ties and an earth grounding screw.

Strain Relief Plate, i1, Receiver • Part # 310 113 531

Discover the Versatility & High Performance

iCon and iConEMI deliver.

Engineered for Test & Measurement

- Rugged engagement mechanism designed for over 10,000 cycles
- Mate up to 320 signal contacts using QuadraPaddle technology
- Small width and inboard handle increase side-toside stackability
- Visit vpc.com/wire to explore our wiring options

Convenient Rack & Panel

- Slide-off backshell allows access to probe points while engaged
- Removable U-shaped cable clamp makes it easy to reconfigure wired modules
- Fail-safe features include offset guide pins, recessed ITA contacts, and keying pins

Innovative & Practical Module Features

- PCB-mountable receiver
- Standard modules allow a mix of I/O
- ➤ Captive hardware in modules guarantees screws will not be lost
- Rear-mount modules allow for easy installation of pre-wired cable assemblies
- Modules available in coax, power, signal, thermocouple, pneumatic, and fiber optic, including hybrid combinations

EMI Protection Maximizes **Shielding Effectiveness**

- "Mate first, break last" feature completes the earth ground circuit
- Earth-ground terminal prevents shock and injury
- EMI-shielding with metallized plastic shielding in the backshell minimizes EMI leaks to and from other sources

Versatility Creates Solutions for Varied Industries

- Ideal for scientific data acquisition applications
- The iCon HD option simplifies wire connections with up to 36 HD contacts (75 Ohm coaxial) in a single connector applicable for the entertainment industry
- Meets specialized testing requirements in the automotive industry
- Proven durability in environmental chambers
- High Power 150 Amp option

- Provides 960 signal contacts using QuadraPaddle technology
- Various I/O configurations available
- Half-turn quick cam allows easy, precise engagement of receiver and ITA

2 Module Solution • iCon

iCon is a fail-safe rack and panel connector specifically designed for the test and measurement industry. The unique engagement mechanism contains built-in lubrication and spring-loaded locking tabs that guarantee a reliable connection test after test. The iCon receiver is designed to be PCB-compatible.

Features and Benefits

- Hybrid modules enable mix of I/O, including signal, power, coaxial, thermocouple, pneumatic, and fiber
- Mate up to 320 signal points with QuadraPaddle technology
- PCB-mountable
- Spring-locking tabs ensure even engagement
- Keying and guide pins ensure proper alignment and prevent incorrect mating
- Removable backshell enables easy access to wire
- Engineered for over 10,000 cycles

iCon Slide Mount Configuration

- A. ITA Patchcords
- B. Engagement Handle

iCon Receiver

Receiver, iCon, with Protective Cover • Part # 310 123 101

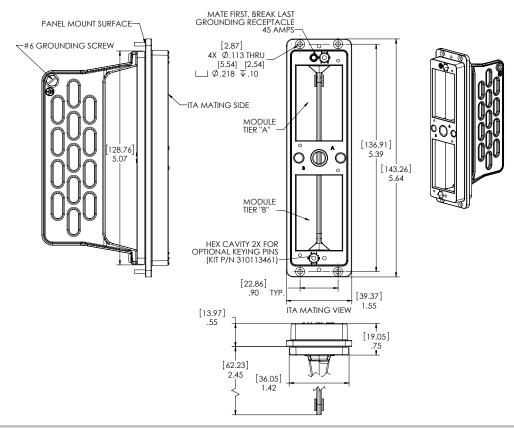

Receiver Specifications

Receiver Specifications	
Weight	.20 lbs [.09 kg] without protective cover
Frame Material	Nickel plated aluminum alloy
Hardware Material	Stainless steel alloy
Protective Cover Material	ABS, black
Available Module Positions	2 positions
Cycle Life	10,000 cycles
Temperature	-55° C to 125° C

The iCon receiver accepts two modules and allows a variety of signal, power, coaxial, thermocouple, and fiber optic connections. A protective cover is included with the receiver. Other accessories, such as keying pin kits and strain relief, are available.

iConEMI Receiver ▼

Receiver, iCon, EMI Shielded, with Protective Cover and Straing Relief • Part # 310 123 102

Receiver Specifications

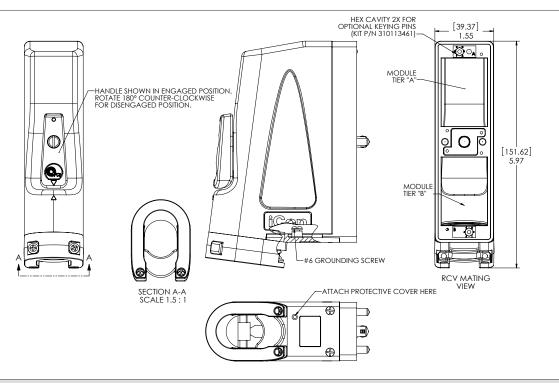

-	
Weight	.20 lbs [.09 kg] without protective cover
Frame Material	Nickel plated aluminum alloy
Hardware Material	Stainless steel alloy
Protective Cover Material	ABS, black
Available Module Positions	2 positions
Cycle Life 10,000 cycles	
Temperature	-55° C to 125° C

The iConEMI receiver has many of the standard features of the iCon, in addition to EMI protection. A ground terminal is included on the iConEMI receiver. The "mate first, break last" feature connects the earth ground circuit. The ground terminal on the strain relief prevents user shock and injury.

iCon ITA ▼

ITA, iCon, with Protective Cover • Part # 410 123 101

ITA Specifications

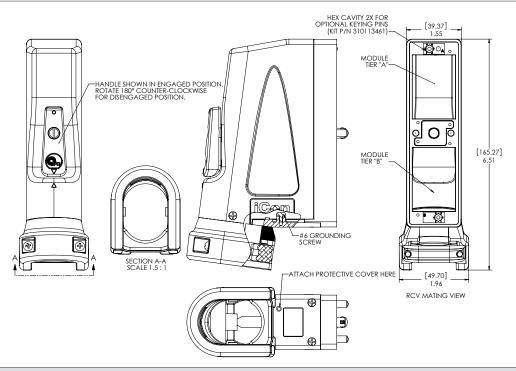

Weight	.65 lbs [.29 kg] without protective cover
Frame Material	Nickel plated aluminum alloy
Hardware Material	Stainless steel alloy
Drive Unit Material	Bronze and stainless steel
Plastic Components and Protective Cover Material	ABS, black
Cable Clamp Material	Powder coated aluminum
Available Module Positions	2 positions
Cycle Life	10,000 cycles
Temperature	-55° C to 125° C

The U-shaped cable clamp is adjustable to accommodate the amount of wires in your cable bundle.

The iCon ITA's small width and inboard handle increase the side-to-side stackability. The U-shaped cable clamp allows modules to be pre-wired before assembly and can hold cable bundles up to 1.21" diameter. The slide-off backshell allows easy access to wiring for maintenance and probing. A protective cover is included with the ITA.

iCon ITA with Large Cable Clamp

ITA, iCon, with Large Cable Clamp, with Protective Cover • Part # 410 123 106

ITA Specifications

Weight	.65 lbs [.29 kg] without protective cover	
Frame Material	Nickel plated aluminum alloy	
Hardware Material	Stainless steel alloy	
Drive Unit Material	Bronze and stainless steel	
Plastic Components and Protective Cover Material	ABS, black	
Cable Clamp Material	Powder coated aluminum	
Available Module Positions	2 positions	
Cycle Life	10,000 cycles	
Temperature	-55° C to 125° C	

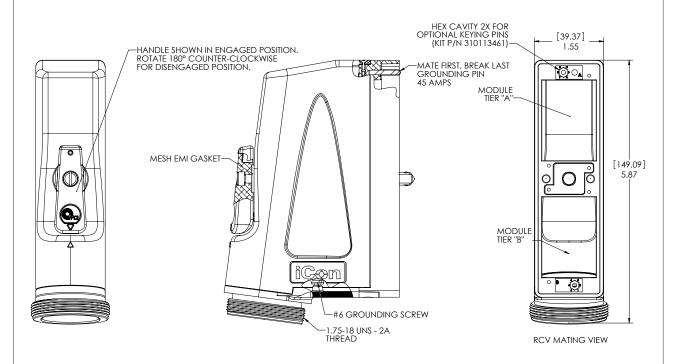

The U-shaped cable clamp is adjustable to accommodate the amount of wires in your cable bundle.

This iCon ITA has a large cable clamp that will accommodate cable bundles up to 1.55" diameter. The slide-off backshell allows easy access to wiring for maintenance and probing. A protective cover is included with the ITA.

iCon EMI ITA

▶ ITA, iCon, EMI Shielded, with Threaded Coupling Adapter and Protective Cover • Part # 410 123 102

ITA Specifications

Weight	.65 lbs [.29 kg] without protective cover
Frame Material	Nickel plated aluminum alloy
Hardware Material	Stainless steel
Drive Unit Material	Bronze and stainless steel
Cable Clamp Material	Stainless steel
Plastic Components and Protective Cover Material	Stainless steel filled impact modified nylon
Available Module Positions	2 positions
Cycle Life	10,000 cycles
Temperature	-55° C to 125° C

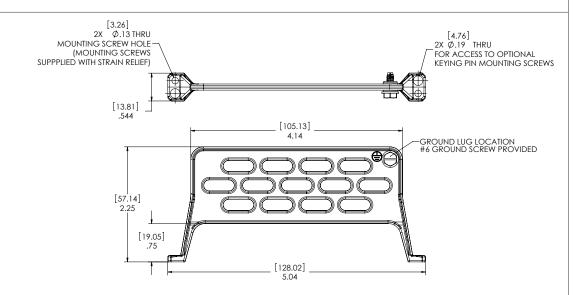

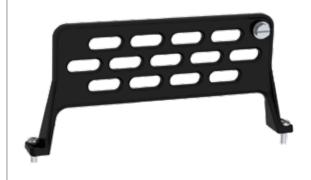

For more information about coupling adapters, backshells, and conduits, visit vpc.com/backshell

The EMI-shielding effect on the iConEMI ITA is provided by the stainless steel fibers in the removable plastic backshell and threaded metal coupling adapter. The opening in the threaded coupling adapter provides clearance for a maximum cable bundle of 1.37" diameter. A protective cover is included with the ITA.

iCon Accessories

The strain relief plate attaches to the wiring side of the iCon receiver and can be secured before receiver installation. The strain relief is made of black powder coated aluminum. Six wire ties and mounting hardware are included.

> Strain Relief Plate, iCon, Receiver • Part # 310 113 456

The ITA protective cover protects contacts and modules when the ITA is not in use.

The receiver protective cover protects contacts and modules when the receiver is not in use.

Replacement Protective Cover, iCon, Receiver Part # 310 113 678 Replacement Protective Cover, iCon, ITA Part # 410 112 750

High I/O with QuadraPaddle Technology • iCon960

The iCon960 is the next step up for higher I/O requirements. With two 480 position QuadraPaddle modules included, this iCon provides 960 signal contacts for both PCB and discrete wiring. The precision engagement mechanism is the same as the standard iCon, providing reliable connections test after test.

Features and Benefits

- Mate up to 960 signal contacts with QuadraPaddle technology
- Precision engagement mechanism for reliable connections
- Recessed ITA contacts protect your investment
- Spring-locking tabs ensure even engagement
- Keying and guide pins ensure proper alignment and prevent incorrect mating
- Removable backshell allows easy access to wire
- Engineered for 10,000 cycles

iCon960 Receiver

Receiver, iCon960, 2 QuadraPaddle Modules, for Crimp Contacts (510 150 116) • Part # 310 124 103

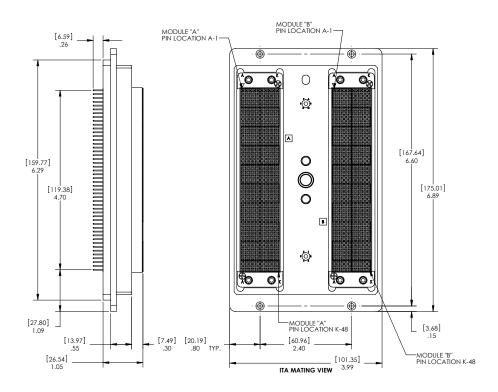

Receiver Specifications

Weight	1.3 lbs [.58 kg]
Frame Material	Nickel plated aluminum alloy
Hardware Material	Stainless steel alloy
Modules Included	510 150 116 (2)
Cycle Life	10,000 cycles
Temperature	−55° C to 100° C

This iCon960 receiver includes two 480 position QuadraPaddle modules Part # 510 150 116 to allow a maximum I/O of 960 signal points.

iCon960 Receiver Loaded with Twin Female Contacts

 Receiver, iCon960, 2 QuadraPaddle Modules, Fully Loaded with Twin Female Contacts and Square Posts for Wire Wrap (510 150 147)
 Part # 310 124 131

Weight 1.3 lbs [.58 kg]

Receiver Specifications

	. 0.
Frame Material	Nickel plated aluminum alloy
Hardware Material	Stainless steel alloy
Drive Unit Material	Beryllium copper and stainless steel
Modules Included	510 150 147 (2)
Cycle Life	10,000 cycles
Temperature	−55° C to 100° C

This iCon960 receiver is pre-configured with 960 twin female QuadraPaddle contacts Part # 610 138 100.

iCon960 ITA

► ITA, iCon960, 2 QuadraPaddle Modules, for Crimp Contacts (510 151 106) • Part # 410 124 104

ITA Specifications

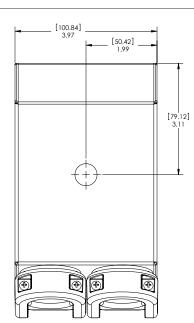

Weight	1.3 lbs. [.58 kg]
Frame Material	Nickel plated aluminum alloy
Hardware Material	Stainless steel alloy
Drive Unit Material	Beryllium copper and stainless steel
Modules Included	510 151 106 (2)
Cycle Life	10,000 cycles
Temperature	−55° C to 100° C

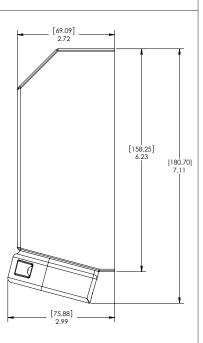

This iCon960 ITA includes two 480 position QuadraPaddle modules Part # 510 151 106 to allow a maximum I/O of 960 signal points. The ITA uses the same half-turn quick cam engagement mechanism as the standard iCon connectors.

iCon960 Accessories

The standard iCon960 ITA enclosure has two U-shaped cable clamps that allow a maximum cable bundle of 1.55" diameter per clamp.

➤ Enclosure, ITA, iCon960, with 2 Cable Clamps • Part # 410 112 775

The receiver protective cover protects contacts and modules when the receiver is not in use.

The ITA protective cover protects contacts and modules when the ITA is not in use.

- Protective Cover, iCon960, Receiver Part # 310 113 489
- Protective Cover, iCon960, ITA Part # 410 112 804

Reveal the Possibilities

with G2, G6 and G10 Solutions.

Compact, High Density Solution

- Ideal for applications requiring a mix of I/O, with various module configurations available
- Mate over 400 (G2), 1,400 (G6), or 2,400 (G10) signal contacts in one application
- Provide outstanding performance in various applications

Slide-off Backshell

- Slide off the backshell for easy wiring access
- Built-in cable clamps for securing all types of wiring

Variety of Uses

- Easy to use in rack or chassis mount applications
- Designed for use with VPC's Vertical Hinged Mounting Frame, fixed panels or slide mount
- Optional keying pin kit distinguishes between multiple ITAs to avoid operational mismatch

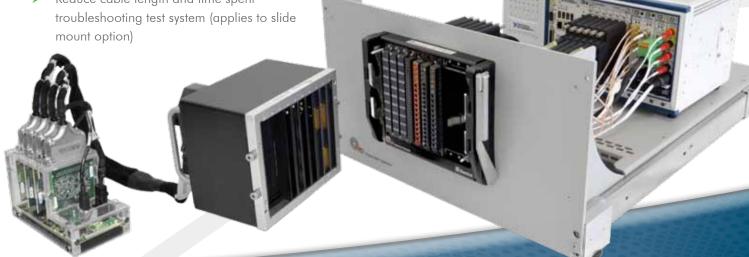

Standard QuadraTrack™

- Engaging mechanism in the form of a pair of precision machined slides located in the receiver
- Distributes uniform pressure to four points on the ITA during engagement and disengagement
- Precise signal integrity between the receiver and ITA is maintained by QuadraTrack™ engagement system

Multiple Mounting Options

- Vertical Hinged Mounting Frames enable hinge down access to instrumentation and wiring
- Slide mount option for the G10 allows the receiver and instrumentation to slide out for easy access to the instrument chassis

2 Module Solution • G2

The G2 offers the reliability of VPC InterConnect technology in a high-density, compact package. Simultaneously engaging a wide range of InterConnect options in multiple configurations, the G2 provides a rapid alternative to repeated connect and disconnect of individual leads and connectors in a rugged, reliable system.

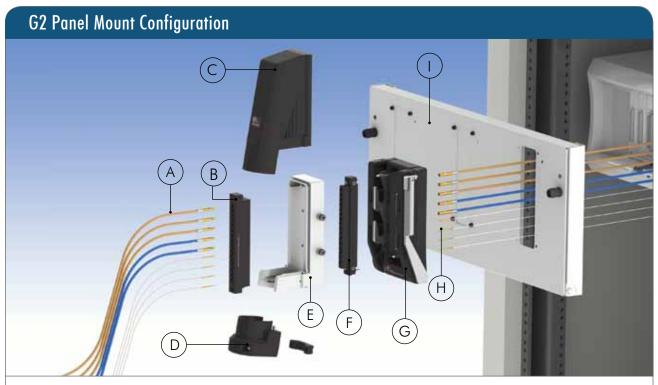

Features and Benefits

- Precision engagement mechanism engineered to mate over 400 contacts
- Cable mount ITA includes EMI-shielded backshell that slides off to allow easy access to wiring
- Standard ITA frames accommodate multiple enclosure types for a variety of fixture options
- Available keying kit distinguishes between multiple G2s used in the same application
- Modular and reconfigurable for evolving tests requirements

2 Module Solution • G2 Receiver

Receiver, G2, 2 Module, Keying Feature, with Protective Cover • Part # 310 120 110

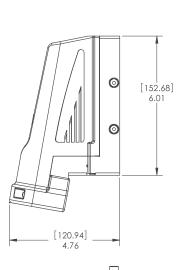

Receiver Specifications Weight 1.82 lbs [.82 kg] Side Material ABS-polycarbonate blend Frame Material Anodized aluminum Slide Material Nickel plated steel Linkage, Handle, Latch Stainless steel Material 2 positions Available Module Slots Cycle Life 20,000 cycles **Temperature** −55° C to 85° C Max. Weight Support 25 lbs @ 6" [11 kg @ 15.24 cm]

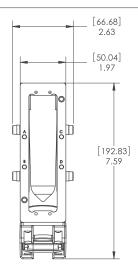

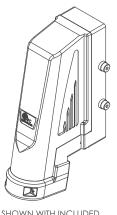

The G2 receiver is equipped with a locking handle and nickel plated steel slides that engage up to 400 contact points. It allows a high amount of I/O within a compact and rugged device. A protective cover is included with the receiver.

2 Module Solution • G2 ITA with Removable Cover

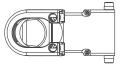

SHOWN WITH INCLUDED PROTECTIVE COVER.

> ITA with Removable Cover, G2, 2 Module, Keying Feature, with Protective Cover • Part # 410 120 110

ITA Specifications

Weight	1.65 lbs [.75 kg]
Cover Material	EMI-shielded nylon
Frame Material	Nickel plated zinc alloy
Available Module Slots	2 positions
Cycle Life	20,000 cycles
Temperature	−55° C to 85° C

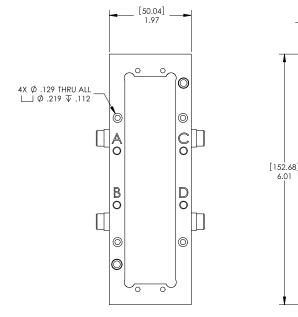

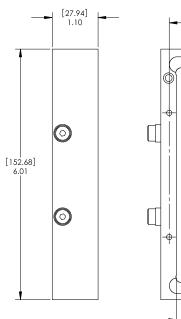

The U-shaped cable clamp is adjustable to accommodate the amount of wires in your cable bundle.

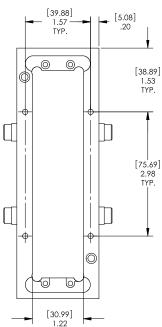

The G2 ITA is equipped with a removable EMI-shielded backshell. The backshell slides up to provide access to wires and connectors and is secured by two screws. The removable and adjustable U-shaped cable clamp is attached by screws to the ITA frame. A protective cover is included with the ITA.

2 Module Solution • G2 ITA

> ITA, G2, 2 Module • Part # 410 120 112

ITA Specifications

Weight	.61 lbs [.28 kg]
Frame Material	Chromated aluminum
Available Module Slots	2 positions
Cycle Life	20,000 cycles
Temperature	−55° C to 85° C

The performance and versatility of the two module ITA with keying feature present a convenient alternative to limited low I/O connectors. The aluminum frame has through-holes to mount an enclosure or other custom components to the wiring side of the ITA.

2 Module Solution • G2 Accessories

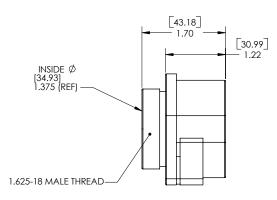

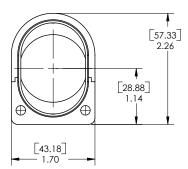

The receiver protective cover protects contacts and modules when the receiver is not in use.

The vinyl ITA protective cover protects contacts and modules when the ITA is not in use.

- Replacement Protective Cover, G2, Receiver Part # 310 113 394
- Replacement Protective Cover, G2, ITA Part # 410 112 680

The threaded coupling adapter is designed to accommodate military and commercial circular backshells for conduit or strain relief when designing for general and heavy-duty applications. The male thread size is 1.625"-18".

Threaded Coupling Adapter, G2, G6, G10, ITA, for Conduit Harnessing Assemblies/Clamps Part # 410 112 599

6 Module Solution • G6

The six module solution provides versatility on a small footprint. This small, high-density InterConnect can simultaneously engage over 1,400 signal contacts. The adaptable G6 integrates a wide variety of I/O options in various module configurations. The contacts are incorporated into cable assemblies for specific instruments. The Vertical Hinged Mounting Frame is suitable for rack or chassis mount applications and offers quick access to resources and cables. The ITA has a unique, removable, EMI-shielded backshell which allows easy access to the modules and contacts.

Features and Benefits

- Precision engagement mechanism engineered to mate over 1,400
- Cable mount ITA includes EMI-shielded backshell that slides off to allow easy access to wiring
- Cable mount ITA accepts standard circular cable adapters
- Standard ITA frames accommodate multiple enclosure types for a variety of fixture options
- Optional keying kit distinguishes between multiple G6s used in the same application
- Modular and reconfigurable for evolving tests requirements
- Reliable connectivity beyond 20,000 cycles
- Quick and easy integration and maintenance
- Wide range of I/O options including signal, coaxial, power, pneumatic, vacuum, thermocouple, fiber optic, and PCB solutions

10 Module Solution • G10 Receiver

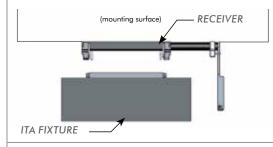

Receiver, G10, 10 Module • Part # 310 104 317

Receiver Specifications

-	
Weight	2.20 lbs [1.0 kg]
Side Material	ABS-polycarbonate blend
Frame Material	Anodized aluminum
Slide Material	Nickel plated steel
Linkage, Handle, Latch Material	Stainless steel
Available Module Slots	10 positions
Cycle Life	20,000 cycles
Temperature	−55° C to 85° C
Max. Weight Support	25 lbs @ 6" [11 kg @ 15.25 cm]
Max. Mating Force	630 lbs [285.8 kg]

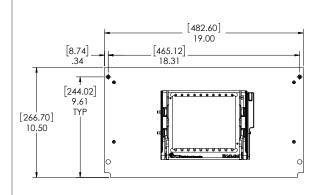

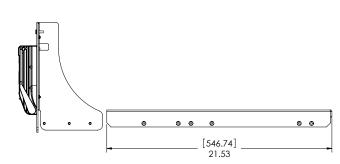

This receiver is also available with a 4.34" [110.24 mm] extended handle, Part # 310 104 360, to accommodate wide fixtures.

The G10 receiver is equipped with a locking handle and nickel plated steel slides that engage up to 2,400 contact points. It allows a high number of I/O within a compact and rugged device.

10 Module Solution • G10 Receiver with Slide Mounting Kit ▼

Receiver, G10, 10 Module, with Slide Mounting Kit (slide kit required) • Part # 310 120 146

Receiver Specifications

•	
Weight	11.5 lbs [5.22 kg]
Side Material	ABS-polycarbonate blend
Frame Material	Anodized aluminum
Slide Material	Nickel plated steel
Linkage, Handle, Latch Material	Stainless steel
Mounting Plate, Mounting Flange, Instrument Bracket Material	Aluminum
Available Module Slots	10 positions
Cycle Life	20,000 cycles
Temperature	−55° C to 85° C
Max. Weight Support	25 lbs @ 6" [11 kg @ 15.25 cm]
Max. Mating Force	630 lbs [285.8 kg]

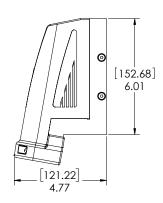

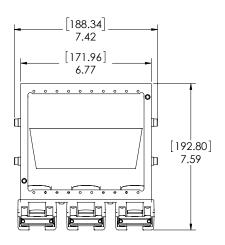

The G10 receiver is equipped with a locking handle and nickel plated steel slides that engage up to 2,400 contact points. It allows a high number of I/O within a compact and rugged device. This receiver is designed to work with a slide kit and includes a mounting bracket, flanges, and instrument bracket. A slide kit is required for use.

10 Module Solution • G10 ITA with Removable Cover

ITA with Removable Cover, G10, 10 Module, with Protective Cover • Part # 410 104 272

ITA Specifications

Weight	2.1 lbs [.95 kg]
Cover Material	EMI-shielded nylon
Frame Material	Chromated aluminum
Available Module Slots	10 positions
Cycle Life	20,000 cycles
Temperature	−55° C to 85° C
Max. Mating Force	630 lbs [285.8 kg]

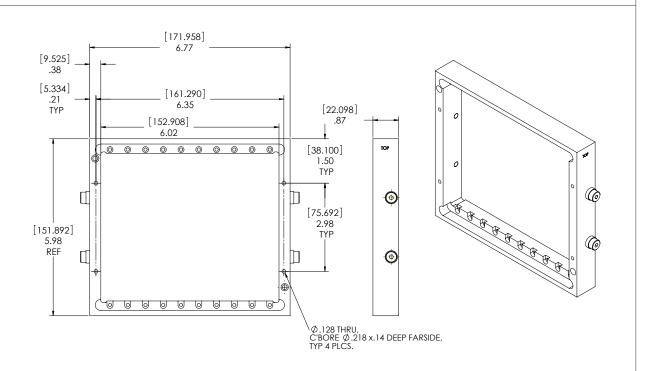

The U-shaped cable clamp is adjustable to accommodate the amount of wires in your cable bundle.

The G10 ITA is equipped with a removable EMI-shielded backshell. The backshell slides up to provide access to wires and connectors and is secured by two screws. The removable and adjustable U-shaped cable clamp is attached by screws to the EMI-shielded backshell. A protective cover is included with the ITA.

10 Module Solution • G10 ITA

ITA, G10, 10 Module • Part # 410 104 375

ITA Specifications

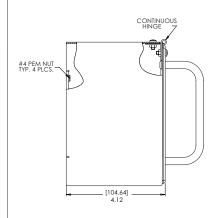

Weight	.55 lbs [.24 kg]
Frame Material	Chromated aluminum
Available Module Slots	10 positions
Cycle Life	20,000 cycles
Temperature	−55° C to 85° C
Max. Mating Force	630 lbs [285.8 kg]

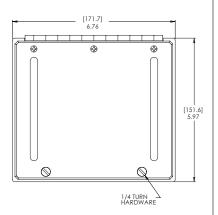

This 10 module ITA uses VPC enclosures or gives you the option to create your own enclosure or fixture needed for your application.

10 Module Solution • G10 Accessories ▼

This aluminum enclosure for a 10 module ITA Part # 410 104 375. The enclosure has handles and includes a hinged cover secured with two 1/4 turn fasteners.

➤ Enclosure, 10 Module, with Hinged Cover Plate • Part # 410 112 291

Protective Cover, G10, Receiver Part # 310 113 154

when the receiver is not in use.

The vinyl ITA protective cover protects contacts and modules when the ITA is not in use.

Replacement Protective Cover, G10, ITA Part # 410 112 685

Go Horizontal

with S6, G12 and G12x.

Low Profile 1U Height

- ➤ The S6's low profile allows over 1,400 points while only occupying 1U of rack space
- Horizontal layout maximizes the module positions and minimizes the required rack space

Tabletop Configuration

- ➤ The tabletop configurations allow the S6, G12 and G12x to be mounted to any horizontal surface
- ➤ Four removable rubber feet to enable permanent tabletop mounting configurations
- Rear covers are available to protect wiring from the receiver to the test equipment

Positive-Lock Latching Mechanisms - S6

- > Locking latches enable secure engagement
- Guide pins guarantee consistent lead-in with every connection
- ➤ Each lever provides two points of contact for even engagement distribution

Slide Configuration

➤ The slide kits for the S6, G12 and G12x allow access to test instrumentation and wiring

Multiple accessories are available for this configuration such as the cable tray, the keyboard tray kit, and adjustable leg kit

Slide mounts can support fixture weights up to 180 lbs [81.65 kg] and up to 350 lbs [158.76 kg] with leg kit

Easy Glide Docking

- Provides an easy way of guiding a fixture into position prior to engagement
- Runners along the platform provide smooth-sliding action
- Ideal feature when using large scale fixtures
- Alignment pins provide accurate engagement

6 Module Solution • S6 ▼

The S6 provides robust, reliable and repeatable testing capabilities for small and intermediate size test applications. With easy glide docking created by the smooth motion of the engagement handles, it is fixture ready with over 1,400 contact points within a 1U height. The S6 has many configuration possibilities with a wide range of I/O options. Its low profile solution is also designed to accept a variety of PCB solutions.

S6 Receiver and ITA

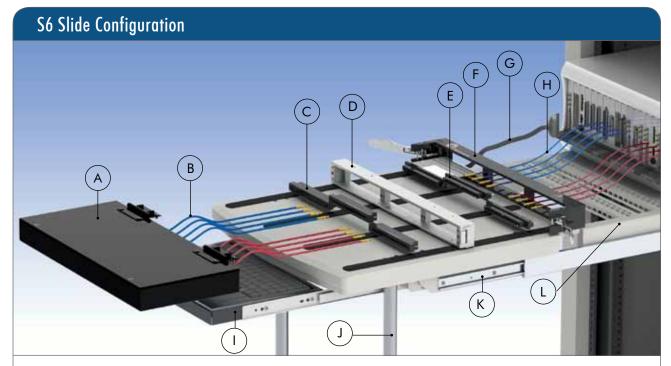

Features and Benefits

- Precision engagement mechanism engineered to mate over 1,400 signal points in a 1U height
- Standard ITA frames accommodate multiple enclosure types for a variety of fixture options
- Modular and reconfigurable for evolving test requirements
- Reliable connectivity beyond 20,000 cycles

- Quick and easy integration and maintenance
- Wide range of I/O options including signal, coaxial, power, pneumatic, vacuum, thermocouple, fiber optic, and PCB solutions
- Versatile platform for fixture support
- Slide mounted S6 and associated accessories offer easy access to cables and test instrumentation

Max. Mating Force	280 lbs [127.0 kg]

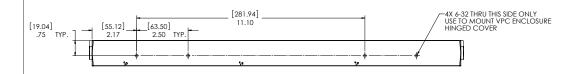

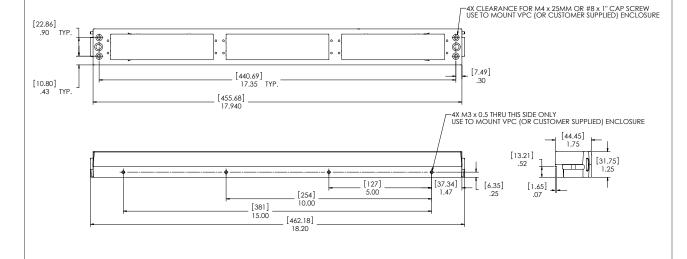

This S6 receiver is designed to mount to slides in a rack application. The 1U height unit features positive-latching mechanisms and integrated guide pins to create a highly reliable engagement system. The S6 receiver is very versatile and has module positions screened on top for ease of module placement. This S6 is also available in a 15" platform, Part # 310 122 101.

6 Module Solution • S6 ITA

> ITA, S6, 6 Module, with Protective Cover • Part # 410 122 100

ITA Specifications

Weight	2.6 lbs [1.18 kg]
Frame Material	Powder coated zinc alloy
Available Module Slots	6 positions
Cycle Life	20,000 cycles
Temperature	−55° C to 85° C
Max. Mating Force	280 lbs [127.0 kg]

The S6 ITA has a powder coated finish adding an extra layer protection against the elements. Additionally, this ITA has module positions screened on top for ease of module placement. A protective cover is included with the ITA.

S6 • Accessories

The 1U enclosure takes up little rack space and completes the S6"s low profile solution.

The larger enclosure provides more space for wiring and other test system needs.

Enclosure, S6, 1.75" x 18" x 8"
Part # 410 112 701

This enclosure gives you the ability to discrete wire to your UUT with secure strain relief provided by the cable clamps located on the back end. Once the cable clamps are open, you can remove the stiffener bar and install or remove cables without unplugging patchcords from the assembly.

The receiver protective cover protects your contacts and modules when the receiver is not in use.

Enclosure, S6, for Discrete Wiring, 1.75" x 18" x 8"Part # 410 112 702

The vinyl ITA protective cover protects contacts and modules when the ITA is not in use.

The rack extender kit provide additional clearance for the engagement handles when using a rack that has mounting rails recessed more than 1" [25.4 mm] in a slide or rack mount configuration.

Replacement Protective Cover, ITA, S6 Part # 410 112 700

Rack Extender Kit, S6, 4" DeepPart # 310 113 430

12 Module Solution • G12

Available in rack mount, slide mount, and tabletop configurations, the G12 features an aluminum platform to accommodate in-circuit test and other functional bed-of-nails testing requirements. Integrated guide pins and proven QuadraTrack™ engagement mechanisms provide precise lead-in, while pin and socket modules and contacts ensure reliable connections for over 20,000 mating cycles. With 12 module positions for signal, coaxial, power, vacuum, pneumatic, thermocouple, and fiber optic contacts in multiple configurations, the G12 offers I/O options to meet virtually any connectivity requirement.

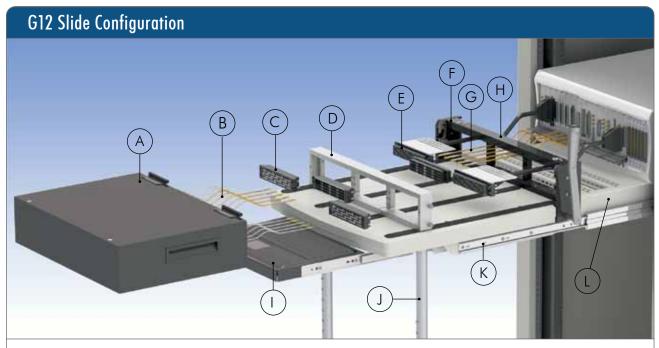

Features and Benefits

- Precision engagement mechanism engineered to mate over 2,800 contacts in a 3U height
- Standard ITA frames accommodate multiple enclosure types for a variety of fixture options
- Modular and reconfigurable for evolving test requirements
- Reliable connectivity beyond 20,000 cycles
- Quick and easy integration and maintenance
- Versatile platform for fixture support
- Slide mounted G12 and associated accessories offer easy access to cables and test instrumentation

Max. Weight Support	Without Leg Kit: 180 lbs [81.65 kg] With Leg Kit: 350 lbs [158.76 kg]	
Max. Mating Force	620 lbs [281.2 kg]	

The 20" G12 receiver provides a large platform for use with large fixtures. When used in conjunction with VPC slide mounts and support legs, the receiver can support 350 lbs. The G12 handle can be rotated in 90 degree increments. Also available in a 15" platform, Part # 310 104 325.

12 Module Solution • G12 ITA Front Mount

► ITA, G12, Front Mount, 12 Module, with Protective Cover • Part # 410 104 322

ITA Specifications

Weight	2.35 lbs [1.07 kg]
Frame Material	Chromated aluminum
Available Module Slots	12 positions
Cycle Life	20,000 cycles
Max. Mating Force	620 lbs [281.2 kg]
Temperature	−55° C to 85° C

This 12 module enclosure is made of powder coated aluminum. The top of the enclosure has a hinged cover plate with 1/4-turn hardware that provides easy access to the ITA wiring when required.

The G12 ITA can be used with all G12 and G12x receivers. The ITA can be used in a number of applications to accomplish the required connection to the unit under test (UUT). You can mount a VPC enclosure or customize your own fixture to be attached to the ITA. A wide range of ITA modules are available separately for user configuration. A protective cover is included with the ITA.

18 Module Solution • G12x

Available in slide mounted and tabletop configurations, the G12x features an aluminum platform to accommodate in-circuit test and other functional bed-of-nails testing requirements. Integrated guide pins and proven QuadraTrack™ engagement mechanisms provide precise lead-in, while pin and socket modules and contacts ensure reliable connections to over 20,000 mating cycles. With 18 module positions for signal, coaxial, power, vacuum, pneumatic, thermocouple, and fiber optic contacts in multiple configurations, the G12x offers I/O options to meet virtually any connectivity requirement.

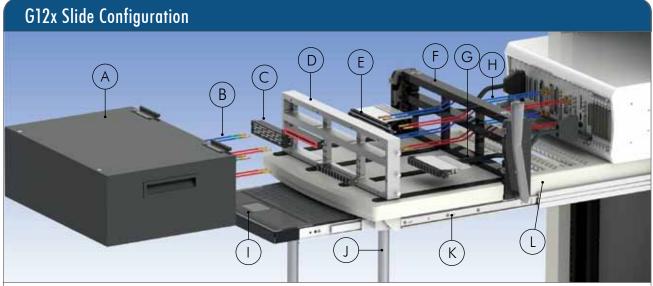

Features and Benefits

- Precision engagement mechanism engineered to mate over 4,300 signal points in a 5U height
- Standard ITA frames accommodate multiple enclosure types for a variety of fixture options
- Modular and reconfigurable for evolving test requirements
- Reliable connectivity beyond 20,000 cycles
- Quick and easy integration and maintenance
- Versatile platform for fixture support
- Slide mounted G12x and associated accessories offer easy access to cables and test instrumentation

Uncover the Unique

features of G18.

Versatile 18 Module Receiver

- ➤ Ideal for PXI applications and can allow space up to an 18 slot chassis
- Ability to engage over 4,300 contacts in one motion with the locking handle

Slide Configuration

- Flush rack mount to save valuable space in front of the test stand
- Slides support up to 180 lbs to accommodate large fixtures
- Easy access to instrumentation with shorter cable lengths
- Multiple slide length options available
- Kit contains G18 receiver, mounting plate, flanges, and instrument bracket

Adaptable Enclosure

- Large enclosure provides ample space for internal wiring
- ITA enclosure easily accepts secondary connectors

Hanger feature on the G18 receiver allows the ITA

➤ ITA with enclosure will drop in place when handle is lowered to engage the system

to remain on the receiver when it is not engaged

Flush hangers are available for horizontal applications

Standard QuadraTrack™

- ➤ Engaging mechanism in the form of a pair of precision machined slides located in the receiver
- Distributes uniform pressure to four points on the ITA during engagement and disengagement
- Precise signal integrity between the receiver and ITA is maintained by QuadraTrack™ engagement system

18 Module Solution • G18

The 18 Module system is the ideal InterConnect solution for an 18 slot PXI chassis. This high-density InterConnect can simultaneously engage over 4,300 signal contacts. The adaptable G18 integrates a wide variety of I/O options in various module configurations. The contacts are incorporated into cable assemblies for specific instruments. The Vertical Hinged Mounting Frame or slide mount configuration are suitable for rack or chassis mount applications and offer quick access to resources and cables.

Features and Benefits

- Precision engagement mechanism engineered to mate over 4,300 contacts
- Standard ITA frame accommodates multiple enclosure types for a variety of fixture options
- Modular and reconfigurable for evolving test requirements
- Reliable connectivity beyond 20,000 cycles
- Quick and easy integration and maintenance
- Wide range of I/O options including signal, coaxial, power, pneumatic, vacuum, thermocouple, fiber optic, and PCB
- Mounting options include Vertical Hinged Mounting Frame and slide mount

This G18 receiver is designed to work with a slide kit and includes a mounting bracket, flanges, and instrument bracket. A slide kit is required for use.

18 Module Solution • G18 Receiver with EMI Gasket

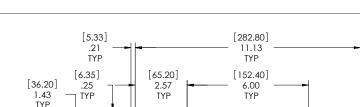

Receiver, G18, 18 Module, EMI Gasket • Part # 310 120 168

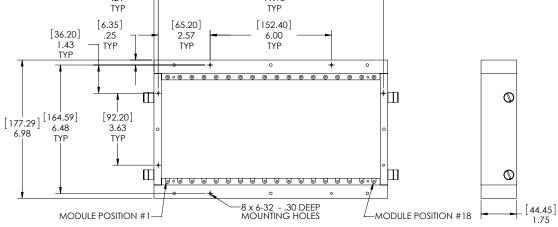

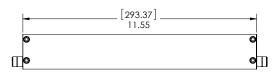

Receiver Specifications	
Weight	6.9 lbs [3.130 kg]
Frame Material	Anodized and clear chromated aluminum
Slide Material	Nickel plated steel
Linkage, Handle, Latch Material	Stainless steel
Available Module Slots	18 positions
Cycle Life	20,000 cycles
Temperature	−55° C to 85° C
Max. Weight Support	25 lbs @ 6" [11 kg @ 15.24 cm]
Max. Mating Force	942 lbs [427.3 kg]

This G18 receiver comes with a pre-installed gasket for EMI applications while maintaining all the features and benefits of the standard G18 receiver.

18 Module Solution • G18 ITA

ITA, G18, 18 Module • Part # 410 120 111

ITA Specifications

Weight	3.28 lbs [1.49 kg]
Frame Material	Chromated aluminum
Available Module Slots	18 positions
Cycle Life	20,000 cycles
Max. Mating Force	942 lbs [427.3 kg]
Temperature	−55° C to 85° C

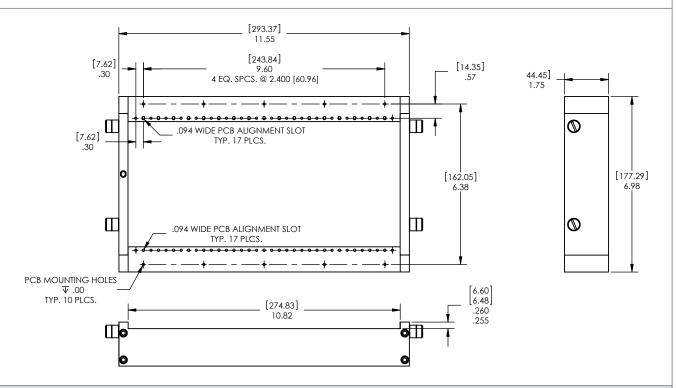

You can mount a VPC enclosure or customize your own fixture to be attached to this ITA frame. A wide range of ITA modules are available separately for user configuration. This solution is perfect for any medium to high I/O application. The rugged aluminum frame provides secure mounting options for custom fixtures.

18 Module Solution • G18 ITA with PCB Capability

▶ ITA, G18, 18 Module for Discrete Wire and PCB Capability • Part # 410 120 101

ITA Specifications

Weight	3.35 lbs [1.497 kg]
Frame Material	Aluminum
Available Module Slots	18 positions
Cycle Life	20,000 cycles
Temperature	−55° C to 85° C

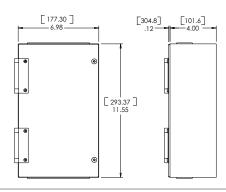

The G18 ITA with PCB capability has a recess on the wiring side of the ITA to provide a location for PCB cards to mount.

G18 • Accessories

Made of aluminum, the enclosure body is painted gray and features a hinged cover plate with $\frac{1}{4}$ turn hardware that provides easy access to the ITA's wiring. The enclosure is secured to the ITA by eight socket head cap screws.

Enclosure, 18 Module, Hinged Cover Plate, 4" Deep • Part # 410 112 527

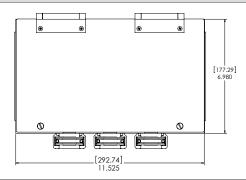

This receiver protective cover protects contacts and modules when the receiver is not in use.

This aluminum ITA protective cover protects contacts and modules when the ITA is not in use.

Protective Cover, G18, Receiver Part # 310 113 327

This aluminum enclosure is for ITA Part # 410 120 111 and allows your 18 module solution to be customized to your needs. This enclosure has three U-shaped cable clamps that allow a maximum cable bundle of 1.59" square per clamp. ITA strain relief plates are not needed.

Enclosure, 18 Module with 3 Cable Clamps • Part # 410 112 664

Pull-Thru Solutions

with G20, G20x, and G40x.

Modular and Configurable

- Direct connection to instrument modules
- Pull through removal of instrumentation from the chassis backplane
- Accepts all standard 90 Series modules and i2 MX
- Reversible handle for right or left mounting

Scalability with i2 MX

- Connect directly to individual Pull-Thru Adapters with the i2 MX
- Convenient pull finger tabs allow easy removal of adapters
- Specially designed for EMI protection with nickel plated aluminium and an EMI gasket

Large Scale Options

G40x is a two tier, 48 module system that enables pull through removal of 40 VPC modules, Pull-Thru Adapters and test instrumentation as one piece. It also offers eight additional 90 Series module slots, plus space for two iCon modules, as needed.

Pull-Thru Adapters

- Variety of module configurations
- Multiple I/O options
- ➤ Instrument card protection
- i2 MX and high speed capability (SIM VTAC HSD)

Features and Benefits

- Adapters correspond with .8" PXI system slot requirements
- PCB adapter and instrument cards can be removed simultaneously
- ➤ Multiple configurations and I/O options

Platform Options

G20 and G20x are also available in a platform version. The platform provides support for your ITA and enclosure of up to 180 lbs [81.65 kg]. With the optional leg kit, up to 350 lbs [158.76 kg] can be supported.

20 Module Solution • G20 • Pull-Thru

The G20 Pull-Thru is a scalable solution that enables pull through capability for PCB applications. The G20 Pull-Thru integrates a wide variety of I/O in various module configurations. In addition to rack mounting, it is also available in a slide mount configuration.

Features and Benefits

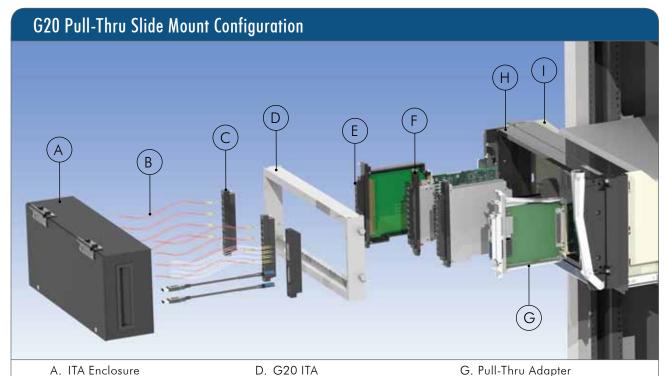

- Screw mount locations correspond to the .80" centers of a PXI chassis, providing a 1:1 interface system
- Accepts all standard 90 Series modules and i2 MX
- Allows direct connection to instrument modules
- Enables pull through removal of connector modules and instrumentation from chassis backplane
- Precision engagement mechanism engineered to mate over 2,000 signal points in 6U height
- Modular and configurable
- Reversible handle for right or left mounting

Accommodating 20 modules, this G20 Pull-Thru ITA EMI variant can be used with the G20 Pull-Thru EMI receiver Part # 310 120 193. The ITA frame is 2" in thickness.

28 Module Solution • G20x • Pull-Thru

The G20x Pull-Thru enables pull through capability for PCB applications with a capacity of up to 28 modules, eight dedicated to discrete wiring in an extended tier for higher I/O needs. The adaptable G20x Pull-Thru integrates a wide variety of I/O options in various module configurations to meet the needs of each test application. In addition to rack mounting, it is also available in a slide mount configuration.

Features and Benefits

- Screw mount locations correspond to the .80" centers of a PXI chassis, providing a 1:1 interface system
- 20 vertical modules with eight horizontal modules combine for 28 module capacity
- Accepts all standard 90 Series and iCon modules (with adapter) as well as i2 MX
- Enables pull through removal of connector modules and instrumentation from chassis backplane
- Precision engagement mechanism engineered to mate over 7,000 signal points in 7U height
- Modular and configurable
- Easy access to cables and test instrumentation
- Reversible handle for right or left mounting

Rack Mounting Applications

- ➤ The high I/O systems are ideal for rack mounting applications
- Mount to a Vertical Hinged Mounting Frame or slides for access to wiring and instrumentation
- Time savings with rapid changeover

Updated 9025 Receiver

- > Enhanced mechanical advantage with 30% reduced handle force and lighter weight
- > Available in rack and slide mount configurations
- Platform options with the 9025TR
- Silk screening enables easy installation and coordination of ITA and receiver modules

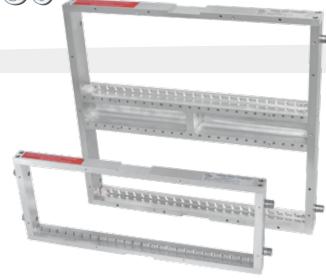

Customize for Various Testing Needs

- Multiple ITAs are pre-configured for different tests
- Intermix connector modules to build custom interfaces
- Accommodate vacuum or mechanical fixturing

Standard ITAs

- **Buy VPC ITAs** with our standard enclosures, or attach them to your custom enclosure
- Customized enclosures available to fit your testing needs
- Guarantee a precise fit to VPC receivers
- Front and rear mount ITAs enable easy attachment to enclosures

Pre-Wired InterConnect Adapters

- Pre-wired InterConnect adapters act as a compact funnel for wiring directly to VXI cards
- Plug the connectors on the back of the funnel to the VXI card and the test system is ready to use
- Different connector plates are available to cable out of the InterConnect adapters

25 Module Solution • 9025

VPC's receivers meet the standards which are essential to support advanced Mass InterConnect requirements. The 9025 can be adapted to accommodate vacuum or mechanical fixturing. Connector modules can be intermixed to establish custom interfaces which are ideal for functional and system testing applications.

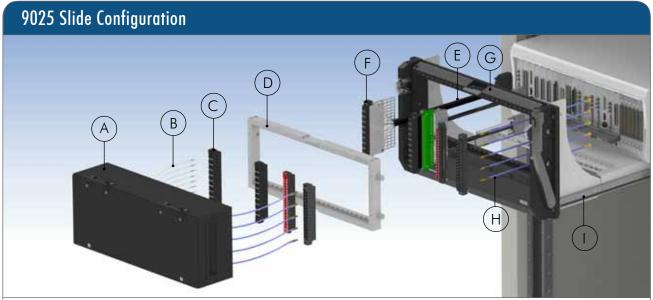

Features and Benefits

- Precision engagement mechanism engineered to mate over 5,900 contacts
- Standard ITA frame accommodates multiple enclosure types for a variety of fixture options
- Modular and reconfigurable for evolving tests requirements
- Reliable connectivity beyond 20,000 cycles
- Quick and easy integration and maintenance
- Wide range of I/O options including signal, coaxial, power, pneumatic, vacuum, thermocouple, fiber optic, and PCB
- An integrated microswitch shuts power off when the ITA disengages
- Designed to fit a standard 19" rack
- Mounting options include: Vertical Hinged Mounting Frames and slide mount

25 Module Solution • 9025TR

The 9025TR has over twice the I/O as the G12 and is outfitted with the same 20" platform to support your enclosure while engaging and disengaging. The front-mount ITA is user-friendly, allowing the enclosure or fixture to be fastened from the mating side. The docking feature of the 9025TR provides an easy way of guiding a fixture into position prior to engagement. Runners along the platform provide a smooth-sliding action, ideal when using fixtures up to 180 lbs. VPC modules can be intermixed to establish flexible custom interfaces which are ideal for functional and system testing applications. The 9025TR uses all standard modules and contacts, and includes a microswitch.

Features and Benefits

- 20" platform supports ITA when not in use (up to 180 lbs)
- Redesigned handle offers an offset link to accommodate larger ITA enclosures
- Handle can be installed on either the right or left side of the receiver
- Accommodates over 5,900 signal contacts
- Accessories available: slide kit, support legs, retractable keyboard kit, and instrument bracket with strain relief

25 Module Solution • 9025 VXI

The 9025 VXI receiver is designed for use with our pre-wired InterConnect adapters, but can also accommodate discrete wired modules using retainer blocks. One to four modules attach to the InterConnect adapter, (a hollow shell with a removable side for discrete or printed wiring), which in turn is attached to the VXI card. This connector "funnel" forms a complete VXI module, which is easily inserted or removed from the VXI mainframe for maximum flexibility in testing applications. The InterConnect adapter also provides room for driver sensors or personality electronics. External cabling to the card is accomplished by a cable clamp or connector located on the top or bottom of the InterConnect adapter.

Features and Benefits

- VXI receivers incorporate a left-side handle on a telescoping shaft for use with enclosures larger than the ITA
- Precision engineered engagement mechanism
- Standard ITA frames accommodate multiple enclosure types for a variety of fixture options
- Modular and reconfigurable for evolving test requirements.
- Reliable connectivity beyond 20,000 cycles
- Quick and easy integration and maintenance
- Wide range of I/O options including signal, coaxial, power, pneumatic, vacuum, thermocouple, fiber optic and PCB solutions
- Designed to fit a standard 19" rack
- Integrated microswitch shuts power off when the ITA disengages
- VXI Plug & Play Kit allows the VXI receiver to hinge down offering easy access to InterConnect adapters and VXI test instrumentation

25 Module Solution • 9025 Receiver ▼

Receiver, 9025, 25 Module, Single Tier • Part # 310 104 420

Receiver Specifications

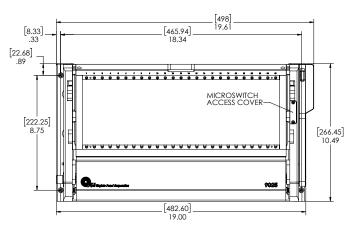

-		
Weight	12.6 lbs [5.72 kg]	
Frame Material	Anodized aluminum	
Slide Material	Nickel plated steel	
Linkage, Handle, Latch Material	Stainless steel	
Available Module Slots	25 positions	
Cycle Life	20,000 cycles	
Temperature	−55° C to 85° C	
Max. Weight Support	80 lbs @ 12" [36 kg @ 30.5 cm]	
Max. Mating Force	1102 lbs [499.9 kg]	

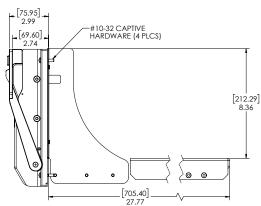

The 25 module receiver is designed to fit into a standard 19" rack. It is equipped with a locking handle to ensure your contacts are engaged. A standard integrated microswitch shuts off power when the ITA disengages from the receiver.

25 Module Solution • 9025 Receiver with Slide Mount Kit

Receiver, 9025, 25 Module, with Slide Mounting Kit (slide kit required) • Part # 310 104 437

Receiver Specifications

Weight	18.3 lbs [8.3 kg]	
Frame Material	Anodized aluminum	
Slide Material	Nickel plated steel	
Linkage, Handle, Latch Material	Stainless steel	
Mounting Flange, Instrument Bracket Material	Aluminum	
Available Module Slots	25 positions	
Cycle Life	20,000 cycles	
Temperature	−55° C to 85° C	
Max. Weight Support	80 lbs @ 12" [36 kg @ 30.5 cm]	
Max. Mating Force	1102 lbs [499.9 kg]	

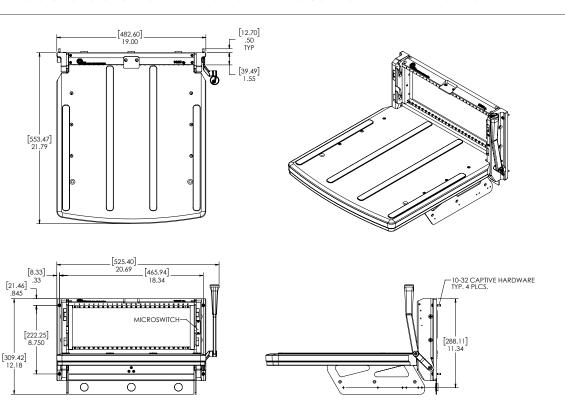

This 9025 receiver is designed to work with a slide kit and includes a mounting bracket, flanges, and instrument bracket. A slide kit is required for use.

25 Module Solution • 9025TR Receiver with Platform

Receiver, 9025TR, 25 Module, with 20" Platform (slide kit required) • Part # 310 104 435

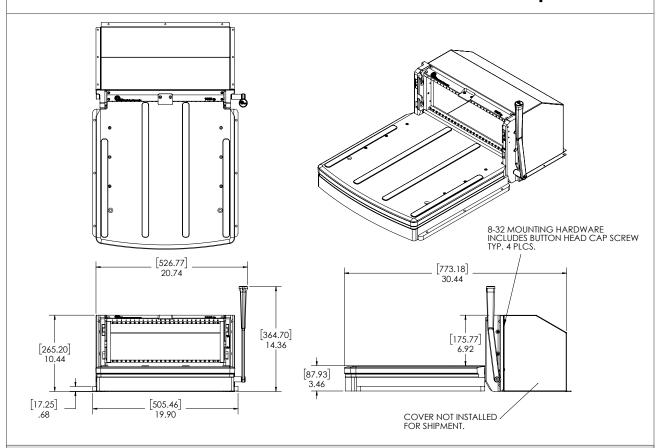

Receiver Specifications

•		
Weight	29.50 lbs [13.38 kg]	
Frame Material	Anodized aluminum	
Slide Material	Nickel plated steel	
Linkage, Handle, Latch Material	Stainless steel	
Available Module Slots	25 positions	
Cycle Life	20,000 cycles	
Temperature	−55° C to 85° C	
Max. Mating Force	1378 lbs [625.1 kg]	
Max. Weight Support	180 lbs @ 12" [81.65 kg @ 30.5 cm]	

Runners along the platform provide a smooth-sliding action, ideal when using fixtures up to 180 lbs. When used in conjunction with VPC slide mounts and leg kit, the receiver can support 350 lbs. The 9025TR can be adapted to accommodate vacuum or mechanical fixturing. The 9025TR uses all standard 90 Series modules and contacts, includes a microswitch and is available with optional leg and keyboard tray kits. A slide kit is required for use.

25 Module Solution • 9025TR Receiver for Tabletop

Receiver, 9025TR, 25 Module, with 20" Platform, for Tabletop • Part # 310 104 436

Receiver Specifications Weight 38.1 lbs [17.28 kg] Frame Material Anodized aluminum Slide Material Nickel plated steel Linkage, Handle, Latch Stainless steel Material Available Module Slots 25 positions Cycle Life 20,000 cycles −55° C to 85° C **Temperature** Max. Mating Force 1378 lbs [625.1 kg]

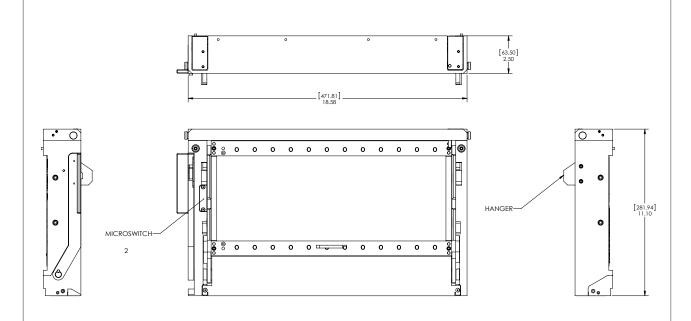

The 9025TR for tabletop allows the receiver to be mounted to any horizontal surface. Four removable rubber feet enable permanent tabletop mounting configurations. Rear covers are available to protect wiring from the receiver to the test equipment.

25 Module Solution • 9025 VXI C-Size Interlocking

Receiver, 9025, 25 Module VXI, C-Size Interlocking • Part # 310 104 127

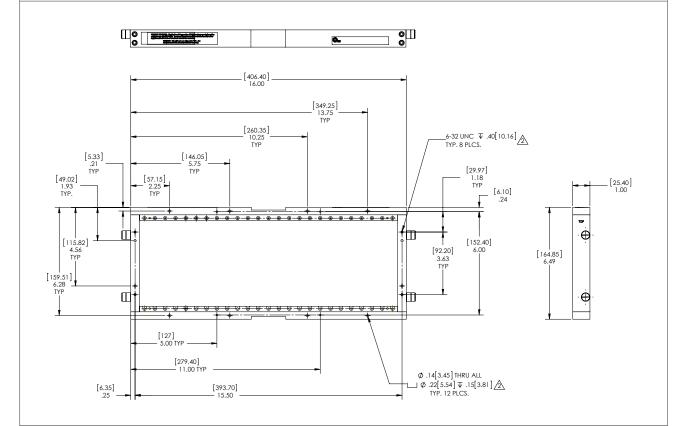

Receiver Specifications

-		
Weight	16.06 lbs [7.29 kg]	
Frame Material	Anodized aluminum	
Slide Material	Nickel plated steel	
Linkage, Handle, Latch Material	Stainless steel	
Available Module Slots	25 positions	
Cycle Life	20,000 cycles	
Temperature	−55° C to 85° C	
Max. Mating Force	605 lbs [274.4 kg]	
Max. Weight Support	80 lbs @ 12" [36 kg @ 30.5 cm]	

The 25 module VXI receiver allows you to use 12 pre-wired InterConnect adapters. It also hinges down for direct access to the instruments. It is equipped with a locking handle to ensure your contacts are engaged. A standard integrated microswitch shuts off power when the ITA disengages from the receiver.

25 Module Solution • 9025 ITA

► ITA, 9025, 25 Module, Single Tier • Part # 410 104 111

Weight	2.6 lbs [1.18 kg]
Frame Material	Chromated aluminum
Available Module Slots	25 positions

 Cycle Life
 20,000 cycles

 Temperature
 −55° C to 85° C

 Max. Mating Force
 787 lbs [357 kg]

ITA Specifications

This ITA can accept both front and rear mount enclosures. It supports a maximum load of 787 lbs to achieve .015" total deflection. If application calls for a load that exceeds 787 lbs, please refer to our 1.5" thick 9025 ITA Part # 410 104 505.

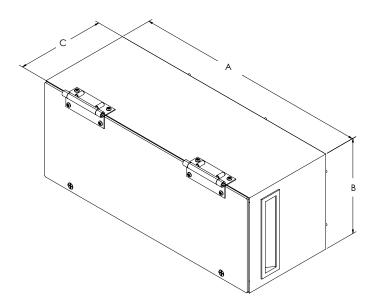

25 Module Solution • 25 Module Enclosures

Enclosures for 25 module ITAs are made of aluminum and painted black. The top of the enclosure has a hinged cover plate with $\frac{1}{4}$ turn hardware that provides easy access to the ITA's wiring when required. The 9025 ITA can accept both front and rear mount enclosures.

All cover plates are black anodized. Screws for mounting the enclosures to the ITA are included. Handles are provided for easy removal of the ITA from the receiver.

Visit vpc.com/enclosures for more enclosure options.

9025 • Accessories

Made of aluminum, the enclosure body is painted black and features a hinged cover plate with 1/4 turn hardware that provides easy access to the ITA wiring. The enclosure is secured to the ITA by 12 #4 socket head cap screws.

The rack extender kit is used for mounting to racks with mounting rails recessed more than 1". It is made of aluminum with a black anodized finish.

Enclosure, 25 Module, Hinged Cover Plate, 15" Deep • Part # 410 112 823

This 25 module enclosure is made of powder coated aluminum. The top of the enclosure has a G10 hinged cover plate with 1/4-turn hardware that provides easy access to the ITA wiring

when required.

This 25 module enclosure is made of powder coated aluminum. The top of the enclosure has a hinged cover plate with 1/4-turn hardware that provides easy access to the ITA wiring when required.

Enclosure, 25 Module, Front Module, Sloped, for 9025TR, with G10 Cover • Part # 410 114 103

The aluminum receiver protective cover protects contacts and modules when the ITA is not in use.

Protective Cover, 9025, 9025VXI & 9025TR, Receiver • Part # 310 113 163

The aluminum ITA protective cover protects contacts and modules when the ITA is not in use.

Protective Cover, 9025, 9025VXI & 9025TR, ITA Part # 410 112 578

50 Module Solution • 9050

The rack mountable 9050 receiver is designed to accept the 9025 and 9050 ITAs and is essential to support advanced Mass InterConnect requirements. The VXI receiver is designed for use with our pre-wired InterConnect adapters on the top tier and discrete wiring modules on the bottom tier. The receiver hinges down to give the user access to the instruments in the rack. The 50 module VXI and discrete-wiring receiver is available in rack mount, slide mount, and platform slide mount versions. The slide and rack mount options can accept two 9025 ITAs in addition to the standard 50 module ITA. The 50 module solution can be adapted to accommodate vacuum or mechanical fixturing. Connector modules can also be intermixed to establish custom interfaces, which are ideal for functional and system testing applications.

Features and Benefits

- Precision engineered engagement mechanism
- Standard ITA frame accommodates multiple enclosure types for a variety of fixture options
- Modular and reconfigurable for evolving test requirements
- Reliable connectivity beyond 20,000 cycles
- Quick and easy integration and maintenance
- Wide range of I/O options including signal, coaxial, power, pneumatic, vacuum, thermocouple, fiber optic, and PCB solutions

- Designed to fit a standard 19" rack
- An integrated microswitch that shuts power off when the ITA disengages
- VXI receivers incorporate a left-side handle on a telescoping shaft for use with enclosures larger than the ITA
- VXI Plug & Play kit allows the VXI receiver to hinge down offering easy access to interconnect adapters and VXI test instrumentation
- Mounting options include: rack mount, slide mount, and platform slide mount

50 Module Solution • 9050 VXI and Discrete Wiring

[471.81] 18.58

Receiver, 9050, 50 Module, VXI and Discrete Wiring, Double Tier • Part # 310 104 248

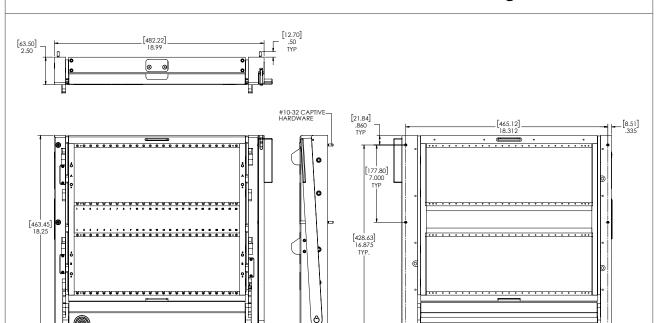

Receiver Specifications

Weight	25 lbs [11.34 kg]	
Frame Material	Anodized aluminum	
Slide Material	Nickel plated steel	
Linkage, Handle, Latch Material	Stainless steel	
Available Module Slots	50 psitions	
Cycle Life	20,000 cycles	
Temperature	−55° C to 85° C	
Max. Mating Force	1331 lbs [603.7 kg]	
Max. Weight Support	80 lbs @ 12" [36 kg @ 30.5 cm]	

The 9050 VXI receiver's op tier accommodates VXI instruments and accepts our InterConnect adapters. The bottom tier is for discrete wiring.

50 Module Solution • 9050 Dual Discrete Wiring

Receiver, 9050, 50 Module, Dual Discrete Wiring Tiers • Part # 310 104 368

Receiver Specifications

Weight	30.4 lbs [13.79 kg]	
Frame Material	Anodized aluminum	
Slide Material	Nickel plated steel	
Linkage, Handle, Latch Material	Stainless steel	
Available Module Slots	50 positions	
Cycle Life	20,000 cycles	
Temperature	−55° C to 85° C	
Max. Mating Force	1870 lbs [848.2 kg]	
Max. Weight Support	80 lbs @ 12" [36 kg @ 30.5 cm]	
I .		

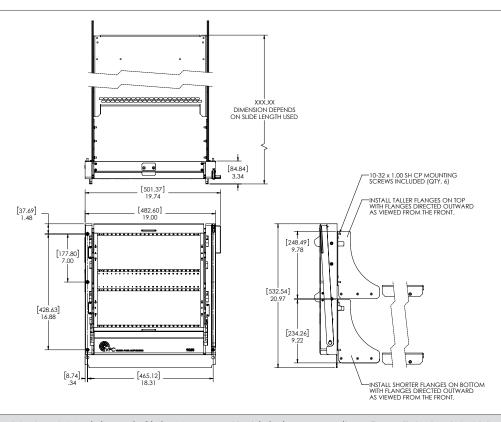

The 9050 receiver is a rugged system devised to accommodate high I/O. With high contact point availability, the 50 module receiver is suited for larger test and measurement systems. Both tiers are designed for discrete wiring, and can accommodate individual 9025 ITAs.

50 Module Solution • 9050 Receiver for Slide Mount

Receiver, 9050, 50 Module, with Slide Mounting Kit (slide kit required) • Part # 310 104 402

Receiver Specifications

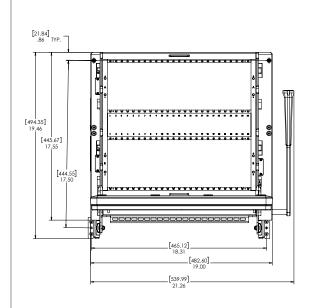

<u>-</u>	
Weight	41.7 lbs [18.9 kg]
Frame Material	Anodized aluminum
Slide Material	Nickel plated steel
Linkage, Handle, Latch Material	Stainless steel
Available Module Slots	50 positions
Cycle Life	20,000 cycles
Temperature	−55° C to 85° C
Max. Mating Force	1870 lbs [848.2 kg]
Max. Weight Support	360 lbs @ 12" [163.3 kg @ 30.5 cm]

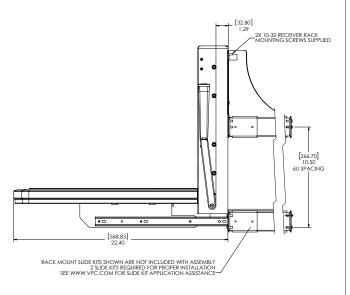

The 50 module receiver is a rugged system designed to accommodate high I/O. The 9050 with Slide Mounting Kit enables slide-out access to both chassis and instrumentation. This receiver is designed to work with a slide kit and includes a mounting bracket, flanges and instrument bracket. Two slide kits are required for use.

50 Module Solution • 9050TR Receiver for Slide Mount

Receiver, 9050TR, 50 Module, with 20" Platform (slide kit required) • Part # 310 104 369

Receiver Specifications

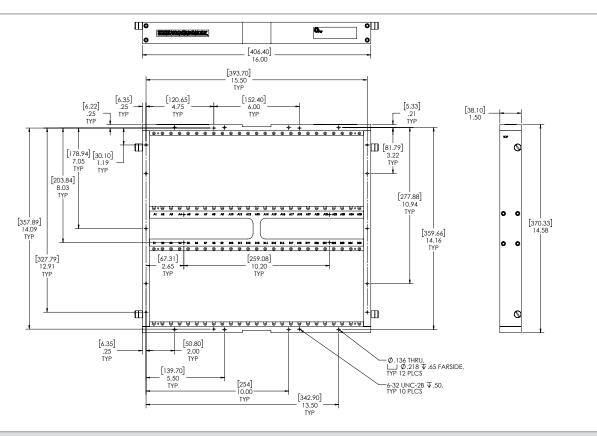

Weight	72 lbs [32.66 kg]
Frame Material	Anodized aluminum
Slide Material	Nickel plated steel
Linkage, Handle, Latch Material	Stainless steel
Available Module Slots	50 positions
Cycle Life	20,000 cycles
Temperature	−55° C to 85° C
Max. Mating Force	1654 lbs [750.2 kg]
Max. Weight Support	360 lbs @ 12" [163.3 kg @ 30.5 cm]

The 50 module platform receiver is designed to fit into a standard 19" rack. It is equipped with a locking handle to ensure your contacts are engaged. A standard integrated microswitch shuts off power when the ITA disengages from the receiver. This receiver is designed to work with a slide kit and includes mounting flanges and instrument bracket, Part # 310 113 507. Two slide kits are required for use.

50 Module Solution • 9050 VXI ITA

TTA, 9050, 50 Module, VXI and Discrete Wiring, Double Tier • Part # 410 104 538

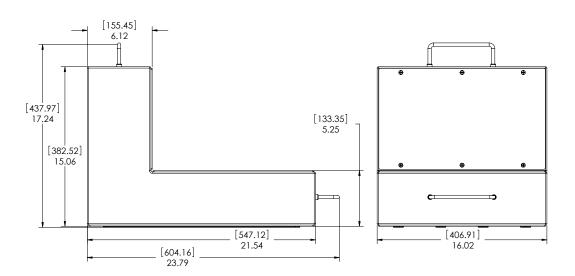

ITA Specifications

Weight	8.25 lbs [3.74 kg]
Frame Material	Chromated aluminum
Available Module Slots	50 positions
Cycle Life	20,000 cycles
Max. Mating Force	2133 lbs [967.5 kg]
Temperature	−55° C to 85° C

The 50 module ITA can be used in a number of applications to accomplish the required connection to the unit under test (UUT). You can mount a VPC front or rear mount enclosure or customize your own fixture to be attached to the ITA frame. A wide range of ITA modules are available separately for user configuration.

50 Module Solution • Accessories ▼

The L-Shaped Enclosure provides significant area for external I/O devices. The three access panels (front, top, and bottom) are removable covers with ½ turn fasteners. With the use of adapter plates, it can be used with 9050 and 9025 ITAs.

Enclosure, 50 Module, L-Shaped • Part # 410 112 770

When the receiver is not in use, the protective cover is used to protect the modules and contacts. The protective cover is made up of black anodized aluminum.

The aluminum ITA protective cover protects contacts and modules when the ITA is not in use.

- Protective Cover, 9050, VXI and Discrete Wiring Receiver • Part # 310 113 285
- Protective Cover, 9050, VXI and Discrete Wiring, ITA Part # 410 112 582

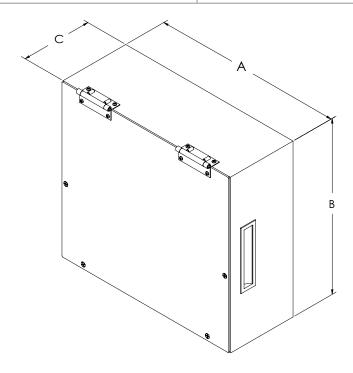

50 Module Solution • 50 Module Enclosures

Enclosures for 50 module ITA are made of aluminum and painted black. The top of the enclosure has a hinged cover plate with $\frac{1}{4}$ turn hardware that provides easy access to the ITAs wiring when required. The 9050 ITA can accept both front and rear mount enclosures.

All cover plates are black anodized. Screws for mounting the enclosures to the ITA are included. Handles are provided for easy removal of the TPS hardware from the receiver, except where noted.

Visit vpc.com/enclosures for more options.

25 and 50 Module Solutions • Enclosures

Front Mount ITA to Standard Enclosure

Standard Enclosures

VPC offers a variety of standard enclosures for discrete-wiring needs. Our enclosures range from the low I/O ITAs such as the G2 and G6 to the high I/O systems such as the 9050. For several of our receiver systems, we offer multiple standard enclosures to meet varying test requirements. The larger enclosures come with standard hinged cover plates to enable easy access to wiring.

Visit vpc.com/enclosures for a list of our standard enclosures.

Custom Enclosures

VPC's highly reliable ITAs mount directly to an enclosure to house your test fixturing. This enclosure

can be customized to fit your application requirements. VPC offers custom cut-outs for accommodating your secondary connectors and custom silk screening and engraving to guarantee quick and fail-safe identification of your test lines. Hinged or removable covers can be added to any side of your enclosure to provide quick and easy access.

custom cutouts

Custom silk screening

Installation of components

Hinges mounted on top, bottom, left or right

Standard Enclosure with Custom Cutouts

Custom Enclosure with Custom Cutouts

Different manufacturing methods are available for creating your quality enclosure. VPC offers enclosures in both deep drawn and sheet metal sides that can be welded together. We can manufacture your enclosure with removable side panels and mounting hardware. We can also wire the enclosure to your specifications.

Many enclosure accessories are available, such as protective covers that prevent damage to your pins, and adapter plates for making your solution scalable.

VXI Plug & Play Adapter Plates and Flange Kits

VXI receivers must be mounted to the VXI instrument chassis. There are two methods to accomplish this. The first method is to take advantage of the VXI Plug & Play standard that was established to ensure interoperability between multiple vendors in both software and hardware. If the chassis meets the VXI Plug & Play standard, and you are planning to use the 9025 VXI receiver (Part # 310 104 127), then the user should purchase the receiver mounting flanges as an accessory from the chassis manufacturer. These, used in combination with a VPC VXI Plug & Play plate, will allow the user to mount the 9025 VXI receiver to the chassis without any special tools or alignment requirements. VPC offers three VXI Plug & Play plates to choose from depending on the U height (1U = 1.75") of the chassis.

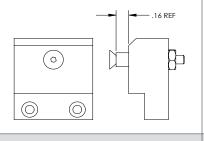

If you are planning to use the 9050 VXI receiver (Part # 310 104 248), then the second method must be employed. This involves using flanges manufactured by VPC in order to mount the larger 9050 VXI receiver to the VXI chassis. In this case, the flanges must be selected to match the particular chassis that is being used, and they must be aligned to the receiver and chassis during assembly. In order to accomplish the alignment required, the user can use two VPC pre-wired InterConnect adapters. If using the pre-wired InterConnect adapters, it should be noted that you must mount to a VXI Instrument in order to achieve proper alignment (visit vpc.com for User's Manual instructions).

Part #	Description
310 113 299 310 113 303	Adapter Kit for Keysight Technologies C- Size VXI E8400 used with Double Tier Receiver Adapter Kit for Tektronix VX1410A, VX1401A and VX1420A used with Double Tier Receiver
NOTE: VXI Plug & P	lay Flanges for the following must be purchased from the chassis manufacturer.
310 113 248 310 113 257 310 113 272	VXI Plug & Play Adapter Plate for 8U Chassis (will also fit Racal Instruments 7U chassis) VXI Plug & Play Adapter Plate for 9U Chassis VXI Plug & Play Adapter Plate for Racal Instruments 9U Chassis

Wiring Module Retainer Blocks

Module retainer blocks are used to attach modules directly to the inner frame of the VXI receiver for discrete wiring. These modules then hinge down with the receiver, providing easy access to the wiring.

A special Punch Tool, Part # 910 121 137 is required to mount the InterConnect Adapter on a few VXI cards. Module Extraction Tool, Part # 910 109 111, is used to extract the VXI card and InterConnect Adapter from the mainframe is available. Consult VPC for more information.

Platform Mount Slide Kit Accessories

The keyboard tray kit with touchpad mouse connects to the computer's USB port.

The universal edge card adapter kit's card guides are hinged and can be folded for storage by releasing the holding latches on either side

- Keyboard Tray Kit Part # 310 113 439
- Edge Card Adapter, Universal, For .062 PCB Part # 111 107 138
- Edge Card Adapter, Universal, For .093 PCB Part # 111 107 148

The adjustable leg kit is designed to alleviate added weight from your enclosure by giving the platform extra support. The leg kit works with all 20" platform solutions.

The instrument bracket works only with the platform slide configuration. It is used to mount the testing instrument to the slides. The brackets allow the test instruments to slide out for maintenance access and have a strain relief area in the front of the bracket to tie down wires and cables.

- Adjustable Leg Kit for the 20" Platform, 27"-36", Supports 350 lbs. • Part # 310 113 566
- Instrument Bracket Kit with Strain Relief, for Slide Configuration, for 28" or longer slides only • Part # 310 113 453

Measure rack depth between mounting rails to determine the slide mounting kit that fits the rack. A rack extender kit is available for mounting to racks with recessed rails.

- 20" Slide Kit, Fits 18"-22" deep racks, Supports 180 lbs Part # 310 113 409
- 24" Slide Kit, Fits 22"-26" deep racks, Supports 180 lbs Part # 310 113 410
- 28" Slide Kit, Fits 26"-30" deep racks, Supports 180 lbs Part # 310 113 451
- 30" Slide Kit, Fits 28"–32" deep racks, Supports 180 lbs Part # 310 113 411
- 36" Slide Kit, Fits 34"-38" deep racks, Supports 180 lbs Part # 310 113 500

^{*} These screws are used to assemble the top and bottom half of a module.

Complete the Package

with Contacts, Modules, Patchcords and Tools.

Reconfigurable Connector Modules

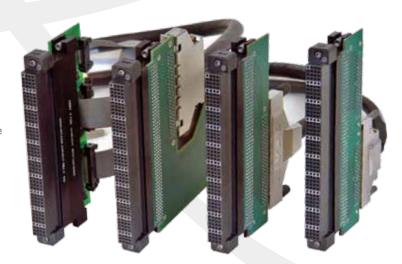

- Handle various contact requirements such as digital, power, coaxial, and more
- Able to be arranged in any configuration depending on the test requirements

Easy Integration with PCB Adapters

- Enables ease of integration while providing wiring convenience in a cost-effective package
- Incorporates a PCB with multiple standard connectors
- Offers "plug and play" capability between module and instrumentation

- Patchcords are available in various lengths to suit any application
- Cost-effective solution for your wiring needs
- Reduced setup time with pre-built patchcords

Variety of Connection Options

- > Configurable for virtually any connection requirement
- > Reliable connections maintain signal integrity
- ➤ Most contacts are rated to 20,000 mating cycles

Complete Tool Selection

- Crimp tools and locators are available to easily terminate contacts and wires
- Extraction tools are available to remove contacts from the module quickly when necessary, saving time
- Inspection tools are available to ensure proper function before system integration

75 Ohm Coaxial Contacts and Patchcords

Contact Specifications		
Characteristic Impedance	75 Ω	
Frequency Range	DC to 3 GHz	
Insertion Loss	-1.64 dB @ 3 GHz	
VSWR	< 2.95 @ 3 GHz	
Operating Current	3.0 amp DC max. continuous	
Contact Resistance	Center contact – 5 m Ω Outer shield – 3 m Ω	
Mating Force	4.0 lbs max. [1.81 kg]	
Dielectric Withstanding Voltage (DWV)	800 volts RMS	
Insulation Resistance	1000 MΩ min.	
Contact Body Material	Female & male shield • brass Center contact • BeCu	
Contact Plating	Center conductor shield • 30μ" Au over 100μ" Ni	
Cycle Life	20,000 cycles

20/26 GHz Coaxial Contacts and Patchcords

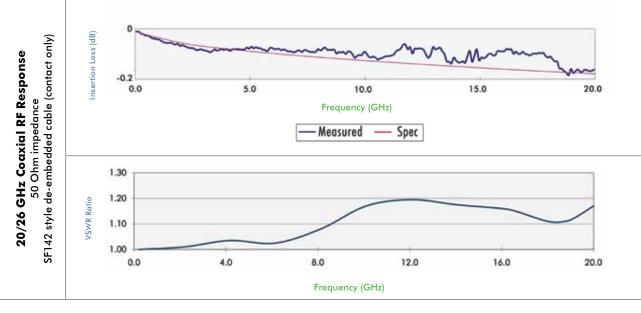

Contact Specifications		
Characteristic Impedance	50 Ω	
Frequency Range	DC to 26 GHz	
Insertion Loss	.06 x√f(GHz) dB	
VSWR	1.15 + .01 (f) GHz (w/ SF142 [20 GHz]) 1.25 for 2 - 18 GHz (w/ TF402) 1.30 for 18 - 26 GHz (w/ TF402)	
Operating Current	5 Amps DC max. continuous	
Contact Isolation	> -90 dB over frequency range	
Contact Resistance	4 m Ω max. center conductor 2 m Ω max. shield	
Mating Force	4.0 lbs max. [1.81 kg]	
2.0.00	800 volts RMS shield to center contact 1000 volts RMS contact to contact	
Insulation Resistance	2000 MΩ min.	
Contact Body Material	Female & male plug (RCV & ITA) Shield – brass Center conductor – BeCu	
Contact Plating	30μ" Aυ over 100μ" Ni	
Cycle Life	20,000 cycles	

For applications in which a more flexible cable is needed, use Flex 402 patchcords. Flex 402 cable has half the minimum bend radius as SF142. When flexibility is not as important, use our crimp contact with SF142 cable.

20/26 GHz Coaxial SMA Contacts

Contact Specifications	
Characteristic Impedance	50 Ω
Frequency Range	DC to 26 GHz
Insertion Loss	.06 x√f(GHz) dB
VSWR	1.15 + .01 (f) GHz
Operating Current	5 Amp DC max. continuous
Contact Isolation	> -90 dB over frequency range
Mating Force	4.0 lbs max. [1.81 kg]
Contact Resistance	5 mΩ max. center conductor 3 mΩ max. shield
Dielectric Withstanding Voltage (DWV)	800 volts RMS shield to center contact 1000 volts RMS contact to contact
Insulation Resistance	2000 MΩ min.
Contact Body Material	Shield – brass Center conductor – BeCu
Contact Plating	30μ" Aυ over 100μ" Ni
Cycle Life	20,000 cycles

Pneumatic Contacts

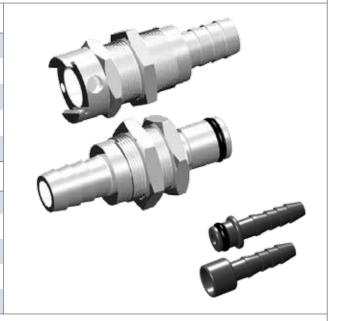

Contact Specifications • 1/4" Flow [6.4 mm]

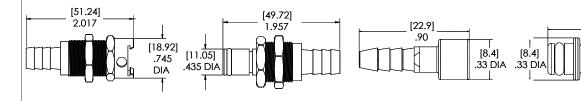

Pressure/Vacuum Rated	250 psi (17.3 Bar)
Temperature	-40°F to 180°F (-40°C to 82°C)
Contact Body Material	Chrome-plated brass
Mating Force	9.4 lbs typical [4.26 kg]
Cycle Life	20,000 cycles

Contact Specifications • 1/8" Flow [3.2 mm]

Pressure/Vacuum Rated	100 psi (6.9 Bar)
Temperature	-40°F to 180°F (-40°C to 82°C)
Contact Body Material	Delrin®
Mating Force	1.5 lbs typical [.68 kg]
Cycle Life	20,000 cycles

[22.9]

^{*} Part # 510 104 178 does not require VXI module retainer blocks to mount to the inner frame of the VXI receiver.

Cable Management

VPC solutions are designed to accommodate an array of ATE chassis sizes/configurations, including PXI, SCXI, GPIB, LXI, PCI, VXI and AXIe applications. These solutions are available in various wired configurations, including direct panel mount, slide mount, and Vertical Hinged Mounting Frame. Regardless of the type of configuration you choose, cable routing and strain relief are important considerations to make in managing your cabling.

For more detailed cable management information, visit vpc.com/cable or contact VPC to discuss your cable management needs with an application engineer.

Strain Relief

With any configuration type, strain relief is critical in developing a reliable and consistent tester. VPC offers several strain relief options.

Module Strain Relief: The most common method is to attach strain relief plates directly to the modules (Figure 1). Wire or cable bundles are secured to the plate with wire ties, preventing forces exerted on the cables from transferring directly to the contact termination which can cause damage and loss of signal integrity.

Figure 2 Cable Tie Down Bar on Instrument Bracket

Figure 1 Module Strain Relief

bars on the receiver side. These bars are included with the Vertical Hinged Mounting Frames and are designed into the instrument bracket or cable tray kits used with slide mount receivers (Figure 2).

When slide mounting your receiver, cables connecting to the receiver should be secured to the strain relief on the instrument bracket. This prevents the cables from being damaged when the slides are extended. Cables routed to instrumentation not placed on the instrument bracket should be secured to the strain relief on the instrument bracket.

Cable Management

Measuring and Routing Cable

Direct Panel Mount

Direct panel mount systems enable the instrument chassis to be placed directly behind the VPC receiver. When using the direct panel mount method, keep a space of 8-10" from the front of the chassis to prevent tight bends in the cable. To determine the proper cable length required, measure the distance from the front face of the instrument to the module location in the receiver, allowing for bends in the cable for proper cable routing.

Slide Mount

Slide mount configurations, popular for use with PXI-based testers, offer short cable lengths, easy access to instrumentation, and the ability to connect to secondary instrumentation. In addition, the cabling remains static and electrically consistent when accessing instrumentation.

When slide mounting your receiver, consider whether or not the instrument chassis will be placed on an instrument bracket. The recommended cable length is 20" when the instrument bracket is used with a slide mounted receiver. This length can change if the instrument is being wired to a receiver module on the opposite side of the tester (**Figure 3**).

Vertical Hinged Mounting Frame

Vertical Hinged Mounting Frames (VHMF) enable the instrument chassis to be placed directly behind the VHMF. When using a VHMF, keep a space of 8-10" from the front of the chassis to prevent tight bends in the cables when the VHMF is closed. To determine the proper cable length required, measure the distance from the front face of the instrument to the module location in the receiver with the VHMF in the "open" position (**Figure 4**), allowing for bends in the cable for proper cable routing and allowing extra length in the cable to prevent tight bends when the VHMF is closed.

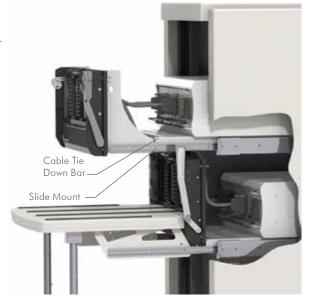

Figure 3 Slide Mount Configuration Routing.

The cables used to connect the instrumentation located somewhere other than the instrument bracket to the receiver must be long enough to allow the slides to extend fully without putting tension on the cables (**Figure 3**). To determine the appropriate cable length, measure the vertical distance from the receiver to the instrument, then measure the distance from the front of the rack to the receiver with the slides fully extended, taking any bends and special routing into consideration.

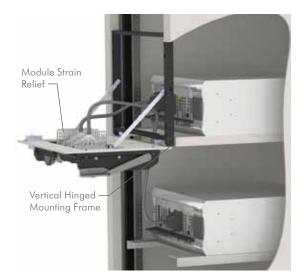

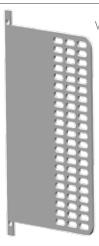

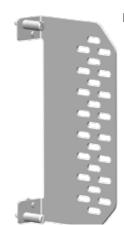

Figure 4 Vertical Hinged Mounting Frame Configuration.

vpc.com/cable

Works with receiver modules:

510 104 306

Designed to support the Racal "Adapt-a-Switch" and the VTI Instruments SMIP II instrumentation cards

Strain Relief Plate for Select Receiver Modules **Part # 510 109 116**

Works with QuadraPaddle receiver modules: 510 150 130 ++ 510 150 115

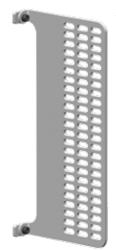

Strain Relief Plate for 160 Pin DIN VXI Connectors **Part # 510 109 338**

Works with QuadraPaddle receiver modules: 510 150 131 510 150 116

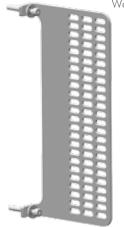

Strain Relief Plate for QuadraPaddle 192 Position Receiver Modules • Part # 510 109 349

Works with all receiver modules

Strain Relief Plate for QuadraPaddle 480 Position Receiver Modules • Part # 510 109 348

Works with all ITA modules

NOTE: Plate is not needed for ITAs with cable clamps

Strain Relief Plate for Receiver Modules **Part # 510 109 298**

Strain Relief Plate for ITA Modules

Part # 510 109 296

310 104 411 310 104 419	Receiver, G12x, 18 Module with 20" Platform for Tabletop	
310 104 419	Receiver, 9025, 25 Module, Single Tier	
310 104 431	Receiver, 9025, 25 Module, 5Mg Gasket.	
310 104 435	Receiver, 9025TR, 25 Module, with 20" Platform (slide kit required)	
310 104 436	Receiver, 9025TR, 25 Module, with 20" Platform, For Tabletop	
310 104 437	Receiver, 9025, 25 Module, with Slide Mounting (slide kit required)	
310 104 447	Receiver, 9025TR, 25 Module, with 15" Platform, for Tabletop	
310 104 450	Receiver, G6, 6 Module, Extended Right Handle	
310 113 154	Protective Cover, G10, Receiver	
310 113 158	Protective Cover, G6, Receiver	
310 113 163	Protective Cover, 9025, 9025VXI & 9025TR, Receiver	
310 113 248	VXI Plug & Play Adapter Plate for 8U Chassis (also fits Racal 7U Chassis)	
310 113 257 310 113 272	VXI Plug & Play Adapter Plate for 9U Chassis	
310 113 272	Protective Cover, 9050, VXI and Discrete Wiring, Receiver	
310 113 299	Adapter Kit for Keysight Technologies C- Size VXI E8400 used with Double Tier Receiver	
310 113 301	Fixed Mounting Panel, iCon, 4U, 8 Positions, Painted Gray	
310 113 302	Fixed Mounting Panel, iCon, 4U, 8 Positions, Painted Black	
310 113 303	Adapter Kit for Tektronix VX1410A, VX1401A and VX1420A used with Double Tier Receiver	163, 174
310 113 316	Vertical Hinged Mounting Frame, 9025, 8U	
310 113 320	Vertical Hinged Mounting Frame, 9025, 9U	
310 113 322	Vertical Hinged Mounting Frame, G18, 5U	
310 113 327	Protective Cover, G18, Receiver	
310 113 328	Vertical Hinged Mounting Frame, G18, 9U	
310 113 341 310 113 342	Vertical Hinged Mounting Frame, G6, 5U, 1 Position	
310 113 358	Vertical Hinged Mounting Frame, G10, 5U Vertical Hinged Mounting Frame, 5U, Blank	
310 113 364	VXI Plug and Play Plate, 14U (for Part #310 104 248)	
310 113 371	Chassis Mount Kit for Pickering 40-908, 40-914, 40-918	
310 113 391	Vertical Hinged Mounting Frame, G2, 5U, 3 Position, (2 Blank Plates Included)	
310 113 394	Replacement Protective Cover, G2, Receiver	77, 81
310 113 395	Fixed Mounting Panel, G2, 5U, 3 Position, (2 Blank Plates Included)	
310 113 397	Vertical Hinged Mounting Frame, G6, 5U, 2 Positions	
310 113 402	Protective Cover, G12, Receiver	
310 113 406	Rack Extender Kit, G12, 1.5" Deep	
310 113 408	Vertical Hinged Mounting Frame, G10, 5U, Cutout on Right	
310 113 409 310 113 410	20" Slide Kit, Fits 18"–22" Deep Racks, Supports 180 lbs	
310 113 411	24 Slide Kit, Fits 22 –26 Deep Racks, Supports 180 lbs 31, 51, 61, 90, 105, 109, 117, 127, 133, 141	
310 113 417	Chassis Mount Kit for National Instruments PXI-1045 and PXI-1044 Chassis	
310 113 424	Cable Tray, Slide Configuration, for Strain Relief and Cable Management, for 28" or longer slides only	
310 113 430	Rack Extender Kit, S6, 4" Deep	
310 113 432	Protective Cover, Receiver, S6	
310 113 433	Gap Cover, G12/G12x, Rack Mount	
310 113 439	Keyboard Tray Kit, Slide Configuration, Keyboard with Touchpad Mouse Included99, 105	5, 109, 119, 154, 163, 176
310 113 444	Rear Cover, S6, Tabletop Configuration, for Part # 310 122 110/111	
310 113 451	28" Slide Kit. Fits 26"–30" Deep Racks, Supports 180 lbs 31, 51, 61, 90, 99, 105, 109, 117, 127, 133, 141	. 149. 151. 164. 165. 176

Part #	Description	Page Numbe	er
310 113 453	Instrument Bracket Kit with Strain Relief, Slide Configuration, for 28" or longer slides only	99, 105, 17	76
310 113 456	Strain Relief Plate, iCon, Receiver	61, 6	57
310 113 461	Keying Pin Kit, iSeries, Receiver and ITA		
310 113 463	Vertical Hinged Mounting Frame, iCon, 5U, 3 Positions		
310 113 465	Vertical Hinged Mounting Frame, iCon960, 5U, 2 Positions		
310 113 466	Cover Plate, iCon960, for Vertical Hinged Mounting Frame		
310 113 467	Cover Plate, iCon, for Mounting Panel Cutouts, Painted Gray		
310 113 488	Fixed Mounting Frame, iCon, 1U, 2 Positions, Black Anodized		
310 113 489 310 113 490	Protective Cover, iCon960, Receiver		
310 113 490	Fixed Mounting Frame, iCon, 1U, 2 Positions, Painted Gray		
310 113 492	Fixed Mounting Frame, iCon, 4U, 10 Positions, Painted Gray		
310 113 494	Rack Extender Kit, 9025TR, 1.5" Deep		
310 113 500	36" Slide Kit, Fits 34"-38" Deep Racks, Supports 180 lbs. 31, 51, 61, 90, 99, 105, 109, 117, 127, 133, 141,		
310 113 517	Fixed Mounting Frame, i1, 2U, 8 Positions		
310 113 518	Protective Cover, G12x, Receiver		
310 113 519	Rack Extender Kit, G12x, 1.5" Deep		
310 113 520	Rear Cover, G12x, Tabletop Configuration	98, 10)3
310 113 524	Replacement Protective Cover, i1, Receiver	51, 5	56
310 113 531	Strain Relief Plate, i1, Receiver		
310 113 540	Mounting Plate, iCon 6U, 4 Positions, with Slide Mounting Kit (slide kit required)	6	51
310 113 542	Instrument Bracket Mounting Block Kit, for use with Pickering PXI Chassis	117, 14	19
310 113 546	Cover Plate, i1, for Mounting Frame Cutouts, Painted Gray		
310 113 547	Mounting Plate, i1 6U, 4 Positions, with Slide Mounting Kit (slide kit required)		
310 113 559	Strain Relief Plate, i2 Micro iCon, Receiver	,	
310 113 562	Bracket, Receiver, i2 Micro iCon, for PCB Mounting		
310 113 566	Adjustable Leg Kit for the 20" Platform, 27"-36", Supports 350 lbs.		
310 113 569 310 113 582	Protective Cover, i2 Micro iCon, Receiver		
310 113 586	Mounting Plate, i2 Micro iCon, 6U, 6 Positions, with Slide Mounting Kit (slide kit required)		
310 113 589	Chassis Mount Kit for Keysight M9018A Chassis		
310 113 597	Protective Cover, G20x, Receiver.		
310 113 606	Adapter Plate, Allows G20x and G40x Receiver to Accept iCon Modules		
310 113 607	Cover Plate, i2 Micro iCon, for Mounting Panel Cutouts, Painted Gray	3	31
310 113 622	Mounting Flange Kit, G20/G20x Slide Mount, for NI PXI-1045 Chassis	127, 13	33
310 113 627	Mounting Panel, iCon960, 1 Position with Slide Mounting (Slide Kit Required	6	59
310 113 644	Mounting Flange Kit, G20/G20x Slide Mount, for Pickering 40-923		
310 113 653	Mounting Flange Kit, G20/G20x Slide Mount, for Keysight M9018A Chassis		
310 113 667	Protective Cover, i2 MX, Receiver, EMI-Shielded		
310 113 678	Replacement Protective Cover, iCon, Receiver	,	
310 113 681	Strain Relief Plate, i2 MX, Receiver		
310 113 693 310 118 112	Protective Cover, G20x, Receiver, EMI Keying Pin Kit, Receiver/ITA.		
310 120 101	Receiver, G18, 18 Module for Discrete Wiring		
310 120 102	Receiver, G18, 18 Module with Flush Hangers		
310 120 110	Receiver, G2, 2 Module, Keying Feature, with Protective Cover		
310 120 141	Receiver, G18, 18 Module, with Slide Mounting Kit (slide kit required)		
310 120 146	Receiver, G10, 10 Module, with Slide Mounting Kit (slide kit required)		
310 120 161	Receiver, G18, 18 Module, EMI Gasket, with Slide Mounting (slide kit required)	11	17
310 120 163	Receiver, G40x, 48 Module, with Slide Mounting Kit (slide kit required)	141, 14	42
310 120 168	Receiver, G18, 18 Module, EMI Gasket	117, 12	20
310 120 183	Receiver, G20x, 29 Module, EMI Gasket		
310 120 186	Receiver, G20x, 28 Module		
310 120 188	Receiver, G20, 20 Module		
310 120 193	Receiver, G20, 20 Module, EMI Gasket		
310 122 100	Receiver, S6, 6 Module	,	
310 122 101 310 122 108	Receiver, S6, 6 Module with 20" Platform, for Slide Mount (slide kit required)		
310 122 100	Receiver, S6, 6 Module with 15" Platform for Tabletop		
310 122 111	Receiver, S6, 6 Module with 20" Platform for Tabletop		
310 123 101	Receiver, iCon, with Protective Cover		
310 123 102	Receiver, iCon, EMI Shielded, with Protective Cover		
310 123 103	Receiver, iCon, Reverse Module Configuration for iCon ITA Modules, with Protective Cover		
310 124 102	Receiver, iCon960, 2 QuadraPaddle Modules, Fully Loaded with Twin Female Contacts and Round Posts (510	150 135)6	59
310 124 103	Receiver, iCon960, 2 QuadraPaddle Modules, for Crimp Contacts (510 150 116)		
310 124 105	Receiver, iCon960, 2 QuadraPaddle Modules (510 150 115) and 2 96 Position TriPaddle Modules (510 104	,	
310 124 112	Receiver, iCon960, 2 QuadraPaddle Modules, Fully Loaded with Twin Female Contacts (510 150 131)	6	59

Part #	Description	Page Numbe
310 124 117	Receiver, iCon960, 2 TriPaddle Modules (510 104 101 and 510 104 136) and 2 TriPaddle/Mini Power Hybrid M	, ,
310 124 124	Receiver, iCon960, 4 Twinaxial Modules (510 104 155)	
310 124 126	Receiver, iCon960, 2 TriPaddle Modules (510 104 149)	
310 124 128	Receiver, iCon960, 2 QuadraPaddle Modules, for Crimp Contacts (510 151 105) and 2 Mini Coaxial Module	
310 124 130	Receiver, iCon960, 1 QuadraPaddle Module (510 150 115) and 3 TriPaddle Modules (510 108 126	
310 124 131 310 124 132	Receiver, iCon960, 2 QuadraPaddle Modules, Fully Loaded with Twin Female Contacts and Square Posts for V	•
310 124 132	Receiver, iCon960, 16/16, 192 and 480 QuadraPaddle	
310 126 101	Receiver, 17, Willi Protective Cover Receiver, 12 Micro iCon, 168 Position, Fully Loaded with Twin Female Contacts (610 138 200)	
310 130 101	Receiver, 12 Micro iCon, 168 Position, for Crimp Contacts	
310 130 102	Receiver, 12 Micro iCon, 120/12 Position Hybrid, Loaded with Twin Female Contacts (610 138 200)	
310 130 104	Receiver, 12 Micro iCon, 168 Position, Unloaded, for Twin Female Contacts (610 138 200)	
310 130 107	Receiver, 12 MX, 2 SIM Module Inserts, 22 Position, EMI-Shielded	
310 130 114	Receiver, 12 MX, EMI-Shielded	
310 130 202	Receiver, i2 MX, 2 QuadraPaddle Module Inserts, Fully Loaded with Twin Female Contacts (610 138 200), EM	
310 130 202	Receiver, 12 MX, 2 TriPaddle Signal/Micro Power and Micro Coaxial Module Inserts, EMI-Shielded	
310 130 205	Receiver, i2 MX, QuadraPaddle Module Insert, Crimp/Micro Power and Micro Coaxial Module Insert, EMI-Shie	
410 104 111	ITA, 9025, 25 Module, Single Tier	
410 104 118	ITA, 9006, 6 Module	
110 104 123	ITA, 9010, 10 Module	
410 104 272	ITA with Removable Cover, G10, 10 Module, with Protective Cover.	
110 104 273	ITA with Removable Cover, G6, 6 Module, Keying Feature, with Protective Cover	
110 104 288	ITA, G6, 6 Module, EMI Gasket	
110 104 304	ITA, 9025, 25 Module, EMI, with 8" Enclosure	
110 104 306	ITA, 9025, 25 Module, Single Tier, for EMI	
110 104 322	ITA, G12, Front Mount, 12 Module, with Protective Cover.	
110 104 331	ITA, G6, 6 Module	
10 104 375	ITA, G10, 10 Module	
10 104 474	ITA, G12x, Front Mount, 18 Module	
10 104 505	ITA, 9025, Single Tier, 1.5" Thick	
10 104 538	ITA, 9050, 50 Module, VXI and Discrete Wiring, Double Tier	
110 112 198	Enclosure, 25 Module, Hinged Cover Plate, 4" Deep	
110 112 252	Enclosure, 9010, 10 Module with 3 Cable Clamps	89, 9
110 112 273	Enclosure, 25 Module, Hinged Cover Plate, 8" Deep	149, 151, 153, 16
110 112 291	Enclosure, 10 Module with Hinged Cover Plate (for ITA Part # 410 104 375)	
410 112 336	Enclosure, 50 Module, 50 Module 4" Adapter for 25 Module, Hinged Cover	160, 16
110 112 368	Enclosrure, 25 Module, Large	
410 112 375	Enclosure, 50 Module, Hinged Cover Plate, 8" Deep	163, 164, 16
410 112 401	Enclosure, 6 Module, 4" Deep with Hinge (for ITA Part # 410 104 331)	8
110 112 424	Adapter Plate, allows 10 Module ITA to accept 25 Module Enclosures	89, 9
110 112 463	Enclosure, 50 Module, Hinged Cover Plate, 6" Deep	163, 164, 165, 17
110 112 519	Enclosure, 50 Module, Hinged Cover Plate, 12" Deep	163, 164, 165, 17
110 112 527	Enclosure, 18 Module, Hinged Cover Plate, 4" Deep	117, 12
110 112 541	Protective Cover, G18, ITA	117, 12
10 112 578	Protective Cover, 9025, 9025VXI & 9025TR, ITA	153, 161, 163, 164, 16
110 112 579	Protective Cover, 9050, ITA	16
110 112 582	Protective Cover, 9050, VXI and Discrete Wiring, ITA	164, 165, 17
110 112 599	Threaded Coupling Adapter, G2, G6, G10, ITA, for Conduit Harnessing Assemblies/Clamps	77, 81, 83, 87, 8
10 112 664	Enclosure, G18, 18 Module with 3 Cable Clamps	117, 12
10 112 665	Enclosure, G12, Front Mount, 4"x18"x12"	105, 109, 11
10 112 680	Replacement Protective Cover, G2, ITA	77, 8
10 112 681	Replacement Protective Cover, G12, ITA	105, 11
10 112 684	Replacement Protective Cover, G6, ITA	83, 8
10 112 685	Replacement Protective Cover, G10, ITA	89, 90, 9
10 112 686	Enclosure, G2 (for ITA # 410 120 112)	7
10 112 700	Replacement Protective Cover, ITA, S6	10
10 112 701	Enclosure, S6, 1.75" x 18" x 8"	99, 10
10 112 702	Enclosure, S6, 1.75" x 18" x 8" for Discrete Wiring	
10 112 703	Enclosure, S6, 4" x 18" x 12"	99, 10
110 112 712	Enclosure, S6, 4" x 18" x 12" for Discrete Wiring	
110 112 739	Enclosure, G12, Front Mount, 4"x18"x12", for Discrete Wiring	105, 10
110 112 750	Replacement Protective Cover, iCon, ITA	61, 6
110 112 757	Enclosure, G12, Front Mount, 7"x18"x12"	105, 10
10 112 770	Enclosure, 50 Module, L-Shaped	163, 164, 165, 17
10 112 775	Enclosure, ITA, iCon960, 2 Cable Clamps	7
110 112 790	Enclosure, 20 Module, Hinged Cover Plate, 4" Deep	127, 13

Part #	Description	Page Number
410 112 804	Protective Cover, iCon960, ITA	69, 73
410 112 823	Enclosure, 25 Module, Hinged Cover Plate	
410 112 849	Enclosure, G12x, Front Mount, 6"x18"x12"	
410 112 856	Enclosure, G12x, Front Mount, 6"x18"x12", for Discrete Wiring	
410 112 857	Protective Cover, G12x, ITA,-	
410 112 864	Replacement Protective Cover, i1, ITA	
410 112 924	Protective Cover, i2 Micro iCon, i2 MX, ITA	
410 112 976	Adapter Plate, 9050 Enclosure to 9025 ITA (ITA Positioned on Lower Part of Enclosure)	
410 112 984	Enclosure, 28 Module, Hinged Cover Plate, 8" Deep	
410 112 986	Protective Cover, G20x, ITA	
410 112 996	Adapter Plate, Allows G20x to Accept iCon Modules	
410 114 002 410 114 003	Enclosure, G12, Frount Mount, Sloped	
410 114 003	Enclosure, 25 Module, Front Mount, Sloped, for 9025 TR	
410 114 010	Protective Cover, G12, ITA, Aluminum	
410 114 101	Enclosure, G12, Front Mount, Sloped, G10 Cover	
410 114 102	Enclosure, G12x, Front Mount, Sloped, G10 Cover	
410 114 103	Enclosure, 25 Module, Front Mount, Sloped, for 9025TR, with G10 Cover	
410 114 133	Enclosure Accessory Kit, Gas Spring Loaded for Sloped Enclosures	
410 114 138	Enclosure, 10 Module, 4" Deep with 3 Cable Exits	
410 114 143	Enclosure, 20 Module, Hinged Cover Plate, 12" Deep	
410 120 101	ITA, G18, 18 Module for Discrete Wire and PCB Capabilities	117, 122
410 120 110	ITA with Removable Cover, G2, 2 Module, Keying Feature, with Protective Cover	77, 79
410 120 111	ITA, G18, 18 Module	117, 121
410 120 112	ITA, G2, 2 Module	77, 80
410 120 115	Enclosure, 48 Module, Hinged Cover Plate, 6" Deep	141
410 120 120	ITA, G2, 2 Module with 10 Module Enclosure and Adapter Plate	
410 120 199	ITA, G20, 20 Module	
410 120 206	ITA, G20, 20 Module, Keying Feature	
410 120 210	ITA, G20x, 28 Module	
410 120 246	ITA, G40x, 48 Module	
410 120 253	ITA, G20x, 28 Module, EMI, 2"	
410 122 100	ITA, S6, 6 Module, with Protective Cover	
410 123 101	ITA, iCon, with Protective Cover	
410 123 102	ITA, iCon, EMI Shielded, with Protective Cover	
410 123 106 410 123 111	ITA, iCon, with Large Cable Clamp, with Protective Cover	
410 123 111	ITA, iCon with Oversized Backshell	
410 123 593	Cable Assembly, ITA, iCon, QuadraPaddle, 36" Flying Leads	
410 123 573	Cable Assembly, ITA, iCon 100/8, QuadraPaddle, Mini Power and Mini Coaxial, 36", Flying Leads	
410 123 669	Cable Assembly, ITA, iCon, QuadraPaddle, 72", Double-Ended	
410 124 103	ITA, iCon960, 2 QuadraPaddle Modules, Fully Loaded with Twin Male Contacts and Round Posts for PCB Mounting	
410 124 104	ITA, iCon960, 2 QuadraPaddle Modules, for Crimp Contacts (510 151 106)	,
410 124 105	ITA, iCon960, 2 QuadraPaddle Modules (510 151 105) and 2 TriPaddle Modules (510 108 126) for Crimp Conta	
410 124 117	ITA, iCon960, 2 TriPaddle Modules (510 108 101 and 510 108 126) and 2 TriPaddle/Mini Power Hybrid Modules	(510 104 206) 69
410 124 129	ITA, iCon960, 4 Twinaxial Modules (510 108 138)	69
410 124 137	ITA, iCon960, 2 TriPaddle Modules (510 108 131)	69
410 124 139	ITA, iCon960, 2 QuadraPaddle Modules (510 151 105) and 2 Mini Coaxial Modules (510 108 111)	69
410 124 143	ITA, iCon960, 1 QuadraPaddle Module (510 151 105) and 3 TriPaddle Modules (510 108 126)	69
410 124 146	ITA iCon960, 1 QuadraPaddle, 192 Position (510 151 105), 1 QuadraPaddle, 480 Position (510 151 106) and	
	1 TriPaddle Signal/Mini Power Module, 16/16 Position (510 108 178)	69
410 128 101	ITA, i1, with Protective Cover	
410 128 102	ITA, i1, EMI Shielded, with Threaded Coupling Adapter and Protective Cover	51, 55
410 128 103	ITA, i1, with Large Cable Clamp and Protective Cover	
410 128 461	Cable Assembly, ITA, i1, QuadraPaddle, 36", Flying Leads	
410 128 467	Cable Assembly, ITA, i1 Hybrid 100/8, QuadraPaddle, Mini Power and Mini Coaxial, 36", Flying Leads	
410 128 539	Cable Assembly, ITA, i1, QuadraPaddle, 72", Double Ended	
410 130 101	ITA, i2 Micro iCon, 168 Position, with Protective Cover	
410 130 104	ITA, i2 Micro iCon, 120/12 Position Hybrid	
410 130 106	ITA, i2 Micro iCon, 168 Position, with Oversized Backshell	
410 130 114	ITA, i2 MX, EMI Backshell with Cable Exit	
410 130 116	ITA, 12 MX, EMI Backshell, without Cable Exit	
410 130 117 410 130 202	ITA, 12 MX, 2 QuadraPaddle Module Inserts, Crimp, EMI Backshell	
410 130 202	ITA, 12 MX, 2 TriPaddle Signal/Micro Power and Micro Coaxial Module Inserts, EMI Backshell	
410 130 204	ITA, 12 MX, QuadraPaddle Module Insert, Crimp/Micro Power and Micro Coaxial Module Insert, EMI Backshell	
410 130 409	Cable Assembly, ITA, i2 Micro iCon, QuadraPaddle, 36" Flying Leads

Part #	Description	Page Number
410 130 410	Cable Assembly, ITA, i2 Micro iCon Hybrid, QuadraPaddle, Micro Power and Micro Coaxial, 36", Flying Leads	31
410 130 425	Cable Assembly, ITA, i2 Micro iCon, QuadraPaddle, 72", Double-Ended	
410 130 426	Cable Assembly, ITA, i2 Micro iCon Hybrid, QuadraPaddle, Micro Power and Micro Coaxial, 72", Flying Leads	31
510 104 118	Blank Module, Receiver/ITA, 1 Module Position	
510 104 120	Mini Coaxial Module, Receiver, 19 Position	
510 104 123	Mini Power Module, Receiver, 19 Position	
510 104 128	PCB Adapter, Receiver, TriPaddle, 64 Position, to PCB-Mounted 2x34 pin (BERG 65496-019) Connectors	
510 104 129	Blank Shielding Module, Receiver/ITA, 1 Module Position	
510 104 133 510 104 134	Thermocouple Module, Receiver, 64 Position	
510 104 135	Signal Module, Receiver, TriPaddle, 96 Position with Right Angle Contacts for Custom PCB Mounting	
510 104 136	Signal Module, Receiver, TriPaddle, 96 Position	
510 104 139	PCB Adapter, Receiver, TriPaddle, 96 Position, to PCB-Mounted 1x96 Male DIN 41612 Connector	
510 104 144	Blank Module, Receiver/ITA, 5 Module Positions.	
510 104 149	Signal Module, Receiver, TriPaddle, 256 Position	
510 104 150	Mini Coaxial Module, Receiver, 76 Position	
510 104 155	Twinaxial Module, Receiver, 8 Position	
510 104 160	Pneumatic Module, Receiver, 5 Position (3/8" ID)	262
510 104 178	Blank Module, VXI Receiver, 2 Module Positions	266
510 104 185	Pneumatic Module, Receiver, 10 Positions (1/8" Flow)	262
510 104 187	Signal Module, Receiver, TriPaddle, 64 Position with Right Angle Contacts for Custom PCB Mounting	207
510 104 206	TriPaddle Signal/Mini Power Module, Receiver, 16/16 Position	212
510 104 224	Coaxial Module, Receiver, 40 GHz, 8 Position	251
510 104 243	TriPaddle Signal/Mini Coax Module, Receiver, 16/16 Position	224
510 104 249	Coaxial Module, 75 Ohm, Receiver, 32 Position.	
510 104 251	Coaxial Module, Receiver, 20/26 GHz and 75 Ohm HD, 32 Position	
510 104 260	Vacuum Module, Receiver, 2 Port Positions	
510 104 261	TriPaddle Signal/Thermocouple Module, Receiver, 84/12 Position	
510 104 266	Vacuum Module, Receiver, 2 Port Positions with Filter	
510 104 267	Micro Power and Micro Coaxial Module, Receiver, 50 Position	
510 104 270	Micro Power and Micro Coaxial Module, Receiver, 120 Position	
510 104 276	Vacuum-Pneumatic Module, Receiver, 1-2 Position	
510 104 280 510 104 287	Coaxial Module, Receiver, 20/26 GHz, 17 Position	
510 104 287	Coaxial Module, Receiver, 20/26 GHz, 17 Fosition. Coaxial Module, Receiver, 20/26 GHz and 75 Ohm HD, 32 Position. Includes strain relief plate	
510 104 301	Mini Coaxial Module, Receiver, 37 Position	
510 104 306	TriPaddle Signal/Micro Coax Module, Receiver, 77/8 Position.	
510 104 307	TriPaddle Signal / High Power Module, Receiver, 6/6 Position, Strain Relief Plate Included	
510 108 101	Signal Module, ITA, TriPaddle, 64 Position	
510 108 111	Mini Coaxial Module, ITA, 19 Position	
510 108 112	Signal Module, ITA, TriPaddle, 64 Position with Right Angle Contacts for Custom PCB Mounting	207
510 108 115	Mini Power Module, ITA, 19 Position	211
510 108 124	Thermocouple Module, ITA, 64 Position	275
510 108 125	Signal Module, ITA, TriPaddle, 96 Position with Right Angle Contacts for Custom PCB Mounting	
510 108 126	Signal Module, ITA, TriPaddle, 96 Position	
510 108 131	Signal Module, ITA, TriPaddle, 256 Position	
510 108 132	Mini Coaxial Module, ITA, 76 Position	
510 108 138	Twinaxial Module, ITA, 8 Position.	
510 108 140	PCB Adapter, ITA, TriPaddle, 64 Position, to PCB-Mounted 2x34 pin (BERG 65496-019) Connectors	
510 108 144	Pneumatic Module, ITA, 5 Position (3/8" Flow)	
510 108 148 510 108 160	Preumatic Module, ITA, 10 Position (1/8" Flow)	
510 108 169	Coaxial Module, ITA, 40 GHz, 8 Position	
510 108 178	TriPaddle Signal/Mini Power Module, ITA, 16/16 Position	
510 108 179	Coaxial Module, ITA, 20/26 GHz, 75 Ohm and 75 Ohm HD, 32 Position	
510 108 210	TriPaddle Signal/Mini Coax Module, ITA, 16/16 Position	
510 108 240	Coaxial Module, ITA, 20/26 GHz, 17 Position	
510 108 242	Vacuum Module, ITA, 2 Port Positions	
510 108 245	TriPaddle Signal/Thermocouple Module, ITA, 84/12 Position	
510 108 251	Vacuum Module, ITA, 2 Port Positions with M22.5 x 1.5 Tap	
510 108 262	Micro Power and Micro Coaxial Module, ITA, 50 Position.	234
510 108 263	Micro Power and Micro Coaxial Module, ITA, 120 Position	235
510 108 264	Vacuum-Pneumatic Module, ITA, 1-2 Position	
510 108 276	Mini Coaxial Module, ITA, 37 Position	
510 108 278	TriPaddle Signal/Micro Coax Module, ITA, 77/8 Position	
510 108 281 510 109 116	TriPaddle Signal / High Power Module, ITA, 6/6 Position	
310 IUY I I A	Strain Relief Flate for Select Receiver Modules SILC SILC SILC SILC SILC SILC SILC SILC	771 757 75X 750

Part #	Description	Page Number
510 109 117	Module Retainer Block Set For Discrete Wiring 2 Module Positions	153, 163, 174
510 109 118	C-Size InterConnect Adapter, Double Slot, 4 Module Positions	
510 109 128	Connector Cover Plate for 25 Pin, D-Shell (for P/N 510 109 118)	175
510 109 129	Connector Cover Plate for 50 Pin, SCSI (for P/N 510 109 118)	
510 109 138	Connector Cover Plate for 50 Pin, D-Shell	175
510 109 139	Cable Clamp Option (Replaces Blank Cover Plate when Cabling into Adapter)	175
510 109 142	Connector Cover Plate for 9 Pin, D-Shell	175
510 109 149	Connector Cover Plate for 15 Pin, D-Shell	175
510 109 150	Slot 0 Module Retainer Block Set for Discrete Wiring Modules for 1 Module	153, 163, 174
510 109 179	C-Size InterConnect Adapter, Single Slot for 2 Module Positions, Clamp Style	153, 163, 174
510 109 197	InterConnect Adapter for A or B to C Carrier (uses VME to VXI Adapter)	
510 109 202	C-Size InterConnect Adapter, Single Slot (for use with Part # 510 109 355)	153, 175
510 109 204	Header, Receiver, i2 Micro iCon, 84 Pin, for PCB Mounting	31, 37, 41
510 109 206	Header, Receiver, i2 Micro iCon, 60 Pin, for PCB Mounting	
510 109 282	Strain Relief Plate 90 Series Receiver, Module, 50 Position, Micro Power and Micro Coaxial	
510 109 296	Strain Relief Plate for ITA Modules	
510 109 298	Strain Relief Plate for Receiver Modules	
510 109 299	Module Accessory Master Kit with Allen Wrenches	
510 109 300	Module Accessory Kit Quantity 39, 0-80 X .25" Screws	
510 109 301	Module Accessory Kit Quantity 26, .4-40 X .375" Screws	
510 109 302	Module Accessory Kit Quantity 26, .4-40 X .625" Screws	
510 109 303	Module Accessory Kit Quantity 26, .4-40 X .56" Screws	
510 109 305	Module Accessory Kit Quantity 26, .2-56 X .187" Screws	
510 109 306	Module Accessory Kit Quantity 26, .2-56 X .375" Screws	
510 109 307	Module Accessory Kit Quantity 26, .2-56 X .25" Screws	
510 109 315	Header/Shroud Right Angle Kit, ITA, QuadraPaddle, for Custom PCB Mounting (requires 510 151 107)	
510 109 316 510 109 326	Connector Cover Plate for 25 Pin, D-Shell (for P/N 510 109 179/197)	
510 109 326	Connector Cover Plate for 25 Pin, D-Shell (for P/N 510 109 179/197)	
510 109 327	Connector Cover Plate for 9 Pin, D-Shell (for P/N 510 109 179/197)	
510 109 328	Connector Cover Plate for 50 Pin, D-Shell (for P/N 510 109 179/197)	
510 109 329	Connector Plate for BNC Connector (for P/N 510 109 179)	
510 109 331	Connector Cover Plate with Cable Clamp (for Part # 510 109 179)	
510 107 337	C-Size InterConnect Adapter, Double Slot for use with Racal 1260-100 Carrier	
510 109 338	Strain Relief Plate for 160 pin DIN VXI Connectors	
510 109 339	PCB Adapter, ITA, QuadraPaddle, 192 Position, to PCB-mounted 2x68 Pin Female SCSI Connector	
510 109 348	Strain Relief Plate for QuadraPaddle 480 Position Receiver Modules	
510 109 349	Strain Relief Plate for QuadraPaddle 192 Position Receiver Modules.	,
510 109 354	VTI Instruments Mounting Ear Kit for SMP 1200 Carrier (for use with Part # 510 109 118)	
510 109 355	VTI Instruments Mounting Ear Kit for SMP 1100 Carrier (for use with Part # 510 109 202)	
510 109 359	Module Accessory Kit, 26 4-40x .750" Screws	
510 109 454	C-Size InterConnect Adapter, Single Slot, 2 Module Positions, Clamp Style with VXI Keying	175
510 109 461	PXI Pull-Thru Adapter, Single Slot, 1 Module Position	127, 133, 141
510 109 462	PXI Module Adapter, Single Slot, I Module Position	127, 133, 141
510 109 548	Strain Relief Plate for 50 Position ITA Micro Coax Module	234
510 109 568	Strain Relief Plate for 34 Position Receiver/ITA SIM Module	19, 27
510 109 572	Strain Relief Plate, iCon High Power, Receiver	61, 238
510 143 001	SIM Module Insert, Receiver, i2 MX, 11 Position	41, 46, 182
510 143 002	QuadraPaddle Signal, Module Insert, Receiver, i2 MX, 84 Position, Crimp	
510 143 003	QuadraPaddle Signal, Module Insert, Receiver, i2 MX, 84 Position, Fully Loaded w/ Twin Female Contacts (610 138	200)41, 187
510 143 004	TriPaddle Signal/Micro Power and Micro Coaxial, Module Insert, Receiver, i2 MX, 9/9 Position	
510 143 005	TriPaddle Signal/Mini Power and Mini Coaxial, Module Insert, Receiver, i2 MX, 8/8 Position	,
510 143 006	TriPaddle Signal, Module Insert, Receiver, i2 MX, 33 Position	41, 201
510 144 001	SIM Module Insert, ITA, i2 MX, 11 Position	
510 144 002	QuadraPaddle Signal, Module Insert, ITA, i2 MX, 84 Position, Crimp	
510 144 004	TriPaddle Signal/Micro Power and Micro Coaxial, Module Insert, ITA, i2 MX, 9/9 Position	
510 144 005	TriPaddle Signal/Mini Power and Mini Coaxial, Module Insert, ITA, i2 MX, 8/8 Position	
510 144 006	TriPaddle Signal, Module Insert, ITA, i2 MX, 33 Position	
510 150 115	Signal Module, Receiver, QuadraPaddle, 192 Position, Wire Crimp, Unloaded	
510 150 116	Signal Module, Receiver, QuadraPaddle, 480 Position, Unloaded	
510 150 120	PCB Adapter, Receiver, QuadraPaddle, 192 Position, to PCB-Mounted 2x96 SCSI Connectors	
510 150 125	PCB Adapter, Receiver, QuadraPaddle, 192 Position, to PCB-Mounted 2x68 Male SCSI Connectors	
510 150 126	PCB Adapter, Receiver, QuadraPaddle, 192 Position, to PCB-Mounted 2x68 Female VHDCl Connectors	
510 150 127	PCB Adapter, Receiver, QuadraPaddle, 192 Position, to PCB-Mounted 1x100 Female SCSI Connector	
510 150 128	PCB Adapter, Receiver, QuadraPaddle, 192 Position, 2x96 pin Male SCSI Connectors	
510 150 130	Signal Module, Receiver, QuadraPaddle, 192 Position, Fully Loaded with Twin Female Contacts (610 138 200)	
510 150 131	Signal Module, Receiver, QuadraPaddle, 480 Position, Fully Loaded with Twin Female Contacts (610 138 200)	190

Part #	Description	Page Number
510 150 135	Signal Module, Receiver, QuadraPaddle, 480 Position, Fully Loaded with Twin Female Contacts and Round Posts (610	138 200/117). 190
510 150 136	Signal Module, Receiver, QuadraPaddle, 192 Position, Fully Loaded for Wire Wrap (610 138 200 and 610 138 118)	,
510 150 137	Signal Module, Receiver, QuadraPaddle, 192 Position, Fully Loaded with Twin Female Contacts and Round Posts (610	138 200/117). 189
510 150 141	PCB Adapter, Receiver, QuadraPaddle, 192 Position to NI PXI-2532	
510 150 147	Signal Module, Receiver, QuadraPaddle, 480 Position, Fully Loaded for Wire Wrap (610 138 200 and 610 138 118)	
510 150 148	PCB Adapter, Receiver, 192 Position QuadraPaddle to NI PXI-2529	196
510 150 152	Signal Module, Receiver, QuadraPaddle,192 Position, Right Angle Contacts for PCB Mounting	
510 150 155	PCB Adapter, Receiver, QuadraPaddle, 192 Position, to PCB-Mounted 6x32-Pin Ribbon Cable Headers	195
510 150 165	PCB Adapter, ITA, QuadraPaddle, 192 Position, to PCB-Mounted 2x68 Male SCSI Connectors	
510 150 207	i2 PCB Adapter, Receiver, QuadraPaddle, 168 Position, to 2 PCB Mounted 68 Pin Male SCSI Connectors	
510 150 208	i2 PCB Adapter, Receiver, QuadraPaddle, 168 Position, to 2 PCB Mounted 68 Pin Female VHDCI Connectors	
510 150 210	PCB Adapter, Receiver, QuadraPaddle, 192 Position, to 2 PCB-Mounted 12X Male InfiniBand Connectors (LVDS)	
510 151 105	Signal Module, ITA, QuadraPaddle, 192 Position, Unloaded	
510 151 106	Signal Module, ITA, QuadraPaddle, 480 Position, Unloaded	
510 151 107	Signal Module, ITA, QuadraPaddle, 192 Position, Fully Loaded with Round Posts (610 138 115)	
510 151 108	Signal Module, ITA, QuadraPaddle, 480 Position, Fully Loaded with Round Posts (610 138 115)	
510 151 121	Signal Module, ITA, QuadraPaddle, 192 Position, Right Angle Contacts for Custom PCB Mounting	
510 151 123	PCB Adapter, ITA, QuadraPaddle, 192 Position, to PCB-Mounted 2x68 Female VHDCI Connectors	
510 151 124 510 151 127	Signal Module, ITA, Quadraraddle, 192 Position, Fully Loaded for Wire Wrap with Anti-Rotation (610 138 122)	
510 160 101	Signal Module, Receiver, QuadraPaddle, iCon, 160 Position, for Crimp Contacts	
510 160 101	QuadraPaddle Signal / Mini Power and Mini Coaxial Module, Receiver, iCon, 100/8 Position	
510 160 102	TriPaddle Signal / Mini Power and Mini Coaxial Module, Receiver, iCon, 64/8 Position	
510 160 104	Mini Power and Mini Coaxial Module, Receiver, iCon, 24 Position	
510 160 104	Signal Module, Receiver, QuadraPaddle, iCon, 160 Position, Fully Loaded with 610 138 200 Twin Female Contacts	
510 160 106	Micro Power and Micro Coaxial Module, Receiver, iCon, 40 Position	
510 160 107	QuadraPaddle Signal / Micro Power and Micro Coaxial Module, Receiver, iCon, 100/15 Position, for Crimp Contacts	
510 160 108	Signal Module, Receiver, TriPaddle, iCon, 96 Position	
510 160 109	TriPaddle Signal / Twinaxial Module, Receiver, iCon, 40/4 Position	
510 160 110	Thermocouple Module, Receiver, iCon, 96 Position.	
510 160 111	TriPaddle Signal / Micro Power and Micro Coaxial Module, Receiver, iCon, 24/30 Position	233
510 160 112	QuadraPaddle Signal / Micro Power and Micro Coaxial Module, Receiver, iCon, 100/15 Position, Fully Loaded with T (610 138 200)	
510160113	QuadraPaddle Signal/Micro Power or Micro Coaxial Module, REceiver, iCon, 100/15, Fully Loaded with Twin Female	
	Posts (610138200 and 610138117)	232
510 160 114	Coaxial Module, Receiver, iCon, 20/26 GHz and 75 Ohm HD, 18 Position	
510 160 115	TriPaddle Signal / 20/26 GHz and 75 Ohm HD Coaxial Module, Receiver, iCon, 64/8 Position	
510 160 122	Signal Module, Receiver, Quadrapaddle, iCon, 160 Position, Fully Loaded with Twin Female Contacts and Round Post	
510.1/0.10/	(610 138 200 and 610 138 117)	
510 160 124	TriPaddle Signal / High Power Module, Receiver, iCon, 4/4 Position	
510 161 101	Signal Module, ITA, QuadraPaddle, iCon, 160 Position	
510 161 102	QuadraPaddle Signal / Mini Power and Mini Coaxial Module, ITA, iCon, 100/8 Position	
510 161 103 510 161 104	TriPaddle Signal / Mini Power and Mini Coaxial Module, ITA, iCon, 64/8 Position	
510 161 104	Micro Power and Micro Coaxial Module, ITA, ICOI, 24 Position	
510 161 100	QuadraPaddle Signal / Micro Power and Micro Coaxial Module, ITA, iCon, 100/15 Position	
510 161 107	Signal Module, ITA, TriPaddle, iCon, 96 Position	
510 161 109	TriPaddle Signal / Twinaxial Module, ITA, iCon, 40/4 Position	
510 161 110	Thermocouple Module, ITA, iCon, 96 Position	
510 161 111	TriPaddle Signal / Micro Power and Micro Coaxial Module, ITA, iCon, 24/30 Position	
510 161 114	Coaxial Module, ITA, iCon, 20/26 GHz and 75 Ohm HD, 18 Position	
510 161 115	TriPaddle Signal / 20/26 GHz and 75 Ohm HD Coaxial Module, ITA, iCon, 64/8 Position	
510 161 124	TriPaddle Signal / High Power Module, ITA, iCon, 4/4 Position	
510 170 101	SIM Module, Receiver, 34 Position	
510 170 102	SIM Module, Receiver, 34 Position, Fully Loaded with VTAC HSD Double Ended and Right Angle Inserts (610 151 106	
510 170 103	PCB Adapter, Receiver, SIM, VTAC HSD, 34 Position, to 6 USB 3.0	25
510 170 104	PCB Adapter, Receiver, SIM, VTAC HSD, 5 Position, to 1 USB 3.0	
510 170 105	PCB Adapter, Receiver, SIM, VTAC HSD, 6 Position, to 1 Cat 6	24
510 171 101	SIM Module, ITA, 34 Position	
510 171 102	SIM Module, ITA, 34 Position, Fully Loaded with VTAC HSD Double Ended and Right Angle Inserts (610 151 106)	23
510 171 103	PCB Adapter, ITA, SIM, VTAC HSD, 34 Position, to 6 USB 3.0	
510 171 104	PCB Adapter, ITA, SIM, VTAC HSD, 5 Position, to 1 USB 3.0	
510 171 105	PCB Adapter, ITA, SIM, VTAC HSD, 6 Position, to 1 Cat 6	
510 180 101	Signal Insert, Receiver, SIM QuadraPaddle, 4 Positions	
510 181 101	Signal Insert, ITA, SIM QuadraPaddle, 4 Positions	
515 109 001	Cable Assembly, 68 Pin Male VHDCI (Thumb Screws) to 68 Pin Male VHDCI (Thumb Screws), 18"	
515 109 002	Cable Assembly, 68 Pin Male VHDCI (Thumb Screws) to 68 Pin Male VHDCI (Thumb Screws) 36"	191

Part #	Description	Page Number
515 109 007	Cable Assembly, 96 Pin Female SCSI (Spring Latch) to 96 Pin Female SCSI, Double Ended, 18"	194
515 109 008	Cable Assembly, 96 Pin Female SCSI (Spring Latch) to 96 Pin Male SCSI, Double Ended, 36"	
515 109 113	Cable Assembly, 68 Pin Female SCSI (Thumb Screws) to 68 Pin Male VHDCI (Thumb Screws), 18"	191
515 109 114	Cable Assembly, 68 Pin Female SCSI (Thumb Screws) to 68 Pin Male VHDCI (Thumb Screws), 36"	
515 109 117	Cable Assembly, 68 Pin Female SCSI (Thumb Screws) to 68 Pin Female SCSI (Thumb Screws), 18"	
515 109 118	Cable Assembly, 68 Pin Female SCSI (Thumb Screws) to 68 Pin Female SCSI (Thumb Screws), 36"	
515 109 119	Cable Assembly, 68 Pin Female SCSI (Thumb Screws) to 68 Pin Male SCSI (Spring Latch), 18"	
515 109 120	Cable Assembly, 68 Pin Female SCSI (Thumb Screws) to 68 Pin Male SCSI (Spring Latch), 36"	
515 109 121 515 109 122	Cable Assembly, 68 Pin Female SCSI (Thumb Screws) to 68 Pin Male SCSI (Thumb Screws), 18"	
515 109 122	Cable Assembly, 68 Pin Female SCSI (Thumb Screws) to 68 Pin Female SCSI (Spring Latch), 18"	
515 107 130	Cable Assembly, 68 Pin Female SCSI (Thumb Screws) to 68 Pin Female SCSI (Spring Latch), 36"	
515 109 133	Cable Assembly, 100 Pin Male SCSI (Thumb Screws) to 100 Pin Male SCSI, Twisted Pair, Double Ended, 36"	
515 109 134	Cable Assembly, 100 Pin Male SCSI (Thumb Screws) to 100 Pin Male SCSI, Twisted Pair, Double Ended, 18"	
515 109 162	Cable Assembly, 32 Pin .100" (2.54 mm) Pitch Ribbon Cable, Double Ended, 20"	
515 109 163	Cable Assembly, 32 Pin .100" (2.54 mm) Pitch Ribbon Cable, Double Ended, 36"	195
610 102 109	Coaxial Contact, Receiver, 20/26 GHz, Crimp/Clamp for SF142B	
610 102 110	Coaxial Contact, ITA, 20/26 GHz, Crimp/Clamp for SF142B	
610 102 114	Coaxial Contact, Receiver/ITA, 40 GHz	
610 102 118	Coaxial Contact, ITA, 20/26 GHz, Flex 402, Solder (Only Available in Patchcords)	
610 102 119	Coaxial Contact, Receiver, 20/26 GHz, Flex 402, Solder (Only Available in Patchcords)	
610 102 132	Coaxial Contact, ITA, 75 Ohm HD, sm59/U Belden 1855A, 3 GHz, Crimp	
610 102 133 610 102 134	Coaxial Contact, ITA, 20/26 GHz with SMA Adapter	
610 102 134	Coaxial Contact, NA, 20/20 GHz with SMA Adapter Coaxial Contact, Receiver, 20/26 GHz with SMA Adapter	
610 103 115	Mini Coaxial Contact, ITA, RG316	
610 103 129	Mini Coaxial Contact, ITA, with two .025" Square Posts, Wire Wrap	
610 103 130	Mini Coaxial Contact, ITA, RG178	
610 103 136	Mini Coaxial Contact, ITA, 24 AWG	214
610 103 140	Mini Coaxial Contact, ITA, Solder Sleeve, RG316 & RG178	215
610 103 150	Mini Coaxial Contact, ITA, two .025" Round Posts for PCB, .075" Spacing	
610 103 152	Mini Coaxial Contact, ITA, RG316 Double Shield	
610 103 161	Mini Coaxial Contact, ITA, 24 & 26 AWG Twisted Pair	
610 103 169	Coaxial Contact, ITA, 75 Ohm, RG179, Crimp	
610 103 172	Mini Coaxial Contact, ITA, 22 AWG	
610 103 184	Mini Coaxial Contact, ITA, 22 AWG, Twisted Pair	
610 104 114 610 104 140	Mini Coaxial Contact, Receiver, NGS 10	
610 104 141	Mini Coaxial Contact, Receiver, RG178	
610 104 142	Mini Coaxial Contact, Receiver, Solder Sleeve, RG316 & RG178	
610 104 149	Mini Coaxial Contact, Receiver, RG316 Double Shield.	
610 104 157	Coaxial Contact, Receiver, 75 Ohm, RG179, Crimp	240
610 104 160	Mini Coaxial Contact, Receiver, Right Angle Posts for PCB Mount	
610 110 101	Signal Contact, Receiver, TriPaddle, 7 Amp, 20-24 AWG, 30µ" Gold, Crimp/Solder	
610 110 108	Signal Contact, TriPaddle, ITA, 7 Amp, 20-24 AWG, 30µ" Gold, Crimp/Solder	
610 110 113	Signal Contact, TriPaddle, ITA, 7 Amp, .025" Post for Wire Wrap, 30μ " Gold	
610 110 128	Signal Contact, TriPaddle, Receiver, 10 Amp, 14 AWG max, 50µ" Gold, Crimp/Solder	
610 110 129	Signal Contact, TriPaddle, ITA, 10 Amp, 14-18 AWG max, 30µ" Gold, Crimp/Solder	
610 110 146 610 110 167	Signal Contact, TriPaddle, ITA, 7 Amp, 20-24 AWG, 50µ" Gold, Crimp/Solder	
610 110 169	Signal Contact, TriPaddle, ITA, 7 Amp, 26-28 AWG, 30µ Gold, Crimp/Solder	
610 110 177	Signal Contact, Receiver, TriPaddle, 10 Amp, 14-18 AWG, 30µ" Gold	
610 110 179	Signal Contact, TriPaddle, Receiver, 5 Amp, .025" Round Post, 30µ" Gold	
610 113 131	Thermocouple Contact, Receiver, Chromel	
610 113 132	Thermocouple Contact, Receiver, Alumel	
610 113 133	Thermocouple Contact, ITA, Chromel	255
610 113 134	Thermocouple Contact, ITA, Alumel	255
610 113 144	Twinaxial Contact, Receiver	
610 113 145	Twinaxial Contact, ITA	
610 113 170	Fiber Optic Contact, Receiver, Mini Fiber Optic, Polymer Optic Fiber	
610 113 171	Fiber Optic Contact, ITA, Mini Fiber Optic, Polymer Optic Fiber	
610 113 172	Fiber Optic Contact, Receiver, Mini Fiber Optic, Multimode Glass Fiber	
610 113 173 610 115 124	Fiber Optic Contact, ITA, Mini Fiber Optic, Multimode Glass Fiber	
610 115 124	Mini Power Contact, ITA, 8 AWG (max.), 50µ" Gold, Solder	
610 116 112	Mini Power Contact, Receiver, 8 AWG (max.), 50µ Gold, Solder	
610 131 101	Pneumatic Contact, Receiver, Ferruless Fitting, for 3/8" OD, .250" ID (9.5 x 6 mm) Tubing	

Part #	Description	Page Number
610 131 104	Pneumatic Contact, Receiver, Hose Barb, for 3/8" ID [9.5 mm] Tubing	261
610 131 106	Pneumatic Contact, Receiver, Hose Barb, for 1/8" ID [4 mm] Tubing	261
610 131 107	Pneumatic Contact (with valve), Hose Barb, for 1/8" ID [4 mm] Tubing	261
610 131 108	Mini Pneumatic Contact, Receiver, Hose Barb for 1/8" [3.2 mm] ID Tubing, Fits Mini Coaxial or Mini Power Mod	
610 132 101	Pneumatic Contact, ITA, Ferruless Fitting, for 3/8" OD, .250" ID (9.5 x 6 mm) Tubing	
610 132 104	Pneumatic Contact, ITA, Hose Barb, for 3/8" ID [9.5 mm] Tubing	
610 132 105	Pneumatic Contact, ITA, Hose Barb, for 1/8" ID [4 mm] Tubing	
610 132 106	Mini Pneumatic Contact, ITA, Hose Barb for 1/8" [3.2 mm] ID Tubing, Fits Mini Coaxial or Mini Power Modules.	
610 138 109	Signal Contact, ITA, QuadraPaddle, 5 Amp, 22–24 AWG, Crimp/Solder	
610 138 112	Signal Contact, ITA, QuadraPaddle, 5 Amp, 26–30 AWG, Crimp/Solder	
610 138 115 610 138 117	Signal Contact, 11A, Quadraradale, 3 Amp, Iwin Male Round Post	
610 138 118	Signal Contact, Receiver, QuadraPaddle, 5 Amp, Nate Adapter, 1025 Round Fost	
610 138 122	Signal Contact, ITA, QuadraPaddle, 5 Amp, .025" Square Post for Wire Wrap, with Anti-Rotation	
610 138 200	Signal Contact, Receiver, QuadraPaddle, 5 Amp, 30µ" Gold, Twin Female, Replacement Contact	
610 138 216	Signal Contact, Receiver, QuadraPaddle, 5 Amp, 30µ" Gold, 22-28 AWG, Crimp	
610 140 101	Micro Coaxial Contact, Receiver, RG316, Crimp	
610 140 102	Micro Coaxial Contact, Receiver, RG178, Crimp	227
610 140 103	Micro Coaxial Contact, Receiver, RG179, Crimp	
610 140 104	Micro Coaxial Contact, Receiver, RG316 Double Shield, Solder	227
610 141 101	Micro Coaxial Contact, ITA, RG316, Crimp	
610 141 102	Micro Coaxial Contact, ITA, RG178, Crimp	
610 141 103	Micro Coaxial Contact, ITA, RG179, Crimp	
610 141 104	Micro Coaxial Contact, ITA, RG316 Double Shield, Solder.	
610 142 101 610 142 102	Micro Power Contact, Receiver, 12-14 AWG, Crimp	
610 143 101	Micro Power Contact, ITA, 12-14 AWG, Crimp	
610 149 101	High Power Contact, Receiver, 150 Amps, 2 AWG, 30µ" Gold	
610 150 101	High Power Contact, ITA, 150 Amps, 2 AWG, 30µ" Gold	
610 151 101	High Speed Insert, Receiver/ITA, SIM, 12.5 Gbps, 50µ", VTAC HSD (Only Available in Patchcords)	
610 151 102	Blank Insert Kit, Receiver/ITA, SIM VTAC HSD, 10 Pieces	
610 151 103	High Speed Insert, Receiver/ITA, SIM, 50µ", VTAC HSD, Double Ended Insert (For Use with Right Angle Only)	19, 22, 23, 24, 25, 180
610 151 104	High Speed Insert, Receiver/ITA, SIM, 50µ", VTAC HSD, Right Angle Insert	19, 22, 23, 24, 25, 180
610 151 105	High Speed Insert, Receiver/ITA, SIM, 50μ ", VTAC HSD, Retention Insert (For Use with Right Angle Only)	
610 151 106	High Speed Insert, Receiver/ITA, SIM, 50μ", VTAC HSD Kit (For Use with Right Angle Only)	
7-101 914 000-036	Signal Patchcord, ITA, TriPaddle, 36", 14 AWG, Single Ended	
7-101 914 101-006	Signal Patchcord, ITA, TriPaddle, 6", 14 AWG, Double Ended Jumpers	
7-102 914 000-036 7-103 422 000-036	Signal Patchcord, Receiver, TriPaddle, 10 Amp., 36", 14 AWG, Single Ended	
7-103 422 000-036	Signal Patchcord, ITA, TriPaddle, 6", 22 AWG, Double Ended Jumpers	
7-103 424 000-036	Signal Patchcord, ITA, TriPaddle, 36", 24 AWG Twisted Pair, Single Ended	200
7-103 424 103-006	Signal Patchcord, ITA, TriPaddle, 6", 24 AWG, Double Ended Jumpers	
7-103 872 596-036	Signal Patchcord, ITA, TriPaddle, 36", USB 2.0 Wire, to USB Type A Plug	
7-103 922 000-036	Signal Patchcord, ITA, TriPaddle, 36", 22 AWG, Single Ended	200
7-103 922 103-006	Signal Patchcord, ITA, TriPaddle, 6", 22 AWG, Double Ended Jumpers	200
7-103 924 000-036	Signal Patchcord, ITA, TriPaddle, 36", 24 AWG, Single Ended	
7-103 924 103-006	Signal Patchcord, ITA, TriPaddle, 6", 24 AWG, Double Ended Jumpers	
7-104 422 000-036	Signal Patchcord, Receiver, TriPaddle, 36", 22 AWG Twisted Pair, Single Ended	
7-104 424 000-036	Signal Patchcord, Receiver, TriPaddle, 36", 24 AWG Twisted Pair, Single Ended	
7-104 872 596-036	Signal Patchcord, Receiver, TriPaddle, 36", USB 2.0 Wire, to USB Type A Plug	
7-104 922 000-036	Signal Patchcord, Receiver, TriPaddle, 36", 22 AWG, Single Ended	
7-104 924 000-036 7-105 870 595-036	Signal Patchcord, Receiver, TriPaddle, 36", 24 AWG, Single Ended	
7-106 870 595-036	Signal Patchcord, Receiver, TriPaddle, 36", CATSe, to RJ45 Plug	
7-121 422 000-036	Signal Patchcord, ITA, QuadraPaddle, 36", 22 AWG Twisted Pair, Single Ended	
7-121 422 121-006	Signal Patchcord, ITA, QuadraPaddle, 6", 22 AWG Twisted Pair, Double Ended Jumpers	
7-121 424 000-036	Signal Patchcord, ITA, QuadraPaddle, 36", 24 AWG Twisted Pair, Single Ended	186
7-121 424 121-006	Signal Patchcord, ITA, QuadraPaddle, 6", 24 AWG Twisted Pair, Double Ended Jumpers	186
7-121 872 596-036	Signal Patchcord, ITA, QuadraPaddle, 36", USB 2.0 Wire, to USB Type A Plug	
7-121 922 000-036	Signal Patchcord, ITA, QuadraPaddle, 36", 22 AWG, Single Ended	
7-121 922 121-006	Signal Patchcord, ITA, QuadraPaddle, 6", 22 AWG, Double Ended Jumpers	
7-121 924 000-006	Signal Patchcord, ITA, QuadraPaddle, 6", 24 AWG, Single Ended	
7-121 924 000-036	Signal Patchcord, ITA, QuadraPaddle, 36", 24 AWG, Single Ended	
7-121 924 121-006	Signal Patchcord, ITA, QuadraPaddle, 6", 24 AWG, Double Ended Jumpers	
7-123 870 595-036 7-123 426 000-036	Signal Patchcord, ITA, QuadraPaddle, 36", CAT5e, to RJ45 Plug	
7-124 422 000-036	Signal Patchcord, Receiver, QuadraPaddle, 22 AWG Twisted Pair, Single Ended	
	J ,	

Part #	Description	Page Number
7-124 424 000-036	Signal Patchcord, Receiver, QuadraPaddle, 24 AWG Twisted Pair, Single Ended	186
7-124 870 595-036	Signal Patchcord, Receiver, QuadraPaddle, CAT5e, to RJ45 Plug	186

7-382 179 000-036	Coaxial Patchcord, Receiver, 75 Ohm, 36", RG179, Single Ended	
7-383 143 000-036	20/26 GHz Coaxial Patchcord, ITA, 50 Ohm, 36", SF142B, Single Ended	
7-384 143 000-036	20/26 GHz Coaxial Patchcord, Receiver, 50 Ohm, 36", SF142B, Single Ended	244
7-387 102 000-036	20/26 GHz Coaxial Patchcord, ITA, 50 Ohm, 36", Flex 402, Single Ended	
7-388 102 000-036	20/26 GHz Coaxial Patchcord, Receiver, 50 Ohm, 36", Flex 402, Single Ended	
7-401 423 000-036	Twinaxial Patchcord, ITA, 3 Amp, 36", 22 AWG Shielded Twisted Pair, Single Ended	
7-402 423 000-036	Twinaxial Patchcord, Receiver, 3 Amp, 36", 22 AWG Shielded Twisted Pair, Single Ended	
7-409 803 000-036	Thermocouple Patchcord, ITA, 36", 24 AWG, Chromel and Alumel, Single Ended	
7-410 803 000-036 7-411 873 000-036	Thermocouple Patchcord, Receiver, 36", 24 AWG, Chromel and Alumel, Single Ended	
7-412 873 000-036	Coaxial Patchcord, Receiver, 75 Ohm HD, 36", sm59/U Belden 1855A, Single Ended	
7-413 845 000-036	Fiber Optic Patchcord, ITA, Mini Fiber Optic, 36", Polymer Optic Fiber, Single Ended	
7-413 845 504-036	Fiber Optic Patchcord, ITA, Mini Fiber Optic, 36", Polymer Optic Fiber, to FC with PC Polish	
7-413 845 510-036	Fiber Optic Patchcord, ITA, Mini Fiber Optic, 36", Polymer Optic Fiber, to SC with PC Polish	
7-414 845 000-036	Fiber Optic Patchcord, Receiver, Mini Fiber Optic, 36", Polymer Optic Fiber, Single Ended	
7-414 845 504-036	Fiber Optic Patchcord, Receiver, Mini Fiber Optic, 36", Polymer Optic Fiber, to FC with PC Polish	
7-414 845 507-036	Fiber Optic Patchcord, Receiver, Mini Fiber Optic, 36", Polymer Optic Fiber, to ST with PC Polish	
7-414 845 510-036	Fiber Optic Patchocord, Receiver, Mini Fiber Optic, 36", Polymer Optic Fiber, to SC with PC Polish	259
7-415 804 000-036	Fiber Optic Patchcord, ITA, Mini Fiber Optic, 36", Multimode Glass Fiber, Single Ended	
7-415 804 503-036	Fiber Optic Patchcord, ITA, Mini Fiber Optic, 36", Multimode Glass Fiber, to FC with SPC Polish	
7-415 804 506-036	Fiber Optic Patchcord, ITA, Mini Fiber Optic, 36", Multimode Glass Fiber, to ST with SPC Polish	
7-415 804 509-036	Fiber Optic Patchcord, ITA, Mini Fiber Optic, 36", Multimode Glass Fiber, to SC with SPC Polish	
7-415 804 512-036	Fiber Optic Patchcord, ITA, Mini Fiber Optic, 36", Multimode Glass Fiber, to LC with SPC Polish	
7-415 804 663-036	Fiber Optic Patchcord, ITA, Mini Fiber Optic, 36", Multimode Glass Fiber, to SMA-F with SPC Polish	
7-416 804 000-036 7-416 804 503-036	Fiber Optic Patchcord, Receiver, Mini Fiber Optic, 36", Multimode Glass Fiber, Single Ended Fiber Optic Patchcord, Receiver, Mini Fiber Optic, 36", Multimode Glass Fiber, to FC with SPC Polish	
7-416 804 506-036	Fiber Optic Patchcord, Receiver, Mini Fiber Optic, 36", Multimode Glass Fiber, to ST with SPC Polish	
7-416 804 509-036	Fiber Optic Patchcord, Receiver, Mini Fiber Optic, 36", Multimode Glass Fiber, to SC with SPC Polish	
7-416 804 512-036	Fiber Optic Patchcord, Receiver, Mini Fiber Optic, 36", Multimode Glass Fiber, to LC with SPC Polish	
7-416 804 663-036	Fiber Optic Patchcord, Receiver, Mini Fiber Optic, 36", Multimode Glass Fiber, to SMA-F with SPC Polish	
7-528 143 000-036	Coaxial Patchcord, SMA Plug, 36", SF142 Tan, Single Ended	248
7-531 102 000-036	Coaxial Patchcord, SMA Plug, 36", Flex 402 Blue, Single Ended	248
7-632 195 632-036	Coaxial Patchcord, 2.92mm Plug, 36", Double Ended (40 GHz)	
910 101 102	Tool, Crimp, 10 Amp TriPaddle, Thermocouple, Micro Power, Receiver and ITA, Locator Required	
910 101 103	Tool, Crimp, QuadraPaddle and TriPaddle, Receiver and ITA Contacts, Locator Required	
910 101 115	Tool, Crimp, Coaxial	
910 101 118	Tool, Crimp, Coaxial Contacts, ITA, 24 AWG Wire	
910 101 124	Tool, Crimp, 20/26 GHz Coaxial Contacts, Receiver and ITA	
910 101 125 910 101 131	Tool, Crimp, QuadraPaddle, Receiver	
910 101 131	Tool, Crimp, Micro Coaxial, RG179 & RG316, Receiver and ITA	
910 101 135	Tool, Locator, Micro Coaxial, Receiver	
910 101 139	Tool, Locator, Micro Coaxial, ITA	
910 102 106	Tool Kit, 75 Ohm Coaxial Contacts, Receiver	
910 102 107	Tool Kit, 75 Ohm Coaxial, ITA	
910 102 116	Tool, Crimp Kit (Pneumatic Crimp Tool, Locator and Die), High Power, Receiver and ITA	
910 102 117	Tool, Crimp Kit (Locator and Die), High Power, Receiver and ITA	237
910 104 107	Tool, Locator, TriPaddle, ITA	199
910 104 116	Tool, Locator, TriPaddle, Receiver	
910 104 118	Tool, Locator, TriPaddle, ITA	
910 104 127	Tool, Locator, TriPaddle, Receiver	
910 104 128	Tool, Locator, Coaxial Contacts, 24 AWG Wire	
910 104 134	Tool, Locator, Thermocouple, Receiver	255

Part #	Description	Page Number
910 104 139	Tool, Hex Crimp for Outer Shield, 75 Ohm Coaxial, Receiver and ITA	240, 242
910 104 140	Tool, Locator, QuadraPaddle, ITA Contact	185
910 104 144	Tool, Locator, Micro Power, ITA	225
910 104 145	Tool, Locator, Micro Power, Receiver	225
910 110 102	Tool, Extraction, TriPaddle and Thermocouple, Receiver and ITA	216, 255
910 110 111	Tool, Extraction, ITA, QuadraPaddle	185
910 110 112	Tool, Extraction, Receiver, QuadraPaddle	185
910 112 104	Tool, Extraction, Mini Power/Mini Coaxial/Mini Pneumatic Contacts, Receiver and ITA	210, 216, 263
910 112 117	Tool, Extraction, 75 Ohm and 20/26 GHz Coaxial, Receiver and ITA	240, 242, 244
910 112 123	Tool, Extraction, Micro Power/Micro Coaxial Contacts	229
910 112 125	Tool, Extraction, Mini Fiber Optic, Receiver and ITA	259, 260
910 112 129	Tool, Extraction, High Power, Receiver and ITA	237
910 112 130	Extraction Tool, SIM, Receiver and ITA	22, 23, 24, 25, 180
910 112 132	Tool, Insertion, Right Angle, VTAC HSD (For Use with Right Angle Only)	22, 23
910 113 106	Tool, Insertion, QuadraPaddle ITA Wire-Wrap Contact	185
910 121 119	Tool, Center Conductor Forming, Mini Coaxial, Receiver (used before assembly)	216
910 121 126	Tool, Outer Shield Conductor Expanding, Mini Coaxial, ITA	216
910 121 131	Tool, Weight Gage Kit, Mini Coaxial, Receiver	216
910 121 142	Tool, Outer Shield Conductor Expanding, Mini Coaxial, ITA	216
910 121 143	Tool, Center Conductor Enlarging, Receiver	216
910 121 144	Solder Kit, Mini Coaxial Contacts with Solder Sleeve (includes Raychem Holding Fixture AD-1319)	216
910 121 149	Tool, Adapter for Raychem Holding Fixture (AD-1319-29)	216
910 121 155	Tool, Weight Gage Kit for Mini Coaxial Contacts, ITA	216
910 121 156	Tool, Inspection Depth Gage, Mini Coaxial, Receiver	216
910 121 157	Tool, Inspection Depth Gage, Mini Coaxial, ITA	216
910 121 160	Tool, Steinel Heat Gun with Nozzle – 110V	216
910 121 167	Tool, Steinel Heat Gun with Nozzle – 220V	216
910 121 172	Module Accessory Kit, Quantity 5, 3/32 Allen Wrenches	177
910 121 174	Allen Wrench Kit, Contains 3/32, 7/64 and 5/32	177
910 121 178	Tool, Soldering Fixture, Micro Coaxial, Receiver and ITA	229
910 121 179	Tool, Inspection Depth Gage, Micro Coaxial, Receiver	229
910 121 180	Tool, Inspection Depth Gage, Micro Coaxial, ITA	229
910 121 192	Tool, Fiber Optic Cleaning Pen, Multimode Glass Fiber, Receiver/ITA	259, 260
910 121 199	Tool, Press Kit, for i2 PCB Headers	37

More Information from VPC!

For more solutions, please visit our website, **vpc.com**. More detailed information about each product is available, such as product drawings, specifications, tech tips, and user manuals. In addition, our advanced search tool can help you find additional products that may not be listed in the catalog. You can also find downloadable literature such as catalogs, brochures and flyers. To learn more about what VPC can do for you, visit **vpc.com**.

VPC's online configuration tools enable you to design and configure your complete test and measurement solution. Choose from designing patchcords, configuring cable assemblies, PCB adapters, or a complete Mass InterConnect solution. We have made it easy to find the right part numbers you will need to make your connections.

Visit vpc.com/configurators.

Explore our Mass InterConnect Solutions. VPC's full line of Mass InterConnect solutions range from 2 to 75 modules to satisfy low, medium, and high I/O test and measurement connection requirements. Our Master and iSeries catalogs provide detailed product information on our entire Mass InterConnect product line, to ensure you find and receive the solution ideal for your needs. To request these catalogs, please visit **vpc.com/catalog**.
